HONOLULU, HI (January 25, 2010) -- Bank of Hawaii Corporation (NYSE: BOH) today reported diluted earnings per share of \$0.84 for the fourth quarter of 2009, up from \$0.76 per diluted share in the previous quarter, and higher than the \$0.82 per diluted share for the same quarter last year. Financial Highlights

Net interest income, on a taxable equivalent basis, for the fourth quarter of 2009 was \$103.8 million, down \$5.4 million from net interest income of \$109.2 million in the third quarter of 2009 and down \$2.3 million from net interest income of \$106.1 million in the fourth quarter of 2008. Net interest income, on a taxable equivalent basis, for the full year of 2009 was \$413.5 million, down \$6.2 million from net interest income of \$419.7 million in 2008. Analyses of changes in net interest income are included in Tables 7a, 7b and 7c.

The net interest margin was 3.57 percent for the fourth quarter of 2009, a 28 basis point decrease from the previous quarter and an 86 basis point decrease from the same quarter last year. The net interest margin for the full year of 2009 was 3.72 percent, a 61 basis point decrease from 4.33 percent in 2008. The reduction in the net interest margin was largely the result of lower interest rates and the Company's strategy to limit interest rate risk on new investment securities.

Results for the fourth quarter of 2009 included a provision for credit losses of \$26.8 million compared to \$27.5 million in the third quarter of 2009 and \$18.6 million in the fourth quarter of 2008. The provision for credit losses exceeded net charge-offs in the fourth quarter of 2009 by \$1.0 million. Provision expense exceeded net charge-offs by \$5.2 million in the third quarter of 2009 and by \$8.0 million in the fourth quarter of 2008. The provision for credit losses for the full year of 2009 was \$107.9 million compared to \$60.5 million in 2008.

Noninterest income was \$80.8 million for the fourth quarter of 2009, an increase of \$24.0 million compared to \$56.8 million in the third quarter of 2009 and up \$26.3 million compared to \$54.5 million in the fourth quarter of 2008. The increase compared to the previous quarters was largely due to net gains of \$25.7 million on sales of investment securities, including a complete liquidation of the remaining private label mortgage securities. Noninterest income for the full year of 2009 was \$267.8 million, up \$9.7 million or 3.8 percent from noninterest income of \$258.1 million in 2008.

Noninterest expense was \$88.5 million in the fourth quarter of 2009, up \$4.5 million from noninterest expense of \$84.0 million in the third quarter of 2009, and up \$5.8 million compared with \$82.7 million in the same quarter last year. Noninterest expense in the fourth quarter of 2009 included \$4.1 million for grants to employees for the purchase of company stock, \$2.0 million for employee incentives, and a donation of \$1.0 million to the Bank of Hawaii Charitable Foundation. Full year salaries and benefits expense in 2009 were down \$3.4 million or 1.8 percent compared to 2008. An analysis of salary and benefit expenses is included in Table 8. Noninterest expense for the full year of 2009 was \$350.0 million, up \$3.3 million or 0.9 percent from noninterest expense of \$346.8 million in 2008. Excluding FDIC insurance, noninterest expense was down \$12.6 million or 3.6 percent.

The efficiency ratio for the fourth quarter of 2009 was 48.02 percent, lower than 50.69 percent in the previous quarter, and lower than 51.58 percent in the same quarter last year. The Company's business segments are defined as Retail Banking, Commercial Banking, Investment Services, and Treasury & Other. Results are determined based on the Company's internal financial management reporting process and organizational structure. Selected financial information for the business segments is included in Tables 12a and 12b.

Asset Quality

Credit quality during the fourth quarter of 2009 continued to reflect a still weakened economy. Non-performing assets were \$48.3 million at December 31, 2009, down slightly from \$48.5 million at September 30, 2009, and up from \$14.9 million at December 31, 2008. As a percentage of total loans and leases (including loans held for sale and foreclosed real estate), non-performing assets were 0.84 percent at December 31, 2009.

Accruing loans and leases past due 90 days or more were \$13.7 million at December 31, 2009, up from \$12.3 million at September 30, 2009, and down from \$14.2 million at December 31, 2008. The increase in past due residential mortgages was largely related to loans on neighbor island properties. More information on non-performing assets and accruing loans and leases past due 90 days or more is presented in Table 10.

Net charge-offs during the fourth quarter of 2009 were \$25.8 million compared with \$22.3 million in the third quarter of 2009, and \$10.6 million in the fourth quarter last year. Net charge-offs for the fourth quarter of 2009 included \$9.4 million for a leveraged lease related to the bankruptcy filing of an airline company, which was substantially reserved in the fourth quarter of 2008.

The allowance for loan and lease losses was \$143.7 million at December 31, 2009, up from \$142.7 million at September 30, 2009 and \$123.5 million at December 31, 2008. The ratio of the allowance for loan and lease losses to total loans and leases increased to 2.49 percent at December 31, 2009. The reserve for unfunded commitments at December 31, 2009 was unchanged at \$5.4 million. Details of charge-offs, recoveries and the components of the total reserve for credit losses are summarized in Table 11.

Other Financial Highlights

Total assets were \$12.41 billion at December 31, 2009, higher than total assets of \$12.21 billion at September 30, 2009, and up from total assets of \$10.76 billion at December 31, 2008. Average total assets were \$12.28 billion during the fourth quarter of 2009, higher than average assets of \$11.99 billion during the previous quarter, and up from average assets of \$10.31 billion during the fourth quarter last year. Growth in investment securities offset the continued decline in loan balances due to reduced loan demand, payoffs, and loan sales to reduce overall portfolio risk.

Total deposits increased to \$9.41 billion at December 31, 2009, higher than the \$9.25 billion at September 30, 2009, and up from \$8.29 billion at December 31, 2008. Average total deposits were \$9.32 billion in the fourth quarter of 2009, higher than average deposits of \$9.13 billion during the previous quarter, and up from \$7.72 billion during the fourth quarter last year.

As a result of the strong deposit growth, the investment portfolio grew to \$5.51 billion at year-end, compared to \$5.02 billion at September 30, 2009 and \$2.85 billion at December 31, 2008.

Consistent with the Company's strategy to build capital levels, no shares were repurchased during 2009. Remaining buyback authority under the share repurchase program was \$85.4 million at December 31, 2009. Total shareholders' equity was \$896.0 million at December 31, 2009, down slightly from \$902.8 million at September 30, 2009 due to a lower level of unrealized gains in the investment portfolio, and up from \$790.7 million at December 31, 2008.

The ratio of tangible common equity to risk-weighted assets was 15.45 percent at December 31, 2009, up from 14.56 percent at September 30, 2009, and higher than the 11.28 percent at December 31, 2008. At December 31, 2008, the Tier 1 leverage ratio was 6.78 percent compared to 6.67 percent at September 30, 2009 and 7.30 percent at December 31, 2008. The decrease in the Tier 1 leverage ratio compared to December 31, 2008 was due to significant growth in investment securities, primarily Ginnie Mae and Treasury securities.

The Company's Board of Directors declared a quarterly cash dividend of \$0.45 per share on the Company's outstanding shares. The dividend will be payable on March 12, 2010 to shareholders of record at the close of business on February 26, 2010.

Hawaii Economy

Hawaii's economy during the fourth quarter of 2009 began to reflect some early signs of stabilization; however the slow U. S. and international economic conditions continue to result in weakness in the state. Visitor arrivals began to recover during the summer months and scheduled air seats for December 2009 through February 2010 are higher compared to a year ago. Visitor spending remains weak, down 12.8 percent year-to-date through November. The statewide unemployment rate improved slightly to a seasonally adjusted 6.9 percent in December and remains well below the national average. Neighbor islands continue to experience higher unemployment than Oahu. Home sales on Oahu are beginning to improve and months of inventory continue to decline. More information on Hawaii economic trends is presented in Table 14.

During 2010, Bank of Hawaii will continue to focus on maintaining high levels of liquidity, strong capital, and reserves, as well as disciplined lending and investment strategies. The Bank will maintain an emphasis on improved productivity, technology and service enhancements, as well as management of risk and expenses.
