

**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION**  
Washington, D.C. 20549  
**FORM 10-Q**

(Mark One)

**Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the quarterly period ended September 30, 2021**

or

**Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the transition period from \_\_\_\_\_ to \_\_\_\_\_**

Commission File Number: 1-6887

**BANK OF HAWAII CORP**

(Exact name of registrant as specified in its charter)

**Delaware**

(State of incorporation)

**99-0148992**

(I.R.S. Employer Identification No.)

**130 Merchant Street**

(Address of principal executive offices)

**Honolulu**

(City)

**Hawaii**

(State)

**96813**

(Zip Code)

**1-888-643-3888**

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol</u>	<u>Name of each exchange on which registered</u>
<b>Common Stock, par value \$0.01 per share</b>	<b>BOH</b>	<b>New York Stock Exchange</b>
<b>Depository Shares, Each Representing 1/40<sup>th</sup> Interest in a Share of 4.375% Fixed Rate Non-Cumulative Preferred Stock, Series A</b>	<b>BOH.PRA</b>	<b>New York Stock Exchange</b>

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes  No

As of October 20, 2021, there were 40,245,113 shares of common stock outstanding.

The accompanying notes are an integral part of the Consolidated Financial Statements (Unaudited).

**Bank of Hawaii Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**  
**(Unaudited)**

**Note 1. Summary of Significant Accounting Policies**

*Basis of Presentation*

Bank of Hawaii Corporation (the “Parent”) is a Delaware corporation and a bank holding company headquartered in Honolulu, Hawaii. Bank of Hawaii Corporation and its subsidiaries (collectively, the “Company”) provide a broad range of financial products and services to customers in Hawaii, Guam, and other Pacific Islands. The majority of the Company’s operations consist of customary commercial and consumer banking services including, but not limited to, lending, leasing, deposit services, trust and investment activities, brokerage services, and trade financing. The accompanying consolidated financial statements include the accounts of the Parent and its subsidiaries. The Parent’s principal operating subsidiary is Bank of Hawaii (the “Bank”).

The consolidated financial statements in this report have not been audited by an independent registered public accounting firm, but, in the opinion of management, reflect all adjustments necessary for a fair presentation of the results for the interim periods. All such adjustments are of a normal recurring nature. Intercompany accounts and transactions have been eliminated in consolidation. Certain prior period information has been reclassified to conform to the current period presentation. Operating results for the interim periods disclosed herein are not necessarily indicative of the results that may be expected for the full fiscal year or for any future period.

The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and accompanying notes required by GAAP for complete financial statements and should be read in conjunction with the audited consolidated financial statements and related notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2020.

*Preferred Stock Issuance*

On June 15, 2021, the Company issued and sold 7,200,000 depositary shares (the “depositary shares”), each representing a 1/40<sup>th</sup> ownership interest in a share of 4.375% Fixed Rate Non-Cumulative Perpetual Preferred Stock, Series A, par value \$0.01 per share (the “Series A Preferred Stock”). The Series A Preferred Stock has a liquidation preference of \$1,000 per share. Net proceeds, after underwriting discounts and expenses, totaled \$175.5 million. Dividends on the Series A Preferred Stock are not cumulative and will be paid when declared by the Parent’s Board of Directors to the extent that we have legally available funds to pay dividends. If declared, dividends will accrue and be payable quarterly, in arrears, on the liquidation preference amount, on a non-cumulative basis, at a rate of 4.375% per annum. Holders of the Series A Preferred Stock will not have voting rights, except with respect to certain changes in the terms of the preferred stock, certain dividend non-payments and as otherwise required by applicable law. The Company may redeem the Series A Preferred Stock at its option, (i) in whole or in part, from time to time, on any dividend payment date on or after August 1, 2026 or (ii) in whole but not in part, at any time within 90 days following a regulatory capital treatment event, in either case at a redemption price equal to \$1,000 per share (equivalent to \$25 per depositary share), plus any declared and unpaid dividends.

On October 5, 2021, the Parent’s Board of Directors declared a cash dividend payment of \$10.94 per share on its Series A Preferred Stock. This dividend equals \$0.2735 per depositary share. The dividend will be payable on November 1, 2021, to shareholders of record of the Series A Preferred Stock at the close of business on October 18, 2021.

*Accounting Standards Adopted in 2021*

In December 2019, the FASB issued ASU No. 2019-12, “*Simplifying the Accounting for Income Taxes.*” This ASU simplifies the accounting for income taxes by eliminating certain exceptions to the guidance in ASC 740 related to the approach for intraperiod tax allocation, the methodology for calculating income taxes in an interim period and the recognition of deferred tax liabilities for outside basis differences. The new guidance also simplifies aspects of the accounting for franchise taxes and enacted changes in tax laws or rates and clarifies the accounting for transactions that result in a step-up in the tax basis of goodwill. Finally, it clarifies that single-member limited liability companies and similar disregarded entities that are not subject to income tax are not required to recognize an allocation of consolidated income tax expense in their separate financial statements, but they could elect to do so. ASU 2019-12 is effective for interim and annual reporting periods beginning after December 15, 2020. ASU 2019-12 did not have a material impact on the Company’s Consolidated Financial Statements.

**Note 2. Cash and Cash Equivalents**

The following table provides a reconciliation of cash and cash equivalents reported within the consolidated statements of condition that sum to the total of the same such amounts shown in the consolidated statements of cash flows:

(dollars in thousands)	September 30, 2021	December 31, 2020
Interest-Bearing Deposits in Other Banks	\$ 2,188	\$ 1,646
Funds Sold	422,063	333,022
Cash and Due From Banks	231,711	279,420
<b>Total Cash and Cash Equivalents</b>	<b>\$ 655,962</b>	<b>\$ 614,088</b>

**Note 3. Investment Securities**

The amortized cost, gross unrealized gains and losses, and fair value of the Company's investment securities as of September 30, 2021, and December 31, 2020, were as follows:

(dollars in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
<b>September 30, 2021</b>				
<b>Available-for-Sale:</b>				
Debt Securities Issued by the U.S. Treasury and Government Agencies	\$ 143,409	\$ 1,561	\$ (106)	\$ 144,864

The Company elected to exclude accrued interest receivable ("AIR") from the amortized cost basis of debt securities disclosed throughout this footnote. For available-for-sale ("AFS") debt securities, AIR totaled \$7.9 million and \$6.6 million as of September 30, 2021, and December 31, 2020, respectively. For held-to-maturity ("HTM") debt securities, AIR totaled \$9.0 million and \$6.8 million as of September 30, 2021, and December 31, 2020, respectively. AIR is included in the "accrued interest receivable" line item on the Company's consolidated statements of condition.

The table below presents an analysis of the contractual maturities of the Company's investment securities as of September 30, 2021. Debt securities issued by government agencies (Small Business Administration securities) and mortgage-backed securities are disclosed separately in the table below as these investment securities may prepay prior to their scheduled contractual maturity dates.

(dollars in thousands)	Amortized Cost		Fair Value	
<b>Available-for-Sale:</b>

Due After Five Years Through Ten Years		270,764		271,069
		408,272		411,248
Debt Securities Issued by Government Agencies		142,664		144,113
<b>Mortgage-Backed Securities:</b>				
Residential - Government Agencies		1,410,231		1,417,183
Residential - U.S. Government-Sponsored Enterprises		2,223,697		2,200,052
Commercial - Government Agencies		177,721		180,924
<b>Total Mortgage-Backed Securities</b>		<b>3,811,649</b>		<b>3,798,159</b>
<b>Total</b>	<b>\$</b>	<b>4,362,585</b>	<b>\$</b>	<b>4,353,520</b>
<b>Held-to-Maturity:</b>				
Due in One Year or Less		33,254		33,379
Due After One Year Through Five Years		17,290		17,285
Due After Five Year Through Ten Years		123,966		124,204
Due After Ten Years		11,342		11,071
		185,852		185,939
<b>Mortgage-Backed Securities:</b>				
Residential - Government Agencies		1,877,804		1,881,962
Residential - U.S. Government-Sponsored Enterprises		2,371,155		2,369,441
Commercial - Government Agencies		465,069		458,421
<b>Total Mortgage-Backed Securities</b>		<b>4,714,028</b>		<b>4,709,824</b>
<b>Total</b>	<b>\$</b>	<b>4,899,880</b>	<b>\$</b>	<b>4,895,763</b>

Investment securities with carrying values of \$3.5 billion and \$3.6 billion as of September 30, 2021, and December 31, 2020, respectively, were pledged to secure deposits of governmental entities, securities sold under agreements to repurchase, and FRB discount window borrowing.

The table below presents the gains and losses from the sales of investment securities for the three and nine months ended September 30, 2021, and September 30, 2020:

(dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
Gross Gains on Sales of Investment Securities	\$ 110	\$ —	\$ 3,785	\$ 14,257
Gross Losses on Sales of Investment Securities	(1,369)	(1,121)	(3,824)	(3,132)
<b>Net Gains (Losses) on Sales of Investment Securities</b>	<b>\$ (1,259)</b>	<b>\$ (1,121)</b>	<b>\$ (39)</b>	<b>\$ 11,125</b>

Net investment securities losses totaled \$1.3 million in the third quarter of 2021 compared to \$1.1 million during the same period in 2020. The net loss in the third quarter of 2021 was primarily due to the fees paid to the counterparties of our prior Visa Class B share sale transactions. The net losses of \$39 thousand in the first nine months of 2021 was primarily due to \$3.8 million of the fees paid to the counterparties of our prior Visa Class B shares and was partially offset by the net gain from the sale of mortgage-backed securities, corporate and government debt securities. The net gain of \$11.2 million in the first nine months of 2020 was primarily due to the sale of 80,214 Visa Class B shares.

The following table summarizes the Company's AFS debt securities in an unrealized loss position for which an allowance for credit losses was not deemed necessary, aggregated by major security type and length of time in a continuous unrealized loss position:

	Less Than 12 Months		12 Months or Longer		Total

<b>Total Mortgage-Backed Securities</b>	<b>232,615</b>	<b>(604)</b>	<b>28,063</b>	<b>(223)</b>	<b>260,678</b>	<b>(827)</b>
<b>Total</b>	<b>\$ 318,953</b>	<b>\$ (1,499)</b>	<b>\$ 165,159</b>	<b>\$ (876)</b>	<b>\$ 484,112</b>	<b>\$ (2,375)</b>

<sup>1</sup> The fair value and gross unrealized losses as of December 31, 2020, have been updated to properly reflect the length of time they were in a continuous unrealized loss position.

The Company does not believe that the AFS debt securities that were in an unrealized loss position as of September 30, 2021, which were comprised of 213 individual securities, represent a credit loss impairment. The gross unrealized losses were primarily attributable to changes in interest rates, relative to when the investment securities were purchased. As of September 30, 2021, and December 31, 2020, the gross unrealized losses reported for mortgage-backed securities were mostly related to investment securities issued by Ginnie Mae, Fannie Mae, and Freddie Mac. The Company does not intend to sell the investment securities that were in an unrealized loss position and it is not more likely than not that the Company will be required to sell the investment securities before recovery of their amortized cost basis, which may be at maturity.

Substantially all of the Company's HTM debt securities are issued by U.S. government agencies or U.S. government-sponsored enterprises. These securities carry the explicit and/or implicit guarantee of the U.S. government, are widely recognized as "risk free," and have a long history of zero credit loss. Therefore, an allowance for credit losses for these securities was not deemed necessary as of September 30, 2021.

Interest income from taxable and non-taxable investment securities for the three and nine months ended September 30, 2021, and September 30, 2020, were as follows:

(dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
Taxable	\$ 32,889	\$ 30,027	\$ 91,510	\$ 96,150
Non-Taxable	261	498	820	1,637
<b>Total Interest Income from Investment Securities</b>	<b>\$ 33,150</b>	<b>\$ 30,525</b>	<b>\$ 92,330</b>	<b>\$ 97,787</b>

As of September 30, 2021, and December 31, 2020, the carrying value of the Company's Federal Home Loan Bank of Des Moines stock and Federal Reserve Bank stock was as follows:

(dollars in thousands)	September 30, 2021		December 31, 2020	
Federal Home Loan Bank of Des Moines Stock	\$	10,000	\$	12,000
Federal Reserve Bank Stock		21,574		21,340
<b>Total</b>	<b>\$</b>	<b>31,574</b>	<b>\$</b>	<b>33,340</b>

These securities can only be redeemed or sold at their par value and only to the respective issuing institution or to another member institution. The Company records these non-marketable equity securities as a component of other assets and periodically evaluates these securities for impairment. Management considers these non-marketable equity securities to be long-term investments. Accordingly, when evaluating these securities for impairment, management considers the ultimate recoverability of the par value rather than recognizing temporary declines in value.

#### *Visa Class B Restricted Shares*

In 2008, the Company received Visa Class B restricted shares as part of Visa's initial public offering. These shares are transferable only under limited circumstances until they can be converted into the publicly traded Class A common shares. This conversion will not occur until the settlement of certain litigation which will be indemnified by Visa members, including the Company. Visa funded an escrow account from its initial public offering to settle these litigation claims. Should this escrow account be insufficient to cover these litigation claims, Visa is entitled to fund additional amounts to the escrow account by reducing each member bank's Class B conversion ratio to unrestricted Class A shares. As of September 30, 2021, the conversion ratio was 1.6228. See Note 11 *Derivative Financial Instruments* for more information.

During the second quarter of 2020, the Company sold its remaining 80,214 Visa Class B Shares and recorded a \$14.2 million gain on sale. As a result of this sale, the Company no longer owns any Visa Class B shares.

**Note 4. Loans and Leases and the Allowance for Credit Losses***Loans and Leases*

The Company's loan and lease portfolio was comprised of the following as of September 30, 2021, and December 31, 2020:

(dollars in thousands)	September 30, 2021	December 31, 2020
<b>Commercial</b>		
Commercial and Industrial	\$ 1,325,446	\$ 1,357,610
PPP 1	268,480	517,683
Commercial Mortgage	2,994,520	2,854,829
Construction	296,052	259,798
Lease Financing	107,526	110,766
<b>Total Commercial</b>	<b>4,992,024</b>	<b>5,100,686</b>
<b>Consumer</b>		
Residential Mortgage	4,272,540	4,130,513
Home Equity	1,680,229	1,604,538
Automobile	727,234	708,800
Other 2	400,723	395,483
<b>Total Consumer</b>	<b>7,080,726</b>	<b>6,839,334</b>
<b>Total Loans and Leases</b>	<b>\$ 12,072,750</b>	<b>\$ 11,940,020</b>

1 The PPP amounts presented, which are reported net of deferred costs and fees, were previously included as a component of the Commercial and Industrial loan class.

2 Comprised of other revolving credit, installment, and lease financing.

The majority of the Company's lending activity is with customers located in the State of Hawaii. A substantial portion of the Company's real estate loans are secured by real estate in Hawaii.

Net gains related to sales of residential mortgage loans, recorded as a component of mortgage banking income were \$1.2 million and \$3.4 million for the three months ended September 30, 2021, and September 30, 2020, respectively, and \$5.9 million and \$9.0 million for the nine months ended September 30, 2021, and September 30, 2020, respectively.

The Company elected to exclude AIR from the amortized cost basis of loans disclosed throughout this footnote. As of September 30, 2021, and December 31, 2020, AIR for loans totaled \$29.9 million and \$35.9 million, respectively, and is included in the "accrued interest receivable" line item on the Company's consolidated statements of condition.

In response to the COVID-19 pandemic, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was passed by Congress and signed into law on March 27, 2020. The CARES Act established the PPP, which provides loans to small businesses who were affected by economic conditions as a result of COVID-19 to provide cash-flow assistance to employers who maintain their eligible costs during the COVID-19 emergency. PPP loans carry an interest rate of one percent, and a maturity of two or five years. These loans are fully guaranteed by the Small Business Administration ("SBA") and may be eligible for forgiveness by the SBA to the extent that the proceeds are used to cover eligible costs over a period of up to 24 weeks after the loan is made as long as certain conditions are met regarding employee retention and compensation levels. PPP loans deemed eligible for forgiveness by the SBA will be repaid by the SBA to the Company. The SBA pays the Company fees for processing PPP loans. These processing fees are accounted for as loan origination fees and recognized over the contractual loan term as a yield adjustment on the loans.

### Allowance for Credit Losses (the "Allowance")

The following presents by portfolio segment, the activity in the Allowance for the three and nine months ended September 30, 2021, and September 30, 2020.

(dollars in thousands)	Commercial		Consumer		Total
<b>Three Months Ended September 30, 2021</b>					
<b>Allowance for Credit Losses:</b>					
Balance at Beginning of Period	\$	78,639	\$	101,746	\$ 180,385
Loans and Leases Charged-Off		(196)		(3,249)	(3,445)
Recoveries on Loans and Leases Previously Charged-Off		118		2,134	2,252

### Credit Quality Indicators

The Company uses several credit quality indicators to manage credit risk in an ongoing manner. The Company uses an internal credit risk rating system that categorizes loans and leases into pass, special mention, or classified categories. Credit risk ratings are applied individually to those classes of loans and leases that have significant or unique credit characteristics that benefit from a case-by-case evaluation. These are typically loans and leases to businesses or individuals in the classes which comprise the commercial portfolio segment. Groups of loans and leases that are underwritten and structured using standardized criteria and characteristics, such as statistical models (e.g., credit scoring or payment performance), are typically risk-rated and monitored collectively. These are typically loans and leases to individuals in the classes which comprise the consumer portfolio segment.

The following are the definitions of the Company's credit quality indicators:

- Pass: Loans and leases in all classes within the commercial and consumer portfolio segments that are not adversely rated, are contractually current as to principal and interest, and are otherwise in compliance with the contractual terms of the loan or lease agreement. Residential mortgage loans that are past due 90 days or more as to principal or interest may be considered Pass if the current loan-to-value ratio is 60% or less. Home equity loans that are past due 90 days or more as to principal or interest may be considered Pass if the first mortgage is with the Company and the current combined loan-to-value ratio is 60% or less.
- Special Mention: Loans and leases in all classes within the commercial portfolio segment that have potential weaknesses that deserve management's close attention. If not addressed, these potential weaknesses may result in deterioration of the repayment prospects for the loan or lease. The Special Mention credit quality indicator is not used for the consumer portfolio segment.
- Classified: Loans and leases in the classes within the commercial portfolio segment that are inadequately protected by the sound worth and paying capacity of the borrower or of the collateral pledged, if any. Classified loans and leases are also those in the classes within the consumer portfolio segment that are past due 90 days or more as to principal or interest. Residential mortgage and home equity loans may be current as to principal and interest, but may be considered Classified for a period of generally up to six months following a loan modification. Following a period of demonstrated performance in accordance with the modified contractual terms, the loan may be removed from Classified status.

For pass rated credits, risk ratings are certified at a minimum annually. For special mention or classified credits, risk ratings are reviewed for appropriateness on an ongoing basis, monthly, or at a minimum, quarterly. The following presents by credit quality indicator, loan class, and year of origination, the amortized cost basis of the Company's loans and leases as of September 30, 2021.

### Aging Analysis

Loans and leases are considered to be past due once becoming 30 days delinquent. For the consumer portfolio, this generally represents two missed monthly payments. The following presents by class, an aging analysis of the Company's loan and lease portfolio as of September 30, 2021, and December 31, 2020.

(dollars in thousands)	30 - 59 Days Past Due	60 - 89 Days Past Due	Past Due 90 Days or More	Non- Accrual	Total Past Due and Non- Accrual	Current	Total Loans and Leases	Non- Accrual Loans and Leases that are Current <sup>2</sup>

All payments received while on non-accrual status are applied against the principal balance of the loan or lease. The Company does not recognize interest income while loans or leases are on non-accrual status.

### Modifications

A modification of a loan constitutes a troubled debt restructuring (“TDR”) when the Company, for economic or legal reasons related to a borrower’s financial difficulties, grants a concession to the borrower that it would not otherwise consider. Loans modified in a TDR were \$72.7 million as of September 30, 2021, and \$72.5 million as of December 31, 2020. There were \$0.2 million and \$0.5 million commitments to lend additional funds on loans modified in a TDR as of September 30, 2021, and December 31, 2020, respectively.

Loans modified in a TDR are typically already on non-accrual status and partial charge-offs have in some cases already been taken against the outstanding loan balance. As a result, loans modified in a TDR may have the financial effect of increasing the specific Allowance associated with the loan. An Allowance for impaired commercial and consumer loans that have been modified in a TDR is measured based on the present value of expected future cash flows discounted at the loan’s effective interest rate, the loan’s observable market price, or the estimated fair value of the collateral, less any selling costs, if the loan is collateral dependent. Management exercises significant judgment in developing these estimates.

The following presents by class, information related to loans modified in a TDR during the three and nine months ended September 30, 2021, and September 30, 2020.

<b>Total</b>	<b>25</b>	<b>\$ 853</b>	<b>39</b>	<b>\$ 629</b>

<sup>1</sup> The period end balances reflect all paydowns and charge-offs since the modification date. TDRs fully paid-off, charged-off, or foreclosed upon by period end are not included.

<sup>2</sup> Comprised of other revolving credit and installment financing.

Commercial and consumer loans modified in a TDR are closely monitored for delinquency as an early indicator of possible future default. If loans modified in a TDR subsequently default, the Company evaluates the loan for possible further impairment. The specific Allowance associated with the loan may be increased, adjustments may be made in the allocation of the Allowance, or partial charge-offs may be taken to further write-down the carrying value of the loan.

### *Modifications in response to COVID-19*

The Company initially offered short-term loan modifications to assist borrowers during the COVID-19 national emergency. These modifications generally involve principal and/or interest payment deferrals for up to six months. Similar to the initial modifications granted, the additional round of loan modifications generally involve principal and/or interest payment deferrals for up to an additional six months for commercial and consumer loans, and principal-only deferrals for up to an additional 12 months for selected commercial loans. The Company generally continues to accrue and recognize interest income during the deferral period. The Company offers several repayment options such as immediate repayment, repayment over a designated time period or as a balloon payment at maturity, or by extending the loan term. These modifications generally do not involve forgiveness or interest rate reductions. Although our formal assistance programs have ended, the Company continues to work with our customers who are still being impacted by the pandemic. In addition, the Company evaluates the need to record an allowance for the related AIR. As of September 30, 2021, and December 31, 2020, the Company recorded an AIR allowance of \$0.7 million and \$2.7 million, respectively. The allowance was recorded as a contra-asset against AIR with the offset to provision for credit losses. In addition, the Company elected to deduct the AIR from the AIR Allowance (rather than reversing interest income) when the AIR is deemed uncollectible, which generally occurs when the related loan is placed on nonaccrual status or is charged-off.

Company, as lessor, also granted short-term lease concessions on some of its sales-type finance leases for equipment and automobiles. The concessions primarily consists of six-month extension programs whereby lease payments currently due are deferred and shifted to the end of the lease term. Interest income continues to accrue, and in certain cases paid during the deferral period. Additional rounds of lease concessions were not material.

In accordance with Section 4013 of the CARES Act and the joint agency statement issued by banking agencies, these COVID-19 related loan and lease modifications are not accounted for as TDRs. These loan and lease modifications totaled \$130.4 million (23 loans and leases) for the commercial segment and \$7.5 million (31 loans and leases) for the consumer segment as of September 30, 2021, and \$311.6 million (210 loans and leases) for the commercial segment and \$178.1 million (1,920 loans and leases) for the consumer segment as of December 31, 2020.

### *Foreclosure Proceedings*

Consumer mortgage loans collateralized by residential real estate property that are in the process of foreclosure totaled \$1.5 million as of September 30, 2021.

### **Note 5. Mortgage Servicing Rights**

The Company's portfolio of residential mortgage loans serviced for third parties was \$2.7 billion as of September 30, 2021, and \$2.8 billion as of December 31, 2020. Substantially all of these loans were originated by the Company and sold to third parties on a non-recourse basis with servicing rights retained. These retained servicing rights are recorded as a servicing asset and are initially recorded at fair value (see Note 13 *Fair Value of Assets and Liabilities* for more information). Changes to the balance of mortgage servicing rights are recorded in mortgage banking income in the Company's consolidated statements of income.

The Company's mortgage servicing activities include collecting principal, interest, and escrow payments from borrowers; making tax and insurance payments on behalf of borrowers; monitoring delinquencies and executing foreclosure proceedings; and accounting for and remitting principal and interest payments to investors. Servicing income, including late and ancillary fees, was \$1.6 million and \$1.7 million for the three months ended September 30, 2021, and September 30, 2020, and \$4.8 million and \$5.4 million for the nine months ended September 30, 2021, and September 30, 2020, respectively. Servicing income is recorded in mortgage banking income in the Company's consolidated statements of income. The Company's residential mortgage investor loan servicing portfolio is primarily comprised of fixed rate loans concentrated in Hawaii.

For the three and nine months ended September 30, 2021, and September 30, 2020, the change in the carrying value of the Company's mortgage servicing rights accounted for under the fair value measurement method was as follows:

(dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
<b>Balance at Beginning of Period</b>	\$ 875	\$ 1,068	\$ 958	\$ 1,126
Change in Fair Value Due to Payoffs:	(49)	(50)	(132)	(108)
<b>Balance at End of Period</b>	\$ 826	\$ 1,018	\$ 826	\$ 1,018

For the three and nine months ended September 30, 2021, and September 30, 2020, the change in the carrying value of the Company's mortgage servicing rights accounted for under the amortization method was as follows:

(dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
<b>Balance at Beginning of Period</b>	\$ 20,598	\$ 21,836	\$ 18,694	\$ 23,896
Servicing Rights that Resulted From Asset Transfers	1,082	872	4,022	3,042
Amortization	(1,069)	(1,271)	(3,228)	(3,684)
Valuation Allowance Recovery (Provision)	662	(568)	1,785	(2,385)
<b>Balance at End of Period</b>	\$ 21,273	\$ 20,869	\$ 21,273	\$ 20,869

**Valuation Allowance:**

<b>Balance at Beginning of Period</b>	\$ (2,769)	\$ (1,817)	\$ (3,892)	\$ —
Valuation Allowance Recovery (Provision)	662	(568)	1,785	(2,385)
<b>Balance at End of Period</b>	\$ (2,107)	\$ (2,385)	\$ (2,107)	\$ (2,385)

**Fair Value of Mortgage Servicing Rights Accounted for Under the Amortization Method**

Beginning of Period	\$ 20,598	\$ 21,836	\$ 18,694	\$ 25,714
End of Period	\$ 21,273	\$ 20,870	\$ 21,273	\$ 20,870

The key data and assumptions used in estimating the fair value of the Company's mortgage servicing rights as of September 30, 2021, and December 31, 2020, were as follows:

	September 30, 2021	December 31, 2020
Weighted-Average Constant Prepayment Rate <sup>1</sup>	11.50%	14.42%
Weighted-Average Life (in years)	6.00	4.99
Weighted-Average Note Rate	3.67%	3.87%
Weighted-Average Discount Rate <sup>2</sup>	6.67%	5.81%

<sup>1</sup> Represents annualized loan prepayment rate assumption.

<sup>2</sup> Derived from multiple interest rate scenarios that incorporate a spread to a market yield curve and market volatilities.

A sensitivity analysis of the Company's fair value of mortgage servicing rights to changes in certain key assumptions as of September 30, 2021, and December 31, 2020, is presented in the following table.

(dollars in thousands)	September 30, 2021	December 31, 2020
<b>Constant Prepayment Rate</b>		
Decrease in fair value from 25 basis points ("bps") adverse change	\$ (246)	\$ (203)
Decrease in fair value from 50 bps adverse change	(487)	(401)
<b>Discount Rate</b>		
Decrease in fair value from 25 bps adverse change	(223)	(184)
Decrease in fair value from 50 bps adverse change	(441)	(365)

This analysis generally cannot be extrapolated because the relationship of a change in one key assumption to the change in the fair value of the Company's mortgage servicing rights usually is not linear. Also, the effect of changing one key assumption without changing other assumptions is not realistic.

**Note 6. Affordable Housing Projects Tax Credit Partnerships**

The Company makes equity investments in various limited partnerships or limited liability companies that sponsor affordable housing projects utilizing the Low Income Housing Tax Credit ("LIHTC") pursuant to Section 42 of the Internal Revenue Code. The purpose of these investments is to achieve a satisfactory return on capital, to facilitate the sale of affordable housing product offerings, and to assist in achieving goals associated with the Community Reinvestment Act. The primary activities of these entities include the identification, development, and operation of multi-family housing that is leased to qualifying residential tenants. Generally, these types of investments are funded through a combination of debt and equity.

The Company is a limited partner or non-managing member in each LIHTC limited partnership or limited liability company, respectively. Each of these entities is managed by an unrelated third-party general partner or managing member who exercises significant control over the affairs of the entity. The general partner or managing member has all the rights, powers and authority granted or permitted to be granted to a general partner of a limited partnership or managing member of a limited liability company. Duties entrusted to the general partner or managing member include, but are not limited to: investment in operating companies, company expenditures, investment of excess funds, borrowing funds, employment of agents, disposition of fund property, prepayment and refinancing of liabilities, votes and consents, contract authority, disbursement of funds, accounting methods, tax elections, bank accounts, insurance, litigation, cash reserve, and use of working capital reserve funds. Except for limited rights granted to the limited partner(s) or non-managing member(s) relating to the approval of certain transactions, the limited partner(s) and non-managing member(s) may not participate in the operation, management, or control of the entity's business, transact any business in the entity's name or have any power to sign documents for or otherwise bind the entity. In addition, the general partner or managing member may only be removed by the limited partner(s) or managing member(s) in the event of a failure to comply with the terms of the agreement or negligence in performing its duties.

The general partner or managing member of each entity has both the power to direct the activities which most significantly affect the performance of each entity and the obligation to absorb losses or the right to receive benefits that could be significant to the entities. Therefore, the Company has determined that it is not the primary beneficiary of any LIHTC entity. The Company uses the effective yield method to account for its pre-2015 investments in these entities. Beginning January 1, 2015, any new investments that meet the requirements of the proportional amortization method are recognized using the proportional amortization method. The Company's net affordable housing tax credit investments and related unfunded commitments were \$126.9 million and \$138.9 million as of September 30, 2021, and December 31, 2020, respectively, and are included in other assets in the consolidated statements of condition.

*Unfunded Commitments*

As of September 30, 2021, the expected payments for unfunded affordable housing commitments were as follows:

(dollars in thousands)	<b>Amount</b>
2021	\$ 12,710
2022	6,757
2023	19,025
2024	173
2025	56
Thereafter	3,424
<b>Total Unfunded Commitments</b>	<b>\$ 42,145</b>

The following table presents tax credits and other tax benefits recognized and amortization expense related to affordable housing for the three and nine months ended September 30, 2021, and September 30, 2020.

(dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
<b>Effective Yield Method</b>				
Tax credits and other tax benefits recognized	\$ 2,151	\$ 2,938	\$ 6,453	\$ 8,814
Amortization Expense in Provision for Income Taxes	1,670	2,347	5,032	7,042
<b>Proportional Amortization Method</b>				
Tax credits and other tax benefits recognized	\$ 2,708	\$ 1,794	\$ 8,178	\$ 4,839
Amortization Expense in Provision for Income Taxes	2,332	1,345	7,043	3,580

There were no impairment losses related to LIHTC investments during the nine months ended September 30, 2021, and September 30, 2020.

#### Note 7. Balance Sheet Offsetting

The following table presents the fair value of the related collateral pledged against repurchase agreements as of September 30, 2021, and December 31, 2020.

(dollars in thousands)	Remaining Contractual Maturity of Repurchase Agreements				
	Up to 90 days	91-365 days	1-3 Years	After 3 Years	Total
<b>September 30, 2021</b>					
<b>Class of Collateral Pledged:</b>

Residential - U.S. Government-Sponsored Enterprises	—	—	4,790	491,401	496,191
<b>Total</b>	<b>\$ 100</b>	<b>\$ —</b>	<b>\$ 25,000</b>	<b>\$ 575,490</b>	<b>\$ 600,590</b>

<sup>1</sup> The class of collateral pledged as of December 31, 2020, have been updated to properly reflect the remaining contractual maturity of repurchase agreements.

The following table presents the assets and liabilities subject to an enforceable master netting arrangement, or repurchase agreements as of September 30, 2021, and December 31, 2020. The swap agreements the Company has with our commercial banking customers are not subject to an enforceable master netting arrangement, and therefore, are excluded from this table. Centrally cleared swap agreements between the Company and institutional counterparties are also excluded from this table. See Note 11 *Derivative Financial Instruments* for more information on swap agreements.

	(i)	(ii)	(iii) = (i)-(ii)	(iv)		(v) = (iii)-(iv)
				Gross Amounts Not Offset in the Statements of Condition		
	Gross Amounts Recognized in the Statements of Condition	Gross Amounts Offset in the Statements of Condition	Net Amounts Presented in the Statements of Condition	Netting Adjustments per Master Netting Arrangements	Fair Value of Collateral Pledged/ Received <sup>1</sup>	Net Amount
<b>September 30, 2021</b>						
<b>Assets:</b>						
Interest Rate Swap Agreements:						
Institutional Counterparties	\$ 22	\$ —	\$ 22	\$ 22	\$ —	\$ —
<b>Liabilities:</b>						
Interest Rate Swap Agreements:						
Institutional Counterparties	\$ 8,297	\$ —	\$ 8,297	\$ 22	\$ 53,265	\$ (44,990)
Repurchase Agreements:						
Private Institutions	450,000	—	450,000	—	450,000	—
Government Entities	490	—	490	—	490	—
	\$ 450,490	\$ —	\$ 450,490	\$ —	\$ 450,490	\$ —
<b>December 31, 2020</b>						
<b>Assets:</b>						
Interest Rate Swap Agreements:						
Institutional Counterparties	\$ 5	\$ —	\$ 5	\$ 5	\$ —	\$ —
<b>Liabilities:</b>						
Interest Rate Swap Agreements:						
Institutional Counterparties	17,202	—	17,202	5	7,911	9,286
Repurchase Agreements:						
Private Institutions	600,000	—	600,000	—	600,000	—
Government Entities	590	—	590	—	590	—
	\$ 600,590	\$ —	\$ 600,590	\$ —	\$ 600,590	\$ —

<sup>1</sup> The application of collateral cannot reduce the net amount below zero. Therefore, excess collateral is not reflected in this table. For repurchase agreements with private institutions, the fair value of investment securities pledged was \$538.1 million and \$635.2 million as of September 30, 2021, and December 31, 2020, respectively. For repurchase agreements with government entities, the fair value of investment securities pledged was \$1.5 million and \$2.5 million as of September 30, 2021, and December 31, 2020, respectively.

**Note 8. Accumulated Other Comprehensive Income (Loss)**

The following table presents the components of other comprehensive income (loss) for the three and nine months ended September 30, 2021, and September 30, 2020:

(dollars in thousands)	Before Tax	Tax Effect	Net of Tax
<b>Three Months Ended September 30, 2021</b>

<b>Nine Months Ended September 30, 2020</b>			
Net Unrealized Gains (Losses) on Investment Securities:			
Net Unrealized Gains (Losses) Arising During the Period	\$ 60,177	\$ 15,945	\$ 44,232
Amounts Reclassified from Accumulated Other Comprehensive Income (Loss) that (Increase) Decrease Net Income:			
(Gain) Loss on Sale	(77)	(21)	(56)
Amortization of Unrealized Holding (Gains) Losses on Held-to-Maturity Securities <sup>1</sup>	289	76	213
Net Unrealized Gains (Losses) on Investment Securities	60,389	16,000	44,389
Defined Benefit Plans:			
Amortization of Net Actuarial Losses (Gains)	1,711	454	1,257
Amortization of Prior Service Credit	(184)	(49)	(135)
Defined Benefit Plans, Net	1,527	405	1,122
<b>Other Comprehensive Income (Loss)</b>	<b>\$ 61,916</b>	<b>\$ 16,405</b>	<b>\$ 45,511</b>

<sup>1</sup> The amount relates to the amortization/accretion of unrealized net gains and losses related to the Company's reclassification of available-for-sale investment securities to the held-to-maturity category. The unrealized net gains/losses will be amortized/accreted over the remaining life of the investment securities as an adjustment of yield.

The following table presents the changes in each component of accumulated other comprehensive income (loss), net of tax, for the three and nine months ended September 30, 2021, and September 30, 2020:

(dollars in thousands)	Investment Securities- Available- for-Sale	Investment Securities- Held-to- Maturity	Defined Benefit Plans	Accumulated Other Comprehensive Income (Loss)
<b>Three Months Ended September 30, 2021</b>				
<b>Balance at Beginning of Period</b>	\$ 950	\$ (51)	\$ (42,367)	\$ (41,468)

<sup>1</sup> Amounts in parentheses indicate reductions to net income.

<sup>2</sup> These accumulated other comprehensive income (loss) components are included in the computation of net periodic benefit cost and are included in Other Noninterest Expense on the consolidated statements of income.

## Note 9. Earnings Per Common Share

Earnings per common share is computed using the two-class method. The following is a reconciliation of the weighted average number of common shares used in the calculation of basic and diluted earnings per common share and antidilutive stock options and restricted stock outstanding for the three and nine months ended September 30, 2021, and September 30, 2020:

(dollars in thousands, except shares and per share amounts)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
<b>Numerator:</b>				
Net Income Available to Common Shareholders	\$ 61,047	\$ 37,840	\$ 188,529	\$ 111,490
<b>Denominator:</b>				
Weighted Average Common Shares Outstanding - Basic	39,881,437	39,745,120	39,870,450	39,710,252
Dilutive Effect of Equity Based Awards	199,482	124,015	218,449	162,154
Weighted Average Common Shares Outstanding - Diluted	40,080,919	39,869,135	40,088,899	39,872,406
<b>Earnings Per Common Share:</b>				
Basic	\$ 1.53	\$ 0.95	\$ 4.73	\$ 2.81
Diluted	\$ 1.52	\$ 0.95	\$ 4.70	\$ 2.80
Antidilutive Stock Options and Restricted Stock Outstanding	47,087	108,207	44,217	106,140

## Note 10. Business Segments

The Company's business segments are defined as Consumer Banking, Commercial Banking, and Treasury and Other. The Company's internal management accounting process measures the performance of these business segments. This process, which is not necessarily comparable with the process used by any other financial institution, uses various techniques to assign balance sheet and income statement amounts to the business segments, including allocations of income, expense, the provision for credit losses, and capital. This process is dynamic and requires certain allocations based on judgment and other subjective factors. Unlike financial accounting, there is no comprehensive authoritative guidance for management accounting that is equivalent to GAAP. Previously reported results have been reclassified to conform to the current reporting structure.

The net interest income of the business segments reflects the results of a funds transfer pricing process that matches assets and liabilities with similar interest rate sensitivity and maturity characteristics and reflects the allocation of net interest income related to the Company's overall asset and liability management activities on a proportionate basis. The basis for the allocation of net interest income is a function of the Company's assumptions that are subject to change based on changes in current interest rates and market conditions. Funds transfer pricing also serves to transfer interest rate risk to Treasury. However, the other business segments have some latitude to retain certain interest rate exposures related to customer pricing decisions within guidelines.

The provision for credit losses for the Consumer Banking and Commercial Banking business segments reflects the actual net charge-offs of those business segments. The amount of the consolidated provision for loan and lease losses is based on the methodology that we use to estimate our consolidated Allowance. The residual provision for credit losses to arrive at the consolidated provision for credit losses is included in Treasury and Other.

Noninterest income and expense includes allocations from support units to business units. These allocations are based on actual usage where practicably calculated or by management's estimate of such usage.

The provision for income taxes is allocated to business segments using a 26% effective income tax rate. However, the provision for income taxes for our Leasing business unit (included in the Commercial Banking segment) and Auto Leasing portfolio and Pacific Century Life Insurance business unit (both included in the Consumer Banking segment) are assigned their actual effective income tax rates due to the unique relationship that income taxes have with their products. The residual income tax expense or benefit to arrive at the consolidated effective tax rate is included in Treasury and Other.

### *Consumer Banking*

Consumer Banking offers a broad range of financial products and services, including loan, deposit and insurance products; private banking and international client banking services; trust services; investment management; and institutional investment advisory services. Consumer Banking also provides a full service brokerage offering equities, mutual funds, life insurance, and annuity products. Loan and lease products include residential mortgage loans, home equity lines of credit, automobile loans and leases, personal lines of credit, installment loans, small business loans and leases, and credit cards. Deposit products include checking, savings, and time deposit accounts. Private banking and personal trust groups assist individuals and families in building and preserving their wealth by providing investment, credit, and trust services to high-net-worth individuals. The investment management group manages portfolios utilizing a variety of investment products. Also within Consumer Banking, institutional client services offer investment advice to corporations, government entities, and foundations. Products and services from Consumer Banking are delivered to customers through 54 branch locations and 303 ATMs throughout Hawaii and the Pacific Islands, e-Bankoh (on-line banking service), a customer service center, and a mobile banking service.

### *Commercial Banking*

Commercial Banking offers products including corporate banking, commercial real estate loans, commercial lease financing, auto dealer financing, and deposit products. Commercial lending and deposit products are offered to middle-market and large companies in Hawaii and the Pacific Islands. In addition, Commercial Banking offers deposit products to government entities in Hawaii. Commercial real estate mortgages focus on customers that include investors, developers, and builders predominantly domiciled in Hawaii. Commercial Banking also includes international banking and provides merchant services to its customers.

### *Treasury and Other*

Treasury consists of corporate asset and liability management activities, including interest rate risk management and a foreign currency exchange business. This segment's assets and liabilities (and related interest income and expense) consist of interest-bearing deposits, investment securities, federal funds sold and purchased, and short and long-term borrowings. The primary sources of noninterest income are from bank-owned life insurance, net gains from the sale of investment securities, and foreign exchange income related to customer-driven currency requests from merchants and island visitors. The net residual effect of the transfer pricing of assets and liabilities is included in Treasury, along with the elimination of intercompany transactions.

Other organizational units (Technology, Operations, Marketing, Human Resources, Finance, Credit and Risk Management, and Corporate and Regulatory Administration) provide a wide-range of support to the Company's other income earning segments. Expenses incurred by these support units are charged to the business segments through an internal cost allocation process.

Selected business segment financial information as of and for the three and nine months ended September 30, 2021, and September 30, 2020, were as follows:

(dollars in thousands)	Consumer Banking	Commercial Banking	Treasury and Other	Consolidated Total
<b>Three Months Ended September 30, 2021</b>

Foreign Exchange Contracts	Other Noninterest Income	401	467	1,120	1,403
<b>Total</b>		<b>\$ 4,578</b>	<b>\$ 7,350</b>	<b>\$ 14,493</b>	<b>\$ 25,348</b>

As of September 30, 2021, and December 31, 2020, the Company did not designate any derivative financial instruments as formal hedging relationships. The Company's free-standing derivative financial instruments are required to be carried at their fair value on the Company's consolidated statements of condition.

*Interest Rate Swap Agreements*

The Company enters into interest rate swap agreements to facilitate the risk management strategies of a small number of commercial banking customers. The Company mitigates the risk of entering into these agreements by entering into equal and offsetting swap agreements with third-party financial institutions. The swap agreements are free-standing derivatives and are recorded at fair value in the Company's consolidated statements of condition (asset positions are included in other assets and liability positions are included in other liabilities). The Company is party to master netting arrangements with its financial institution counterparties; however, the Company does not offset assets and liabilities under these arrangements for financial statement presentation purposes. The master netting arrangements provide for a single net settlement of all swap agreements, as well as collateral, in the event of default on, or termination of, any one contract. Collateral, usually in the form of cash or marketable securities, is posted by the party (i.e., the Company or the financial institution counterparty) with net liability positions in accordance with contract thresholds. The Company had net liability positions with its financial institution counterparties totaling \$8.3 million and \$17.2 million as of September 30, 2021, and December 31, 2020, respectively.

Parties to over-the-counter derivatives which are centrally cleared through a clearinghouse exchange daily payments that reflect the daily change in value of the derivatives. Effective 2017, these payments, commonly referred to as variation margin, are recorded as settlements of the derivatives' mark-to-market exposure rather than collateral against the exposures. This rule change effectively results in all centrally cleared derivatives having a fair value that approximates zero on a daily basis. Substantially all of our swap agreements originated after the rule change are centrally cleared.

*Conversion Rate Swap Agreements*

As certain sales of Visa Class B restricted shares were completed, the Company entered into a conversion rate swap agreement with the buyer that requires payment to the buyer in the event Visa further reduces the conversion ratio of Class B into Class A unrestricted common shares. In the event of Visa increasing the conversion ratio, the buyer would be required to make payment to the Company. As of September 30, 2021, and December 31, 2020, the conversion rate swap agreement was valued at zero (i.e., no contingent liability recorded) as further reductions to the conversion ratio were deemed neither probable nor reasonably estimable by management. See Note 3 *Investment Securities* for more information.

**Note 12. Commitments, Contingencies, and Guarantees**

The Company's credit commitments as of September 30, 2021, and December 31, 2020, were as follows:

(dollars in thousands)	September 30, 2021	December 31, 2020
Unfunded Commitments to Extend Credit	\$ 2,973,153	\$ 2,787,123
Standby Letters of Credit	125,932	100,186
Commercial Letters of Credit	16,715	10,511
<b>Total Credit Commitments</b>	<b>\$ 3,115,800</b>	<b>\$ 2,897,820</b>

*Unfunded Commitments to Extend Credit*

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of the terms or conditions established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since commitments may expire without being drawn, the total commitment amount does not necessarily represent future cash requirements.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third-party. Standby letters of credit generally become payable upon the failure of the customer to perform according to the terms of the underlying contract with the third-party, while commercial letters of credit are issued specifically to facilitate commerce and typically result in the commitment being drawn on when the underlying transaction is consummated between the customer and a third party. The contractual amount of these letters of credit represents the maximum potential future payments guaranteed by the Company. The Company has recourse against the customer for any amount it is required to pay to a third-party under a standby letter of credit, and generally holds cash or deposits as collateral on those standby letters of credit for which collateral is deemed necessary.

#### *Contingencies*

The Company is subject to various pending and threatened legal proceedings arising out of the normal course of business or operations. On at least a quarterly basis, the Company assesses its liabilities and contingencies in connection with outstanding legal proceedings using the most recent information available. On a case-by-case basis, reserves are established for those legal claims for which it is probable that a loss will be incurred and the amount of such loss can be reasonably estimated. Based on information currently available, management believes that the eventual outcome of these claims against the Company will not be materially in excess of such amounts reserved by the Company. However, in the event of unexpected future developments, it is possible that the ultimate resolution of these matters may result in a loss that materially exceeds the reserves established by the Company.

#### **Note 13. Fair Value of Assets and Liabilities**

##### *Fair Value Hierarchy*

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for an asset or liability in an orderly transaction between market participants at the measurement date. GAAP established a fair value hierarchy that prioritizes the use of inputs used in valuation methodologies into the following three levels:

- Level 1: Inputs to the valuation methodology are quoted prices, unadjusted, for identical assets or liabilities in active markets. A quoted price in an active market provides the most reliable evidence of fair value and is used to measure fair value whenever available. A contractually binding sales price also provides reliable evidence of fair value.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; inputs to the valuation methodology include quoted prices for identical or similar assets or liabilities in markets that are not active; or inputs to the valuation methodology that utilize model-based techniques for which all significant assumptions are observable in the market.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement; inputs to the valuation methodology that utilize model-based techniques for which significant assumptions are not observable in the market; or inputs to the valuation methodology that require significant management judgment or estimation, some of which may be internally developed.

In some instances, an instrument may fall into multiple levels of the fair value hierarchy. In such instances, the instrument's level within the fair value hierarchy is based on the lowest of the three levels (with Level 3 being the lowest) that is significant to the fair value measurement. Our assessment of the significance of an input requires judgment and considers factors specific to the instrument.

***Assets and Liabilities Measured at Fair Value on a Recurring Basis***

***Investment Securities Available-for-Sale***

Level 1 investment securities are comprised of debt securities issued by the U.S. Treasury, as quoted prices were available, unadjusted, for identical securities in active markets. Level 2 investment securities were primarily comprised of debt securities issued by the Small Business Administration, states and municipalities, corporations, as well as mortgage-backed securities issued by government agencies and government sponsored enterprises. Fair values were estimated primarily by obtaining quoted prices for similar assets in active markets or through the use of pricing models. In cases where there may be limited or less transparent information provided by the Company's third-party pricing service, fair value may be estimated by the use of secondary pricing services or through the use of non-binding third-party broker quotes.

***Loans Held for Sale***

The fair value of the Company's residential mortgage loans held for sale was determined based on quoted prices for similar loans in active markets, and therefore, is classified as a Level 2 measurement.

***Mortgage Servicing Rights***

The Company estimates the fair value of mortgage servicing rights by using a discounted cash flow model to calculate the present value of estimated future net servicing income. The Company stratifies its mortgage servicing portfolio on the basis of loan type. The assumptions used in the discounted cash flow model are those that the Company believes market participants would use in estimating future net servicing income. Significant assumptions in the valuation of mortgage servicing rights include estimated loan repayment rates, the discount rate, servicing costs, and the timing of cash flows, among other factors. Mortgage servicing rights are classified as Level 3 measurements due to the use of significant unobservable inputs, as well as significant management judgment and estimation.

### *Other Assets*

Other assets recorded at fair value on a recurring basis are primarily comprised of investments related to deferred compensation arrangements. Quoted prices for these investments, primarily in mutual funds, are available in active markets. Thus, the Company's investments related to deferred compensation arrangements are classified as Level 1 measurements in the fair value hierarchy.

### *Derivative Financial Instruments*

Derivative financial instruments recorded at fair value on a recurring basis are comprised of IRLCs, forward commitments, interest rate swap agreements, foreign exchange contracts, and Visa Class B to Class A shares conversion rate swap agreements. The fair values of IRLCs are calculated based on the value of the underlying loan held for sale, which in turn is based on quoted prices for similar loans in the secondary market. However, this value is adjusted by a factor which considers the likelihood that the loan in a locked position will ultimately close. This factor, the closing ratio, is derived from the Bank's internal data and is adjusted using significant management judgment. As such, IRLCs are classified as Level 3 measurements. Forward commitments are classified as Level 2 measurements as they are primarily based on quoted prices from the secondary market based on the settlement date of the contracts, interpolated or extrapolated, if necessary, to estimate a fair value as of the end of the reporting period. The fair values of interest rate swap agreements are calculated using a discounted cash flow approach and utilize Level 2 observable inputs such as a market yield curve, effective date, maturity date, notional amount, and stated interest rate. The valuation methodology for cleared interest rate swaps with financial institution counterparties (and the related customer interest rate swaps) is based on the Secured Overnight Financing Rate, while the valuation methodology for uncleared interest rate swaps is based on the Effective Federal Funds Rate. In addition, the Company includes in its fair value calculation a credit factor adjustment which is based primarily on management judgment. Thus, interest rate swap agreements are classified as a Level 3 measurement. The fair values of foreign exchange contracts are calculated using the Bank's multi-currency accounting system which utilizes contract specific information such as currency, maturity date, contractual amount, and strike price, along with market data information such as the spot rates of specific currency and yield curves. Foreign exchange contracts are classified as Level 2 measurements because while they are valued using the Bank's multi-currency accounting system, significant management judgment or estimation is not required. The fair value of the Visa Class B restricted shares to Class A unrestricted common shares conversion rate swap agreements represent the amount owed by the Company to the buyer of the Visa Class B shares as a result of a reduction of the conversion ratio subsequent to the sales date. As of September 30, 2021, and December 31, 2020, the conversion rate swap agreements were valued at zero as reductions to the conversion ratio were neither probable nor reasonably estimable by management. See Note 11 *Derivative Financial Instruments* for more information.

The Company is exposed to credit risk if borrowers or counterparties fail to perform. The Company seeks to minimize credit risk through credit approvals, limits, monitoring procedures, and collateral requirements. The Company generally enters into transactions with borrowers and counterparties that carry high quality credit ratings. Credit risk associated with borrowers or counterparties as well as the Company's non-performance risk is factored into the determination of the fair value of derivative financial instruments.

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis as of September 30, 2021, and December 31, 2020:

(dollars in thousands)	Quoted Prices in Active Markets for Identical Assets or Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
<b>September 30, 2021</b>				
<b>Assets:</b>

<sup>1</sup> The fair value of each class of derivatives is shown in Note 11 *Derivative Financial Instruments*.

For the three and nine months ended September 30, 2021, and September 30, 2020, the changes in Level 3 assets and liabilities measured at fair value on a recurring basis were as follows:

(dollars in thousands)	Mortgage Servicing Rights <sup>1</sup>	Net Derivative Assets and Liabilities <sup>2</sup>
<b>Three Months Ended September 30, 2021</b>		
<b>Balance as of July 1, 2021</b>	\$ 875	\$ 37,957
Realized and Unrealized Net Gains (Losses):		
Included in Net Income	(49)	2,095
Transfers to Loans Held for Sale	—	(3,068)
Variation Margin Payments	—	(5,875)
<b>Balance as of September 30, 2021</b>	<b>\$ 826</b>	<b>\$ 31,109</b>
<b>Total Unrealized Net Gains (Losses) Included in Net Income Related to Assets Still Held as of September 30, 2021</b>	<b>\$ —</b>	<b>\$ 31,109</b>
<b>Three Months Ended September 30, 2020</b>		
<b>Balance as of July 1, 2020</b>	\$ 1,068	\$ 88,995
Realized and Unrealized Net Gains (Losses):		
Included in Net Income	(50)	4,909
Transfers to Loans Held for Sale	—	(4,242)
Variation Margin Payments	—	(1,840)
<b>Balance as of September 30, 2020</b>	<b>\$ 1,018</b>	<b>\$ 87,822</b>
<b>Total Unrealized Net Gains (Losses) Included in Net Income Related to Assets Still Held as of September 30, 2020</b>	<b>\$ —</b>	<b>\$ 87,822</b>
<b>Nine Months Ended September 30, 2021</b>		
<b>Balance as of January 1, 2021</b>	\$ 958	77,880
Realized and Unrealized Net Gains (Losses):		
Included in Net Income	(132)	7,008
Transfers to Loans Held for Sale	—	(10,652)
Variation Margin Payments	—	(43,127)
<b>Balance as of September 30, 2021</b>	<b>\$ 826</b>	<b>31,109</b>
<b>Total Unrealized Net Gains (Losses) Included in Net Income Related to Assets Still Held as of September 30, 2021</b>	<b>\$ —</b>	<b>\$ 31,109</b>
<b>Nine Months Ended September 30, 2020</b>		
<b>Balance as of January 1, 2020</b>	\$ 1,126	\$ 22,573
Realized and Unrealized Net Gains (Losses):		
Included in Net Income	(108)	15,372
Transfers to Loans Held for Sale	—	(13,521)
Variation Margin Payments	—	63,398
<b>Balance as of September 30, 2020</b>	<b>\$ 1,018</b>	<b>\$ 87,822</b>
<b>Total Unrealized Net Gains (Losses) Included in Net Income Related to Assets Still Held as of September 30, 2020</b>	<b>\$ —</b>	<b>\$ 87,822</b>

<sup>1</sup> Realized and unrealized gains and losses related to mortgage servicing rights are reported as a component of mortgage banking income in the Company's consolidated statements of income.

<sup>2</sup> Realized and unrealized gains and losses related to interest rate lock commitments are reported as a component of mortgage banking income in the Company's consolidated statements of income. Realized and unrealized gains and losses related to interest rate swap agreements are reported as a component of other noninterest income in the Company's consolidated statements of income.

For Level 3 assets and liabilities measured at fair value on a recurring or nonrecurring basis as of September 30, 2021, and December 31, 2020, the significant unobservable inputs used in the fair value measurements were as follows:

(dollars in thousands)	Valuation Technique	Description	Range		Weighted Average <sup>1</sup>	Fair Value
<b>September 30, 2021</b>						
Mortgage Servicing Rights	Discounted Cash Flow	Constant Prepayment Rate	8.13%-	14.43%	11.50%	\$ 22,099
		Discount Rate	5.65%-	6.74%	6.67%	\$ —
Net Derivative Assets and Liabilities:						
Interest Rate Lock Commitments	Pricing Model	Closing Ratio	84.10%-	100.00%	92.84%	\$ 1,222
Interest Rate Swap Agreements	Discounted Cash Flow	Credit Factor	0.00%-	0.49%	0.14%	\$ 29,887
<b>December 31, 2020</b>						
Mortgage Servicing Rights	Discounted Cash Flow	Constant Prepayment Rate	8.71%-	15.89%	14.42%	\$ 19,652
		Discount Rate		5.69%-	6.28%	5.81%
Net Derivative Assets and Liabilities:						
Interest Rate Lock Commitments	Pricing Model	Closing Ratio	84.10%-	99.00%	90.76%	\$ 4,947
Interest Rate Swap Agreements	Discounted Cash Flow	Credit Factor	0.00%-	0.49%	0.29%	\$ 72,933

<sup>1</sup> Unobservable inputs for mortgage servicing rights and interest rate lock commitments were weighted by loan amount. Unobservable inputs for interest rate swap agreements were weighted by fair value.

Significant increases (decreases) in any of those inputs in isolation could result in a significantly lower (higher) fair value measurement. Although the constant prepayment rate and the discount rate are not directly interrelated, they generally move in opposite directions of each other.

#### **Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis**

The Company may be required periodically to measure certain assets and liabilities at fair value on a nonrecurring basis in accordance with GAAP. These adjustments to fair value usually result from the application of lower-of-cost-or-fair value accounting or impairment write-downs of individual assets. The following table represents the assets measured at fair value on a nonrecurring basis as of September 30, 2021, and December 31, 2020.

(dollars in thousands)	Fair Value Hierarchy	Net Carrying Amount	Valuation Allowance
<b>September 30, 2021</b>			
Mortgage Servicing Rights - amortization method	Level 3	\$ 21,273	\$ (2,107)
<b>December 31, 2020</b>			
Mortgage Servicing Rights - amortization method	Level 3	\$ 18,694	\$ (3,892)

The write-down of mortgage servicing rights accounted for under the amortization method was primarily due to changes in certain key assumptions used to estimate fair value. As previously mentioned, all of the Company's mortgage servicing rights are classified as Level 3 measurements due to the use of significant unobservable inputs, as well as significant management judgment and estimation.

### Fair Value Option

The following table reflects the difference between the aggregate fair value and the aggregate unpaid principal balance of the Company's residential mortgage loans held for sale as of September 30, 2021, and December 31, 2020.

(dollars in thousands)	Aggregate Fair Value	Aggregate Unpaid Principal	Aggregate Fair Value Less Aggregate Unpaid Principal
<b>September 30, 2021</b>			
Loans Held for Sale	\$ 21,965	\$ 21,376	\$ 589
<b>December 31, 2020</b>			
Loans Held for Sale	\$ 82,565	\$ 78,577	\$ 3,988

Changes in the estimated fair value of residential mortgage loans held for sale are reported as a component of mortgage banking income in the Company's consolidated statements of income. For the three and nine months ended September 30, 2021, and September 30, 2020, the net gains or losses from the change in fair value of the Company's residential mortgage loans held for sale were not material.

### Financial Instruments Not Recorded at Fair Value on a Recurring Basis

The following presents the carrying amount, fair value, and placement in the fair value hierarchy of the Company's financial instruments not recorded at fair value on a recurring basis as of September 30, 2021, and December 31, 2020. This table excludes financial instruments for which the carrying amount approximates fair value. For short-term financial assets such as cash and cash equivalents, the carrying amount is a reasonable estimate of fair value due to the relatively short time between the origination of the instrument and its expected realization. For non-marketable equity securities such as Federal Home Loan Bank and Federal Reserve Bank stock, the carrying amount is a reasonable estimate of fair value as these securities can only be redeemed or sold at their par value and only to the respective issuing government supported institution or to another member institution. For financial liabilities such as noninterest-bearing demand, interest-bearing demand, and savings deposits, the carrying amount is a reasonable estimate of fair value due to these products having no stated maturity.

(dollars in thousands)	Carrying Amount	Fair Value	Fair Value Measurements		
			Quoted Prices in Active Markets for Identical Assets or Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<b>September 30, 2021</b>					
Financial Instruments - Assets					
Investment Securities Held-to-Maturity	\$ 4,899,880	\$ 4,895,763	\$ 131,558	\$ 4,764,205	\$ —
Loans <sup>1</sup>	11,718,951	11,962,539	—	—	11,962,539
Financial Instruments - Liabilities					
Time Deposits	1,072,915	1,074,210	—	1,074,210	—
Securities Sold Under Agreements to Repurchase	450,490	477,228	—	477,228	—
<b>December 31, 2020</b>					
Financial Instruments - Assets					
Investment Securities Held-to-Maturity	\$ 3,262,727	\$ 3,348,693	\$ 7,500	\$ 3,341,193	\$ —
Loans <sup>1</sup>	11,536,011	12,019,151	—	—	12,019,151
Financial Instruments - Liabilities					
Time Deposits	1,662,063	1,667,774	—	1,667,774	—
Securities Sold Under Agreements to Repurchase	600,590	649,039	—	649,039	—
Other Debt <sup>2</sup>	50,000	51,546	—	51,546	—

<sup>1</sup> Carrying amount is net of unearned income and the Allowance.

<sup>2</sup> Excludes finance lease obligations.

## Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

### Forward-Looking Statements

This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts and may include statements concerning, among other things, the anticipated economic and business environment in our service area and elsewhere, credit quality and other financial and business matters in future periods, our future results of operations and financial position, our business strategy and plans and our objectives and future operations. We also may make forward-looking statements in our other documents filed with or furnished to the U.S. Securities and Exchange Commission (the “SEC”). In addition, our senior management may make forward-looking statements orally to analysts, investors, representatives of the media and others. Our forward-looking statements are based on numerous assumptions, any of which could prove to be inaccurate, and actual results may differ materially from those projected because of a variety of risks and uncertainties, including, but not limited to: 1) general economic conditions either nationally, internationally, or locally may be different than expected, and particularly, any event that negatively impacts the tourism industry in Hawaii; 2) the compounding effects of the COVID-19 pandemic, including reduced tourism in Hawaii, the duration and scope of government mandates or other limitations on travel and any lingering effects therefrom, volatility in the international and national economy and credit markets, worker absenteeism, quarantines or other travel or health-related restrictions, the length and severity of the COVID-19 pandemic, the pace of recovery following the COVID-19 pandemic, and the effect of government, business and individual actions intended to mitigate the effects of the COVID-19 pandemic; 3) changes in market interest rates that may affect credit markets and our ability to maintain our net interest margin; 4) changes in our credit quality or risk profile that may increase or decrease the required level of our reserve for credit losses; 5) the impact of legislative and regulatory initiatives, particularly the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the “Dodd-Frank Act”) and Economic Growth, Regulatory Relief, and Consumer Protection Act of 2018; 6) changes to the amount and timing of proposed common stock repurchases; 7) unanticipated changes in the securities markets, public debt markets, and other capital markets in the U.S. and internationally, including, without limitation, the anticipated elimination of the London Interbank Offered Rate (“LIBOR”) as a benchmark interest rate; 8) changes in fiscal and monetary policies of the markets in which we operate; 9) the increased cost of maintaining or the Company’s ability to maintain adequate liquidity and capital, based on the requirements adopted by the Basel Committee on Banking Supervision and U.S. regulators; 10) changes in accounting standards; 11) the effect of changes in or interpretations of tax laws or regulations, including Public Law 115-97, commonly known as the Tax Cuts and Jobs Act; 12) any failure or disruption in or breach of our operational or security systems, information systems or infrastructure, or those of our merchants, third party vendors and other service providers; 13) any interruption or breach of security of our information systems resulting in failures or disruptions in customer account management, general ledger processing, and loan or deposit systems; 14) natural disasters, public unrest or adverse weather, public health, disease outbreaks, and other conditions impacting us and our customers’ operations or negatively impacting the tourism industry in Hawaii; 15) competitive pressures in the markets for financial services and products; 16) actual or alleged conduct which could harm our reputation; and 17) the impact of litigation and regulatory investigations of the Company, including costs, expenses, settlements, and judgments. Given these risks and uncertainties, investors should not place undue reliance on any forward-looking statement as a prediction of our actual results. A detailed discussion of these and other risks and uncertainties that could cause actual results and events to differ materially from such forward-looking statements is included under the section entitled “Risk Factors” in Part II of this report and Part I of our Annual Report on Form 10-K for the year ended December 31, 2020, and subsequent periodic and current reports filed with the SEC. Words such as “believes,” “anticipates,” “expects,” “intends,” “targeted,” and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. We undertake no obligation to update forward-looking statements to reflect later events or circumstances, except as may be required by law.

## Critical Accounting Policies

Our Consolidated Financial Statements were prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and follow general practices within the industries in which we operate. The most significant accounting policies we follow are presented in Note 1 to the Company’s Annual Report on Form 10-K for the year ended December 31, 2020. Application of these principles requires us to make estimates, assumptions, and judgments that affect the amounts reported in the Consolidated Financial Statements and accompanying notes. Most accounting policies are not considered by management to be critical accounting policies. Several factors are considered in determining whether or not a policy is critical in the preparation of the Consolidated Financial Statements. These factors include among other things, whether the policy requires management to make difficult, subjective, and complex judgments about matters that are inherently uncertain and because it is likely that materially different amounts would be reported under different conditions or using different assumptions. The accounting policies which we believe to be most critical in preparing our Consolidated Financial Statements are presented in the section titled “Critical Accounting Policies” in Management’s Discussion and Analysis of Financial Condition and Results of Operations included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2020. There have been no significant changes in the Company’s application of critical accounting policies since December 31, 2020.

## Overview

Bank of Hawaii Corporation (the “Parent”) is a Delaware corporation and a bank holding company headquartered in Honolulu, Hawaii. The Parent’s principal operating subsidiary is Bank of Hawaii (the “Bank”).

The Bank, directly and through its subsidiaries, provides a broad range of financial services and products to businesses, consumers, and governments in Hawaii, Guam, and other Pacific Islands. References to “we,” “our,” “us,” or the “Company” refer to the Parent and its subsidiaries that are consolidated for financial reporting purposes.

The Company’s business strategy is to use our unique market knowledge, prudent management discipline and brand strength to deliver exceptional value to our stakeholders.

### *Hawaii Economy*

The COVID-19 pandemic has had and is continuing to have an impact on the Hawaii economy. The actions taken by the State of Hawaii beginning in March 2020 were imposed to mitigate the spread and lessen the public health impact of the COVID-19 virus in Hawaii. Prior to the COVID-19 pandemic, at risk industries of leisure and hospitality represented 19% of jobs and 10% of Hawaii’s GDP. Hawaii benefits from a wide range of industries that help to provide stability in the case of economic shocks. Federal government jobs, primarily military, have historically been a stabilizing part of Hawaii’s economy, supplying about 20% of GDP. Construction activity, including the Honolulu Rail Project, and other non-visitor-related activities have continued despite COVID-19. Hawaii’s large retiree population also contributes to a stable economic base. The U.S. government has enacted several stimulus programs to counteract the economic disruptions caused by the COVID-19 pandemic, including the Coronavirus Aid, Relief, and Economic Security (“CARES”) Act, Paycheck Protection Program (“PPP”), Consolidated Appropriations Act (“CAA”), and American Rescue Plan (“ARP”). Notwithstanding these stimulus programs, the Hawaii economy will likely continue to face significant challenges.

We have taken and continue to take significant steps to help our customers who have been impacted by COVID-19. For our consumer customers, we initially provided payment relief for residential mortgage, home equity, auto loan, auto lease and direct personal loans for up to six months. We waived associated late fees, while not reporting these payment deferrals as late payments to the credit bureaus for all customers who were current prior to the event. For our commercial customers that continued to make interest payments, we provided six months of principal deferral, or alternatively, three months of interest or interest and principal deferral. Although our formal assistance programs have ended, the Bank continues to work with our customers who are still being impacted by the COVID-19 pandemic.

The Bank continues to responsibly lend to qualified consumer and commercial customers. We participated in the SBA’s Small Business Paycheck Protection Program. As of September 30, 2021, the Bank had 1,939 PPP loans totaling \$268.5 million net of deferred cost and fees.

### Earnings Summary

Net income for the third quarter of 2021 was \$62.1 million, an increase of \$24.2 million or 64% compared to the same period in 2020. Diluted earnings per common share was \$1.52 for the third quarter of 2021, an increase of \$0.57 or 60% compared to the same period in 2020.

Net income for the first nine months of 2021 was \$189.5 million, an increase of \$78.0 million or 70% compared to the same period in 2020. Diluted earnings per common share was \$4.70 for the first nine months of 2021, an increase of \$1.90 or 68% compared to the same period in 2020.

- The return on average assets for the third quarter of 2021 was 1.07% compared with 0.76% in the same period in 2020.
- The return on average common equity for the third quarter of 2021 was 17.08% compared with 11.01% in the same period in 2020.
- Net interest income for the third quarter of 2021 was \$126.8 million, an increase of 2.1% from the same period in 2020. Net interest margin was 2.32% in the third quarter of 2021, a decrease of 35 basis points from the same period in 2020. The decrease in the net interest margin from prior year is largely due to higher levels of liquidity from continued strong deposit growth and lower interest rates, partially offset by higher fees from Paycheck Protection Program (“PPP”) loans.
- The provision for credit losses for the third quarter of 2021 was a net benefit of \$10.4 million compared with a net expense of \$28.6 million in the same period in 2020.
- Noninterest income was \$41.4 million in the third quarter of 2021, a decrease of 0.9% from the same period in 2020.
- Noninterest expense was \$96.5 million in the third quarter of 2021, an increase of 7.3% compared to the same period in 2020. The third quarter of 2021 included one-time significant items related to gain on sale of property, partially offset by early termination of repurchase agreements and severance, reducing expense by \$1.3 million.
- The efficiency ratio during the third quarter of 2021 was 57.38% compared with 54.22% in the same period in 2020.
- The effective tax rate for the third quarter of 2021 was 24.40% compared with 20.09% in the same period in 2020.
- Total non-performing assets were \$20.6 million at September 30, 2021, an increase of \$2.0 million compared to September 30, 2020. Non-performing assets as percentage of total loans and leases and foreclosed real estate were 0.17% at September 30, 2021, an increase of 1 basis point compared to September 30, 2020.
- Net loan and lease charge-offs during the third quarter of 2021 were \$1.2 million or 0.04% annualized of total average loans and leases outstanding, comprised of charge-offs of \$3.4 million partially offset by recoveries of \$2.2 million. Compared to the third quarter of 2020, net loan and lease charge-offs increased by \$2.7 million or 9 basis points on total average loans and leases outstanding.
- The allowance for credit losses on loans and leases was \$167.9 million at September 30, 2021, a decrease of \$35.6 million from September 30, 2020. The ratio of the allowance for credit losses to total loans and leases outstanding was 1.39% at the end of the quarter, a decrease of 34 basis points from the end of the same period in 2020.

We maintained a strong balance sheet during the third quarter of 2021, with what we believe are appropriate reserves for credit losses and high levels of liquidity and capital.

- Total assets increased to a new record of \$23.0 billion at September 30, 2021, an increase of 14.2% from September 30, 2020.
- The investment securities portfolio was \$9.3 billion at September 30, 2021, an increase of 44.8% from September 30, 2020, due to growth in deposits that continued to outpace loan growth. The portfolio remains largely comprised of securities issued by U.S. government agencies and U.S. government-sponsored enterprises.

- Total loans and leases were \$12.1 billion at September 30, 2021, an increase of 2.4% from September 30, 2020. Total loans excluding PPP loans were \$11.8 billion at September 30, 2021, an increase of 4.8% from September 30, 2020.
- Total deposits were \$20.5 billion at September 30, 2021, an increase of 15.5% from September 30, 2020.
- The Company reduced \$100 million of repurchase agreements in the third quarter of 2021.

Our financial highlights are presented in Table 1.

<sup>1</sup> Provision for Credit Losses for 2021 includes Provision for Unfunded Commitments and Accrued Interest Receivable, 2020 represents only Provisions for Loans and Leases.

<sup>2</sup> Efficiency ratio is defined as noninterest expense divided by total revenue (net interest income and total noninterest income).

<sup>3</sup> Net interest margin is defined as net interest income, on a taxable-equivalent basis, as a percentage of average earning assets.

<sup>4</sup> Dividend payout ratio is defined as dividends declared per common share divided by basic earnings per common share.

<sup>5</sup> The numerator comprises the Allowance for Credit Losses – Loans and Leases.

<sup>6</sup> Tangible common equity to tangible assets and tangible common equity to risk-weighted assets are Non-GAAP financial measures. Tangible common equity is defined by the Company as common shareholders' equity minus goodwill and intangible assets. Intangible assets are included as a component of other assets in the Consolidated Statements of Condition.

**Use of Non-GAAP Financial Measures**

The ratios “tangible common equity to tangible assets” and “tangible common equity to risk-weighted assets” are Non-GAAP financial measures. The Company believes these measurements are useful for investors, regulators, management and others to evaluate capital adequacy relative to other financial institutions. Although these Non-GAAP financial measures are frequently used by stakeholders in the evaluation of a financial institution, they have limitations as analytical tools, and should not be considered in isolation, or as a substitute for analyses of results as reported under GAAP. Table 2 provides a reconciliation of these Non-GAAP financial measures with their most closely related GAAP measures.

<sup>2</sup> Comprised of other consumer revolving credit, installment, and consumer lease financing.

**Net Interest Income**

Net interest income is affected by the size and mix of our balance sheet components as well as the spread between interest earned on assets and interest paid on liabilities. Net interest margin is defined as net interest income, on a taxable-equivalent basis, as a percentage of average earning assets. The lower margin in 2021 was primarily due to lower yields on investment securities and loans and leases. These decreases were partially offset by a higher level of earning assets and lower funding costs.

Yields on our earning assets decreased by 43 basis points in the third quarter of 2021 and by 60 basis points in the first nine months of 2021 compared to the same periods in 2020 primarily due to the lower rate environment. Yields on our investment securities portfolio decreased by 45 basis points in the third quarter of 2021 and by 67 basis points in the first nine months of 2021 compared to the same periods in 2020 primarily due to higher premium amortization coupled with purchases of lower yielding securities. Yield decreases in our construction, commercial mortgage, and commercial and industrial loans were primarily due to lower yields on floating rate loans. Yields on our construction loans decreased by 22 basis points in the third quarter of 2021 and by 53 basis points in the first nine months of 2021 compared to the same periods in 2020 primarily due to lower yields on floating-rate loans, and new loans with lower rates in comparison to loans that were paid off or transferred to commercial mortgage upon completion. Yields on our commercial mortgage loans decreased by 24 basis points in the third quarter of 2021 and by 53 basis points in the first nine months of 2021 compared to the same periods in 2020. Similar to our construction loans, commercial mortgage loan yields were negatively impacted by lower yields on floating-rate loans, and new loans with lower rates than loans that were paid off. These decreases were partially offset by interest recoveries in the current year. Yields on our commercial and industrial loans excluding PPP loans decreased by 14 basis points in the third quarter of 2021 and by 40 basis points in the first nine months of 2021 compared to the same periods in 2020 primarily due to lower yields on floating-rate loans coupled with new loans at lower rates than loans that were paid off. Contractual yields on PPP loans are fixed at 1%, however, effective yield varies based on processing fee income being accelerated due to loans being forgiven by the SBA ahead of maturity. The contribution to the earning asset yield for the current quarter was an increase of 14 basis points. Yields on our funds sold was relatively unchanged in the third quarter of 2021 compared to the same period in 2020. Yields on our funds sold decreased by 12 basis points in the first nine months of 2021 compared to the same period in 2020 primarily due to federal fund rate decreases.

Interest rates paid on our interest-bearing liabilities decreased by 10 basis points in the third quarter of 2021 and by 22 basis points in the first nine months of 2021 compared to the same periods in 2020. Decreases to our funding costs are primarily due to lower rates paid on our interest-bearing deposits. Securities sold under agreements to repurchase increased by 10 basis points in the third quarter of 2021 compared to the same periods in 2020. Securities sold under agreements to repurchase decreased by 14 basis points in the first nine months of 2021 compared to the same periods in 2020. In September 2021, we terminated three of our repurchase agreements with an aggregated total of \$100.0 million. These repurchase agreements were scheduled to mature in 2022, 2024, and 2025. The repurchase agreements had a weighted-average interest rate of 2.37%. The decrease in our funding costs were partially offset by higher average balances in our interest-bearing deposits. The average balance of our interest bearing demand deposits increased by \$1.2 billion or 36% in the third quarter of 2021 and by \$1.2 billion or 36% in the first nine months of 2021 compared to the same periods in 2020. The average balance of savings deposits increased by \$801.0 million or 12% in the third quarter of 2021 and by \$720.7 million or 11% in the first nine months of 2021 compared to the same periods in 2020.

Average balances of our earning assets increased by \$3.3 billion or 16% in the third quarter of 2021 and by \$3.0 billion or 16% in the first nine months of 2021 compared to the same periods in 2020 primarily due to an increase in the average balances of our investment securities. Average balance of investment securities increased by \$2.5 billion or 41% in the third quarter of 2021 and by \$2.1 billion or 36% in the first nine months compared to the same periods in 2020. Average balances of our loan and lease portfolio increased by \$218.5 million in the third quarter of 2021 and by \$492.2 million or 4% in the first nine months of 2021 compared to the same periods in 2020. The average balance of funds sold increased by \$415.3 million in the third quarter of 2021 and by \$405.4 million in the first nine months of 2021 compared to the same periods in 2020. The average balance of our commercial mortgage portfolio increased by \$230.4 million in the third quarter of 2021 and by \$262.6 million in the first nine months of 2021 compared to the same periods in 2020 as a result of continued demand from new and existing customers. The average balance in our residential mortgage portfolio increased by \$264.5 million in the third quarter of 2021 and by \$270.5 million in the first nine months of 2021 compared to the same periods in 2020 primarily due to higher loan originations partially offset by an increase in payoff activity. The average balance of our commercial and industrial portfolio including PPP loans decreased by \$272.2 million in the third quarter of 2021 compared to the same period in 2020. The average balance of our commercial and industrial portfolio including PPP loans, increased by \$63.0 million in the first nine months of 2021 compared to the same periods in 2020 primarily due to origination of new loans under the PPP, partially offset by payoff activity. The average balance of our home equity portfolio decreased by \$3.8 million in the third quarter of 2021 and by \$60.4 million in the first nine months of 2021 compared to the same periods in 2020 as a result of elevated runoff rates and lower utilization rates.

Average balances of our interest-bearing liabilities increased by \$1.6 billion or 13% in the third quarter of 2021 and by \$1.5 billion or 12% in the first nine months of 2021 compared to the same periods in 2020 primarily due to growth in our demand and savings products. Average balance in our core interest bearing deposit products increased by \$2.1 billion in the third quarter of 2021 and by \$1.8 billion in the first nine months of 2021 compared to the same periods in 2020. Average balances of our other debt, which was comprised primarily of Federal Home Loan Bank (“FHLB”) advances decreased by \$50.1 million or 83% in the third quarter of 2021 and by \$29.1 million or 46% in the first nine months of 2021 compared to the same periods in 2020 primarily due to the prepayment of FHLB advances totaling \$50.0 million in the second quarter of 2021.

### Noninterest Income

Table 5 presents the components of noninterest income.

(dollars in thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2021	2020	Change	2021	2020	Change
Trust and Asset Management	\$ 11,415	\$ 10,752	\$ 663	\$ 34,375	\$ 32,217	\$ 2,158
Mortgage Banking	3,136	4,047	(911)	12,056	11,020	1,036
Service Charges on Deposit Accounts	6,510	6,027	483	18,703	18,575	128
Fees, Exchange, and Other Service Charges	13,604	12,296	1,308	41,018	34,913	6,105
Investment Securities Gains (Losses), Net	(1,259)	(1,121)	(138)	(39)	11,125	(11,164)
Annuity and Insurance	735	881	(146)	2,348	2,692	(344)
Bank-Owned Life Insurance	1,897	1,806	91	5,877	5,035	842
Other Income	5,340	7,046	(1,706)	14,441	23,574	(9,133)
<b>Total Noninterest Income</b>	<b>\$ 41,378</b>	<b>\$ 41,734</b>	<b>\$ (356)</b>	<b>\$ 128,779</b>	<b>\$ 139,151</b>	<b>\$ (10,372)</b>

Trust and asset management income is comprised of fees earned from the management and administration of trusts and other customer assets. These fees are largely based upon the market value of the assets we manage and the fee rate charged to customers. Total trust assets under administration were \$11.1 billion and \$10.1 billion as of September 30, 2021, and, September 30, 2020, respectively. Trust and asset management income increased by \$0.7 million or 6% in the third quarter of 2021 and by \$2.2 million or 7% for the first nine months of 2021 compared to the same periods in 2020 primarily due to increases in market value and trust fees.

Mortgage banking income is highly influenced by mortgage interest rates, the housing market, the amount of our loan sales, and our valuation of mortgage servicing rights. Mortgage banking income decreased by \$0.9 million or 23% in the third quarter of 2021 compared to the same period in 2020. The decrease in the third quarter was primarily due to decreased sales of conforming saleable loans from current production offset with a net valuation allowance recovery to our servicing rights. During the third quarter of 2021, we recognized a \$0.7 million valuation allowance recovery to our mortgage servicing rights compared to a \$0.6 million valuation impairment recorded in the third quarter of 2020. Mortgage banking income increased by \$1.0 million or 9% for the first nine months of 2021 compared to the same period in 2020. For the first nine months of 2021, we recognized a \$1.8 million valuation allowance recovery to our mortgage servicing rights compared to a \$2.4 million valuation impairment to our mortgage servicing rights recorded in 2020. This increase was offset by lower conforming salable loans from current production.

Service charges on deposit accounts increased by \$0.5 million or 8% in the third quarter of 2021 and by \$0.1 million or 1% for the first nine months of 2021 compared to the same periods in 2020. These increases were primarily due to an increase in overdraft fees coupled with an increase in account analysis fees.

Fees, exchange, and other service charges, which are primarily comprised of debit and credit card income, fees from ATMs, merchant service activity, and other loan fees and service charges, increased by \$1.3 million or 11% in the third quarter of 2021 and by \$6.1 million or 17% for the first nine months of 2021 compared to the same periods in 2020. These increases were primarily due to higher fees from ATMs, merchant income, and debit card transaction volume.

Investment securities losses, net totaled \$1.3 million in the third quarter of 2021 compared to \$1.1 million during the same period in 2020. The net loss in the third quarter of 2021 was primarily due to the fees paid to the counterparties of our prior Visa Class B share sales transactions. The net losses of \$0.04 million in the first nine months of 2021 was primarily due to \$3.8 million of the fees paid to the counterparties of our prior Visa Class B share sales transactions and was partially offset by the net gains from the sales of mortgage-backed securities, corporate and government debt securities. The net gains of \$11.1 million in the first nine months of 2020 was primarily due to the sale of 80,214 Visa Class B shares.

Annuity and insurance income decreased by \$0.1 million or 17% in the third quarter of 2021 and by \$0.3 million or 13% for the first nine months of 2021 compared to the same periods in 2020 primarily due to a decrease in annuity and life insurance products sold.

Bank-owned life insurance was relatively unchanged in the third quarter of 2021 compared to the same period in 2020. Bank-owned life insurance increased by \$0.8 million or 17% for the first nine months of 2021 compared to the same period in 2020 primarily due to an increase in death benefits received.

Other noninterest income decreased by \$0.4 million or 1% in the third quarter of 2021 and by \$10.4 million or 7% for the first nine months of 2021 compared to the same periods in 2020. These decreases were primarily due to a decrease in fees related to our customer interest rate swap derivatives.

### Noninterest Expense

Table 6 presents the components of noninterest expense.

Noninterest Expense	Three Months Ended September 30,			Nine Months Ended September 30,		
	2021	2020	Change	2021	2020	Change
(dollars in thousands)						
Salaries	\$ 34,676	\$ 34,046	\$ 630	\$ 99,658	\$ 100,271	\$ (613)
Incentive Compensation	4,677	2,683	1,994	15,763	6,069	9,694
Share-Based Compensation	3,335	1,442	1,893	9,093	4,754	4,339
Commission Expense	1,772	1,800	(28)	6,807	4,821	1,986
Retirement and Other Benefits	4,746	4,164	582	15,552	13,316	2,236
Payroll Taxes	2,825	2,624	201	9,819	9,949	(130)
Medical, Dental, and Life Insurance	3,222	3,422	(200)	8,850	11,394	(2,544)
Separation Expense	1,194	1,770	(576)	3,317	6,555	(3,238)
<b>Total Salaries and Benefits</b>	<b>56,447</b>	<b>51,951</b>	<b>4,496</b>	<b>168,859</b>	<b>157,129</b>	<b>11,730</b>
Net Occupancy	3,079	7,281	(4,202)	17,216	24,997	(7,781)
Net Equipment	8,924	9,223	(299)	26,598	25,874	724
Data Processing	4,722	4,691	31	15,601	13,895	1,706
Professional Fees	2,948	2,743	205	9,468	9,012	456
FDIC Insurance	1,594	1,282	312	4,917	4,296	621
Other Expense:						
Delivery and Postage Services	1,363	1,636	(273)	4,704	5,387	(683)
Mileage Program Travel	1,340	1,172	168	3,708	3,341	367
Merchant Transaction and Card Processing Fees	1,424	1,025	399	3,781	3,205	576
Advertising	2,736	1,985	751	7,066	5,394	1,672
Amortization of Solar Energy Partnership Investments	512	716	(204)	1,536	2,148	(612)
Other	11,430	6,244	5,186	28,457	20,475	7,982
<b>Total Other Expense</b>	<b>18,805</b>	<b>12,778</b>	<b>6,027</b>	<b>49,252</b>	<b>39,950</b>	<b>9,302</b>
<b>Total Noninterest Expense</b>	<b>\$ 96,519</b>	<b>\$ 89,949</b>	<b>\$ 6,570</b>	<b>\$ 291,911</b>	<b>\$ 275,153</b>	<b>\$ 16,758</b>

Total salaries and benefits expense increased by \$4.5 million or 9% in the third quarter of 2021 compared to the same period in 2020. This increase is mainly due to a \$2.0 million increase in incentive compensation coupled with a \$1.9 million increase in share-based compensation primarily due to a higher number of restricted stock units being amortized. Total salaries and benefits expense increased by \$11.7 million or 7% for the first nine months of 2021 compared to the same period in 2020 primarily due to a \$9.7 million increase in incentive compensation coupled with a \$4.3 million increase in share-based compensation due to a higher number of restricted stock units being amortized. These increases were partially offset by a \$3.2 million decrease in separation expense.

Net occupancy expense decreased by \$4.2 million or 58% in the third quarter of 2021 compared to the same period in 2020 primarily due to a gain on sale of real estate property in Guam. Net occupancy expense decreased by \$7.8 million or 31% for the first nine months of 2021 compared to the same period in 2020. This decrease was primarily due to a \$9.5 million gain on sales of real estate property on the island of Oahu and Guam coupled with a \$0.8 million decrease in repairs and maintenance for the first nine months of 2021 compared to the same period in 2020.

Net equipment expense decreased by \$0.3 million or 3% in the third quarter of 2021 compared to the same period in 2020 primarily due to a \$0.3 million gain on the disposal of fixed assets in the third quarter of 2021. Net equipment expense increased by \$0.7 million or 3% for the first nine months of 2021 compared to the same period in 2020. This increase was due to higher depreciation expense and software license fee, partially offset by a gain on the disposal of fixed assets.

Data processing expense relatively unchanged in the third quarter of 2021 compared to the same period in 2020. Data processing expense increased by \$1.7 million or 12% for the first nine months of 2021 compared to the same period in 2020 primarily due to the rollout of contactless cards in 2021.

FDIC insurance expense increased by \$0.3 million or 24% in the third quarter of 2021 and by \$0.6 million or 14% for the first nine months of 2021 compared to the same periods in 2020 primarily due to an increase in assessment rates.

Total other expense increased by \$6.0 million or 47% in the third quarter of 2021 compared to the same period in 2020. This increase was primarily due to \$3.8 million early termination costs incurred in the third quarter of 2021 related to the prepayment of \$100.0 million of repurchase agreements. Total other expense increased by \$9.3 million or 23% for the first nine months of 2021 compared to the same period in 2020 due to a total of \$7.0 million early termination costs incurred in 2021 related to the prepayment of \$150.0 million of repurchase agreements and \$50.0 million of FHLB advances.

#### *Provision for Income Taxes*

Table 7 presents our provision for income taxes and effective tax rates.

#### **Provision for Income Taxes and Effective Tax Rates**

**Table 7**

(dollars in thousands)	<b>Three Months Ended September 30,</b>		<b>Nine Months Ended September 30,</b>	
	<b>2021</b>	<b>2020</b>	<b>2021</b>	<b>2020</b>
Provision for Income Taxes	\$ 20,025	\$ 9,511	\$ 59,035	\$ 26,732
Effective Tax Rates	24.40%	20.09%	23.75%	19.34%

The provision for income taxes was \$20.0 million in the third quarter of 2021, an increase of \$10.5 million compared to the same period in 2020. The effective tax rate for the third quarter of 2021 was 24.40%, up from 20.09% for the same period in 2020. The higher effective rate in the third quarter of 2021 compared to the same period in 2020 was primarily due to higher pretax book income compared to relatively stable tax adjustments and the delayed impact of the TCJA on the deductibility of deferred executive compensation.

The provision for income taxes was \$59.0 million for the first nine months of 2021, an increase of \$32.3 million compared to the same period in 2020. The effective tax rate for the first nine months of 2021 was 23.75%, up from 19.34% for the same period in 2020. The higher effective tax rate for the first nine months of 2021 compared to the same period in 2020 was primarily due to the aforementioned higher pretax book income compared to a relatively consistent amount of tax adjustments.

## **Analysis of Statements of Condition**

### *Investment Securities*

The carrying value of our investment securities portfolio was \$9.3 billion and \$7.1 billion as of September 30, 2021, and December 31, 2020, respectively.

We continually evaluate our investment securities portfolio in response to established asset/liability management objectives, changing market conditions that could affect profitability, and the level of interest rate risk to which we are exposed. These evaluations may cause us to change the level of funds we deploy into investment securities, change the composition of our investment securities portfolio, and change the proportion of investments made into the available-for-sale and held-to-maturity investment categories.

Mortgage-backed securities issued by Ginnie Mae, Fannie Mae, and Freddie Mac are the largest concentration in our portfolio. As of September 30, 2021, our portfolio of Ginnie Mae, Fannie Mae, and Freddie Mac mortgage-backed securities were primarily comprised of securities issued in 2008 or later. As of September 30, 2021, these mortgage-backed securities were all AAA-rated, with a low probability of a change in their credit ratings in the near future.

Gross unrealized gains in our investment securities portfolio were \$76.6 million as of September 30, 2021, and \$158.9 million as of December 31, 2020. Gross unrealized losses in our investment securities were \$89.8 million as of September 30, 2021, and \$2.9 million as of December 31, 2020. The overall decrease in net unrealized gains was primarily due to the increase in interest rates during 2021. The gross unrealized losses were primarily related to mortgage-backed securities issued by Ginnie Mae, Fannie Mae, and Freddie Mac. See Note 3 to the Consolidated Financial Statements for more information.

*Loans and Leases*

Table 8 presents the composition of our loan and lease portfolio by major categories.

<b>Loan and Lease Portfolio Balances</b>	<b>Table 8</b>		
(dollars in thousands)	<b>September 30, 2021</b>	<b>December 31, 2020</b>	<b>Change</b>
<b>Commercial</b>			
Commercial and Industrial	\$ 1,325,446	\$ 1,357,610	\$ (32,164)
PPP 1	268,480	517,683	(249,203)
Commercial Mortgage	2,994,520	2,854,829	139,691
Construction	296,052	259,798	36,254
Lease Financing	107,526	110,766	(3,240)
<b>Total Commercial</b>	<b>4,992,024</b>	<b>5,100,686</b>	<b>(108,662)</b>
<b>Consumer</b>			
Residential Mortgage	4,272,540	4,130,513	142,027
Home Equity	1,680,229	1,604,538	75,691
Automobile	727,234	708,800	18,434
Other 2	400,723	395,483	5,240
<b>Total Consumer</b>	<b>7,080,726</b>	<b>6,839,334</b>	<b>241,392</b>
<b>Total Loans and Leases</b>	<b>\$ 12,072,750</b>	<b>\$ 11,940,020</b>	<b>\$ 132,730</b>

<sup>1</sup> The PPP amounts presented, which are reported net of deferred costs and fees, were previously included as a component of the Commercial and Industrial loan class.

<sup>2</sup> Comprised of other revolving credit, installment, and lease financing.

Total loans and leases as of September 30, 2021, increased by \$132.7 million, or 1%, from December 31, 2020, primarily due to growth in our consumer lending portfolio.

Commercial loans and leases as of September 30, 2021, decreased by \$108.7 million, or 2% from December 31, 2020. Commercial and industrial loans decreased by \$32.2 million or 2% from December 31, 2020, primarily due to customers paying down commercial credit lines. PPP loans decreased by \$249.2 million, or 48% from December 31, 2020, primarily due to forgiveness payments received from SBA. Commercial mortgage loans increased by \$139.7 million or 5% from December 31, 2020, primarily due to demand from new and existing customers. Construction loans increased by \$36.3 million or 14% from December 31, 2020, primarily due to an increase in construction activity in our market. Lease financing decreased by \$3.2 million, or 3% from December 31, 2020, primarily due to paydowns.

Consumer loans and leases as of September 30, 2021, increased by \$241.4 million or 4% from December 31, 2020. Residential mortgage loans increased by \$142.0 million or 3% from December 31, 2020, primarily due to higher loan originations, partially offset by an increase in payoff activity. Home equity decreased by \$75.7 million or 5% from December 31, 2020, as a result of increased loan originations and stable payoff levels. Automobile loans increased by \$18.4 million or 3% from December 31, 2020, primarily driven by competitive loan programs and strong consumer demand. Other consumer loans increased by \$5.2 million or 1% from December 31, 2020, primarily due to growth in our installment loans.

Table 9 presents the composition of our loan and lease portfolio by geographic area and by major categories.

**Geographic Distribution of Loan and Lease Portfolio**

<sup>1</sup> For secured loans and leases, classification as U.S. Mainland is made based on where the collateral is located. For unsecured loans and leases, classification as U.S. Mainland is made based on the location where the majority of the borrower's business operations are conducted.

<sup>2</sup> Comprised of other revolving credit, installment, and lease financing.

<sup>3</sup> The PPP amounts presented, which are reported net of deferred costs and fees, were previously included as a component of the Commercial and Industrial loan class.

Our commercial and consumer lending activities are concentrated primarily in Hawaii and the Pacific Islands. Our commercial loan and lease portfolio to borrowers based on the U.S. Mainland includes legacy lease financing and participation in shared national credits for customers whose operations and assets extend beyond Hawaii.

### Other Assets

Table 10 presents the major components of other assets.

<b>Other Assets</b>	<b>Table 10</b>		
(dollars in thousands)	<b>September 30, 2021</b>	<b>December 31, 2020</b>	<b>Change</b>
Federal Home Loan Bank and Federal Reserve Bank Stock	\$ 31,574	\$ 33,340	\$ (1,766)
Derivative Financial Instruments	48,721	96,167	(47,446)
Low-Income Housing and Other Equity Investments	129,367	142,961	(13,594)
Deferred Compensation Plan Assets	55,167	53,410	1,757
Prepaid Expenses	17,106	14,517	2,589
Accounts Receivable	19,859	12,380	7,479
Deferred Tax Assets	35,182	16,724	18,458
Other	100,170	65,794	34,376
<b>Total Other Assets</b>	<b>\$ 437,146</b>	<b>\$ 435,293</b>	<b>\$ 1,853</b>

Total other assets increased by \$1.9 million from December 31, 2020. The increase was primarily due to a \$19.7 million increase related to investment transactions and cash collateral and \$4.8 million related to purchases of other assets. Also, the increase was due to an \$18.5 million increase in deferred tax assets, primarily due to temporary differences between financial reporting and income tax basis of unrealized losses on investment securities. This increase was partially offset by a decrease in derivative financial instruments of \$47.4 million, which was primarily due to fair value decreases of our interest rate swap agreement assets.

### Deposits

Table 11 presents the composition of our deposits by major customer categories.

<b>Deposits</b>	<b>Table 11</b>		
(dollars in thousands)	<b>September 30, 2021</b>	<b>December 31, 2020</b>	<b>Change</b>
Consumer	\$ 10,150,199	\$ 9,347,725	\$ 802,474
Commercial	8,767,733	7,302,832	1,464,901
Public and Other	1,575,746	1,561,064	14,682
<b>Total Deposits</b>	<b>\$ 20,493,678</b>	<b>\$ 18,211,621</b>	<b>\$ 2,282,057</b>

Total deposits were \$20.5 billion as of September 30, 2021, an increase of \$2.3 billion or 13% from December 31, 2020. This increase was primarily due to an increase in commercial and consumer deposits. Commercial deposits increased by \$1.5 billion or 20% primarily due to a \$1.3 billion increase in core deposits and a \$51.8 million increase in time deposits. Consumer deposits increased by \$802.5 million or 9% due to an increase in core deposits of \$929.5 million, partially offset by a \$127.1 million decrease in time deposits. In addition, public and other deposits increased by \$14.7 million or 1% due to an increase in public demand deposits of \$528.6 million, partially offset by a decrease in time deposits of \$513.9 million.

Table 12 presents the composition of our savings deposits.

<b>Savings Deposits</b>	<b>Table 12</b>		
(dollars in thousands)	<b>September 30, 2021</b>	<b>December 31, 2020</b>	<b>Change</b>
Money Market	\$ 2,803,547	\$ 2,453,619	\$ 349,928
Regular Savings	4,736,798	4,305,594	431,204
<b>Total Savings Deposits</b>	<b>\$ 7,540,345</b>	<b>\$ 6,759,213</b>	<b>\$ 781,132</b>

### Securities Sold Under Agreements to Repurchase

Table 13 presents the composition of our securities sold under agreements to repurchase.

<b>Securities Sold Under Agreements to Repurchase</b>	<b>Table 13</b>		
(dollars in thousands)	<b>September 30, 2021</b>	<b>December 31, 2020</b>	<b>Change</b>
Private Institutions	\$ 450,000	\$ 600,000	\$ (150,000)
Government Entities	490	590	(100)
<b>Total Securities Sold Under Agreements to Repurchase</b>	<b>\$ 450,490</b>	<b>\$ 600,590</b>	<b>\$ (150,100)</b>

Securities sold under agreements to repurchase was \$450.5 million as of September 30, 2021, a decrease of \$150.1 million or 25% from December 31, 2020. As of September 30, 2021, the weighted-average maturity was 3.1 years for our repurchase agreements with government entities and 3.3 years for our repurchase agreements with private institutions. Some of our repurchase agreements with private institutions may be terminated at earlier specified dates by the private institution or in some cases by either the private institution or the Company. If all such agreements were to terminate at the earliest possible date, the weighted-average maturity for our repurchase agreements with private institutions would decrease to 3.3 years. As of September 30, 2021, the weighted-average interest rate for outstanding agreements with government entities and private institutions was 1.55% and 2.46%, respectively, with all rates being fixed. Each of our repurchase agreements is accounted for as a collateralized financing arrangement (i.e., a secured borrowing) and not as a sale and subsequent repurchase of securities.

In third quarter of 2021, we terminated three of our repurchase agreements, with an aggregate total of \$100.0 million, with three private institutions. These repurchase agreements were scheduled to mature in 2022, 2024, and 2025. The repurchase agreements had a weighted-average interest rate of 2.37%.

### Other Debt

Table 14 presents the composition of our other debt.

<b>Other Debt</b>	<b>Table 14</b>		
(dollars in thousands)	<b>September 30, 2021</b>	<b>December 31, 2020</b>	<b>Change</b>
Federal Home Loan Bank Advances	\$ —	\$ 50,000	\$ (50,000)
Finance Lease Obligations	10,414	10,481	(67)
<b>Total</b>	<b>\$ 10,414</b>	<b>\$ 60,481</b>	<b>\$ (50,067)</b>

Other debt was \$10.4 million as of September 30, 2021, a decrease of \$50.0 million or 83% from December 31, 2020. During the first nine months of 2021, we prepaid the FHLB advances totaling \$50.0 million with a weighted-average interest rate of 1.19% and maturity dates during 2024. As of September 30, 2021, our remaining unused line of credit with the FHLB was \$2.9 billion.

**Analysis of Business Segments**

Our business segments are defined as Consumer Banking, Commercial Banking, and Treasury and Other.

Table 15 summarizes net income from our business segments. Additional information about segment performance is presented in Note 10 to the Consolidated Financial Statements.

(dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
Consumer Banking	\$ 23,495	\$ 27,981	\$ 62,981	\$ 71,118
Commercial Banking	31,739	30,340	91,426	93,725
<b>Total</b>	55,234	58,321	154,407	164,843
Treasury and Other	6,819	(20,481)	35,128	(53,353)
<b>Consolidated Total</b>	\$ 62,053	\$ 37,840	\$ 189,535	\$ 111,490

**Consumer Banking**

Net income decreased by \$4.5 million or 16% in the third quarter of 2021 compared to the same period in 2020 primarily due to an increase in the provision for credit losses (the "Provision"), an increase in noninterest expense, and a decrease in net interest income. The increase in the Provision was primarily due to higher net charge-offs in our home equity, installment loan, auto loan and mortgage loan portfolios. The increase in noninterest expense is primarily due to a gain on the sale of real estate property on the island of Oahu in the third quarter of 2020. The decrease in net interest income is primarily due to lower average rates in the segment's deposit portfolio, partly offset by higher average balances in the deposit portfolio, as well as higher average rates and higher average balances in the segment's loan portfolio.

Net income decreased by \$8.1 million or 11% in the first nine months of 2021 compared to the same period in 2020 primarily due to an increase in noninterest expense and a decrease in net interest income. This was partly offset by an increase in noninterest income and a decrease in the Provision. The increase in noninterest expense was primarily due to increases in allocated incentive compensation expense and allocated share-based compensation expense. The decrease in net interest income was primarily due to lower average rates in the segment's deposit portfolio, partly offset by higher average balances in the deposit portfolio, as well as higher average rates and higher average balances in the segment's loan portfolio. The increase in noninterest income was primarily due to increases in trust and asset management fees, debit card income, mortgage banking income, and ATM fees. The decrease in the Provision was primarily due to lower net charge-offs in our auto loan, residential mortgage, personal creditline and installment loan portfolios.

**Commercial Banking**

Net income increased by \$1.4 million in the third quarter of 2021, compared to the same period in 2020, primarily due to an increase in interest income and partially offset by an increase in noninterest expense. The increase in interest income is primarily due to growth in the Commercial Mortgage and Construction portfolios, partially offset by a decline in the Commercial & Industrial portfolio. The increase in noninterest income is primarily due to an increase in merchant services and partially offset by a decline in customer derivative program revenue. The increase in noninterest expense was primarily due to increased salaries and benefits and merchant services processing fees, partially offset by reduced allocated expenses.

Net income decreased by \$2.2 million in the first nine months of 2021, compared to the same period in 2020, primarily due to a decrease in noninterest income, partially offset by an increase in interest income and reduced noninterest expenses. The decrease in noninterest income is primarily due to a decline in customer derivative program revenue and partially offset by increases in account analysis, loan fees, and merchant services. The increase in interest income is due to growth in the commercial mortgage and construction portfolios. The decline in noninterest expense was primarily due to reduced allocated expense and was partially offset by increased salaries and benefits, and merchant services processing fees.

## Treasury and Other

Net income increased by \$27.3 million in the third quarter of 2021 compared to the same period in 2020 primarily due to a decrease in the Provision” partially offset by an increase in noninterest expense and higher provision for income taxes. The increase in noninterest expense was due to early termination costs incurred in the third quarter of 2021 related to the prepayment of repurchase agreements. The decrease in the Provision was due to the changes in economic outlook and forecasts for COVID-19 pandemic driven market changes, and impacts of fiscal, monetary and regulatory programs. The provision for income taxes in this business segment represents the residual amount to arrive at the total tax expense for the Company.

Net income increased by \$88.5 million in the first nine months of 2021 compared to the same period in 2020 primarily due to a decrease in the Provision partially offset by an increase in noninterest expense and higher provision for income taxes. The increase in noninterest expense was due to early termination costs incurred in the second and third quarter of 2021 related to the prepayment of repurchase agreements and FHLB advances. The decrease in the Provision was due to the changes in economic outlook and forecasts for COVID-19 pandemic driven market changes, and impacts of fiscal, monetary and regulatory programs. The provision for income taxes in this business segment represents the residual amount to arrive at the total tax expense for the Company.

## Corporate Risk Profile

### *Credit Risk*

As of September 30, 2021, our overall credit risk profile reflects the improving trend of economic impacts from the COVID-19 pandemic in the markets we serve. Despite the challenge of these economic impacts, the underlying risk profile of our credit portfolio remains strong.

We actively manage exposures with deteriorating asset quality to reduce levels of potential loss exposure and closely monitor our reserves and capital to address both anticipated and unforeseen issues. Risk management activities include detailed analysis of portfolio segments and stress tests of certain segments to ensure that reserve and capital levels are appropriate. We perform frequent loan and lease-level risk monitoring and risk rating reviews, which provide opportunities for early interventions to allow for credit exits or restructuring, loan and lease sales, and voluntary workouts and liquidations.

*Non-Performing Assets and Accruing Loans and Leases Past Due 90 Days or More*

Table 16 presents information on non-performing assets (“NPAs”) and accruing loans and leases past due 90 days or more.

<b>Non-Performing Assets and Accruing Loans and Leases Past Due 90 Days or More</b>	<b>Table 16</b>

<b>Total Reductions</b>	<b>(6,253)</b>		
<b>Balance as of September 30, 2021</b>	<b>\$ 20,620</b>		

<sup>1</sup> Comprised of other revolving credit, installment, and lease financing.

NPAs consist of non-accrual loans and leases, and foreclosed real estate. Changes in the level of non-accrual loans and leases typically represent additions for loans and leases that reach a specified past due status, offset by reductions for loans and leases that are charged-off, paid down, sold, transferred to Other Real Estate Owned (“OREO”), or are no longer classified as non-accrual because they have returned to accrual status.

Residential mortgage non-accrual loans were \$4.3 million as of September 30, 2021, an increase of \$1.1 million or 35% from December 31, 2020, primarily due to returns to accrual status and payoffs. As of September 30, 2021, our residential mortgage non-accrual loans were comprised of 13 loans with a weighted average current loan-to-value ratio of 61%.

Foreclosed real estate represents property acquired as the result of borrower defaults on loans. Foreclosed real estate is recorded at fair value, less estimated selling costs, at the time of foreclosure. On an ongoing basis, properties are appraised as required by market conditions and applicable regulations. Foreclosed real estate as of September 30, 2021, was unchanged from December 31, 2020.

### Loans and Leases Past Due 90 Days or More and Still Accruing Interest

Loans and leases in this category are 90 days or more past due, as to principal or interest, and are still accruing interest because they are well secured and in the process of collection. Loans and leases past due 90 days or more and still accruing interest were \$8.7 million as of September 30, 2021, a \$1.8 million or 17% decrease from December 31, 2020. The decrease was primarily in residential mortgage, other, and auto loans, which was partially offset by an increase in home equity.

Table 17 presents information on loans with terms that have been modified in a TDR.

#### Loans Modified in a Troubled Debt Restructuring

Table 17

(dollars in thousands)	September 30, 2021	December 31, 2020	Change
<b>Commercial</b>			
Commercial and Industrial	\$ 19,728	\$ 20,337	\$ (609)
Commercial Mortgage	12,002	7,605	4,397
<b>Total Commercial</b>	<b>31,730</b>	<b>27,942</b>	<b>3,788</b>
<b>Consumer</b>			
Residential Mortgage	16,362	18,503	(2,141)
Home Equity	4,882	4,070	812
Automobile	17,090	19,155	(2,065)
Other <sup>1</sup>	2,646	2,809	(163)
<b>Total Consumer</b>	<b>40,980</b>	<b>44,537</b>	<b>(3,557)</b>
<b>Total</b>	<b>\$ 72,710</b>	<b>\$ 72,479</b>	<b>\$ 231</b>

<sup>1</sup> Comprised of other revolving credit, installment, and lease financing.

The Company initially offered loan and lease modifications to assist borrowers during the COVID-19 national emergency. These modifications generally involve principal and/or interest payment deferrals for up to six months. Similar to the initial modifications granted, the additional round of loan modifications generally involve principal and/or interest payment deferrals for up to an additional six months for commercial and consumer loans, and principal-only deferrals for up to an additional 12 months for selected commercial loans. The Company generally continues to accrue and recognize interest income during the deferral period. The Company offers several repayment options such as immediate repayment, repayment over a designated time period or as a balloon payment at maturity, or by extending the loan term. These modifications generally do not involve forgiveness or interest rate reductions. In accordance with Section 4013 of the CARES Act and the joint agency statement issued by banking agencies, these initial COVID-19 related loan and lease modifications are not accounted for as TDRs. As of September 30, 2021, these COVID-19 related loan and lease modifications totaled \$130.4 million (23 loans and leases) for the commercial segment and \$7.5 million (31 loans and leases) for the consumer segment. See Note 4 to the Consolidated Financial Statements for more information. Loans in a deferral program will continue to accrue interest during the deferral period unless otherwise classified as nonperforming. The provisions of the CARES Act and the interagency guidance issued by Federal banking regulators provided clarification related to modifications and deferral programs to assist borrowers who are negatively impacted by the COVID-19 pandemic. The guidance and clarifications detail certain provisions whereby banks are permitted to make deferrals and modifications to the terms of a loan which would not require the loans be reported as TDRs. In accordance with the CARES Act and the interagency guidance, we elected to not report qualified loan modifications as TDRs. The relief related to TDRs under the CARES Act was extended by the Consolidated Appropriations Act, 2021. Under the Consolidated Appropriations Act, relief under the CARES Act will continue until the earlier of (i) 60 days after the date the COVID-19 national emergency comes to an end or (ii) January 1, 2022. We do not know if the date will be extended beyond January 1, 2022 and it is possible that a failure to extend the date will result in an increase in the volume of loans considered TDRs. It is also unknown whether customers currently on a deferral period will be able to perform under the original terms of the loan once the deferral period ends. Any such inability to perform may result in increases in past due and nonperforming loans.

### Reserve for Credit Losses

Table 18 presents the activity in our reserve for credit losses.

Ratio of Allowance for Credit Losses to Loans and Leases Outstanding	1.39%	1.73%	1.39%	1.73%

<sup>1</sup> Comprised of other revolving credit, installment, and lease financing.

<sup>2</sup> Beginning December 31, 2020, the Company established a reserve on accrued interest receivable related to loans in which interest payment forbearances were granted to borrowers impacted by the COVID-19 pandemic. The reserve was recorded as a contra-asset against accrued interest receivable with the offset to provision for credit losses.

<sup>3</sup> The reserve for unfunded commitments is separately recorded in other liabilities in the consolidated statements of condition. For the nine months ended September 30, 2021, the offsetting provision was recorded in provision for credit losses in the consolidated statements of income. In previous reporting periods, the offsetting provision was recorded in other noninterest expense.

### *Allowance for Credit Losses - Loans and Leases*

As of September 30, 2021, the Allowance was \$167.9 million or 1.39% of total loans and leases outstanding (1.44% excluding PPP loans), compared with an Allowance of \$216.3 million or 1.81% of total loans and leases outstanding (1.89% excluding PPP loans) as of December 31, 2020. The decrease in the Allowance and the ratio of Allowance to loans and leases outstanding was primarily due to management's best estimate of losses over the life of loans and leases in our portfolio in accordance with the CECL approach, given the economic outlook and forecasts for COVID-19 pandemic driven market changes, as well as the impact of unprecedented intervention of fiscal, monetary and regulatory programs.

Net charge-off on loans and leases were \$1.2 million or 0.04% of total average loans and leases, on an annualized basis, in the third quarter of 2021 compared to net recoveries of \$1.5 million or 0.05% of total average loans and leases, on an annualized basis, in the third quarter of 2020. The decrease in net charge-offs on loans and leases was primarily due to the continued and cumulative impact of government stimulus measures and the assistance we offered to borrowers to modify payment terms, which support the trend of low delinquencies, which in turn reduce the number of charge-offs during the quarter. Net charge-off on loans and leases were \$5.3 million or 0.06% of total average loans and leases, on an annualized basis, for the first nine months of 2021.

### *Allowance for Credit Losses – Accrued Interest Receivable*

This allowance was first established on December 31, 2020, for accrued interest receivable related to loans in which interest payment forbearances were granted to borrowers impacted by the COVID-19 pandemic. The allowance for accrued interest receivable was \$0.7 million as of September 30, 2021, a decrease of \$2.0 million or 75% from December 31, 2020, as a result of both loan and deferred interest payments.

### *Reserve for Unfunded Commitments*

The Unfunded Reserve was \$6.1 million as of September 30, 2021, an increase of \$3.8 million or 160% from December 31, 2020, primarily driven by risk rating downgrades to commercial loans with low utilization.

### *Provision for Credit Losses*

We recorded a negative Provision of \$10.4 million in the third quarter of 2021 compared to a \$28.6 million Provision during the same period in 2020. For the first nine months of 2021 we recorded a negative Provision of \$40.8 million compared to a \$102.6 million Provision during the same period in 2020. These decreases were primarily due to management's best estimate of losses over the life of loans and leases in our portfolio in accordance with the CECL approach, given the economic outlook, consumer delinquency rates, post deferral consumer payment trends, very low commercial delinquency rates post-deferral, very strong commercial performance and liquidity levels during the second and third quarters, and forecasts for COVID-19 pandemic driven market changes, as well as the cumulative impact of unprecedented intervention of fiscal, monetary and regulatory programs. The smaller negative provision for the quarter ended September 2021 was primarily due to considering uncertainties driven by the COVID Delta variant surge in cases and UHERO updated forecast for unemployment reported in mid-September.

### **Market Risk**

Market risk is the potential of loss arising from adverse changes in interest rates and prices. We are exposed to market risk as a consequence of the normal course of conducting our business activities. Our market risk management process involves measuring, monitoring, controlling, and mitigating risks that can significantly impact our statements of income and condition. In this management process, market risks are balanced with expected returns in an effort to enhance earnings performance, while limiting volatility.

Our primary market risk exposure is interest rate risk.

### *Interest Rate Risk*

The objective of our interest rate risk management process is to maximize net interest income while operating within acceptable limits established for interest rate risk and maintaining adequate levels of funding and liquidity. The potential cash flows, sales, or replacement value of many of our assets and liabilities, especially those that earn or pay interest, are sensitive to changes in the general level of interest rates. This interest rate risk arises primarily from our core business activities of extending loans and accepting deposits. Our investment securities portfolio is also subject to significant interest rate risk.

Many factors affect our exposure to changes in interest rates such as general economic and financial conditions, customer preferences, historical pricing relationships, and repricing characteristics of financial instruments. Our earnings are affected not only by general economic conditions but also by the monetary and fiscal policies of the U.S. and its agencies, particularly the Federal Reserve Bank (the “FRB”). The monetary policies of the FRB can influence the overall growth of loans, investment securities, and deposits and the level of interest rates earned on assets and paid for liabilities.

In managing interest rate risk, we, through the Asset/Liability Management Committee (“ALCO”), measure short and long-term sensitivities to changes in interest rates. The ALCO, which is comprised of members of executive management, utilizes several techniques to manage interest rate risk, which include:

- adjusting the balance sheet mix or altering the interest rate characteristics of assets and liabilities;
- changing product pricing strategies;
- modifying characteristics of the investment securities portfolio; and
- using derivative financial instruments.

Our use of derivative financial instruments, as detailed in Note 11 to the Consolidated Financial Statements, has generally been limited. This is due to natural on-balance sheet hedges arising out of offsetting interest rate exposures from loans and investment securities with deposits and other interest-bearing liabilities. In particular, the investment securities portfolio is utilized to manage the interest rate exposure and sensitivity to within the guidelines and limits established by the ALCO. We utilize natural and offsetting economic hedges in an effort to reduce the need to employ off-balance sheet derivative financial instruments to hedge interest rate risk exposures. Expected movements in interest rates are also considered in managing interest rate risk. Thus, as interest rates change, we may use different techniques to manage interest rate risk.

A key element in our ongoing process to measure and monitor interest rate risk is the utilization of an asset/liability simulation model that attempts to capture the dynamic nature of the statement of condition. The model is used to estimate and measure the statement of condition sensitivity to changes in interest rates. These estimates are based on assumptions about the behavior of loan and deposit pricing, prepayment rates on mortgage-based assets, and principal amortization and maturities on other financial instruments. The model’s analytics include the effects of standard prepayment options on mortgages and customer withdrawal options for deposits. While such assumptions are inherently uncertain, we believe that our assumptions are reasonable.

We utilize net interest income simulations to analyze income sensitivities to changes in interest rates. Table 19 presents, as of September 30, 2021, and December 31, 2020, an estimate of the change in net interest income that would result from a gradual and immediate change in interest rates, moving in a parallel shock over the entire yield curve, relative to the measured base case scenario. The base case scenario assumes the statement of condition and interest rates are generally unchanged. Based on our net interest income simulation as of September 30, 2021, net interest income is expected to increase as interest rates rise. Rising interest rates would drive higher rates on loans and investment securities, as well as induce a slower pace of premium amortization on certain securities within our investment portfolio. However, lower interest rates would likely cause a decline in net interest income as lower rates would lead to lower yields on loans and investment securities, as well as drive higher premium amortization on existing investment securities. Based on our net interest income simulation as of September 30, 2021, net interest income sensitivity to changes in interest rates as of September 30, 2021, was slightly more sensitive in comparison to the sensitivity profile as of December 31, 2020.

**Net Interest Income Sensitivity Profile**
**Table 19**

(dollars in thousands)	Impact on Future Annual Net Interest Income					
	September 30, 2021		December 31, 2020			
<b>Gradual Change in Interest Rates (basis points)</b>						
+200	\$	30,602	6.3%	\$	21,584	4.6%
+100		15,900	3.3		10,776	2.3
-100		(8,177)	(1.7)		(3,547)	(0.8)
<b>Immediate Change in Interest Rates (basis points)</b>						
+200	\$	67,793	13.9%	\$	56,113	11.9%
+100		38,828	7.9		30,439	6.5
-100		(26,174)	(5.4)		(13,517)	(2.9)

To analyze the impact of changes in interest rates in a more realistic manner, non-parallel interest rate scenarios are also simulated. These non-parallel interest rate scenarios indicate that net interest income may decrease from the base case scenario should the yield curve flatten or become inverted for a period of time. Conversely, if the yield curve were to steepen, net interest income may increase.

**Other Market Risks**

In addition to interest rate risk, we are exposed to other forms of market risk in our normal business transactions. Foreign currency and foreign exchange contracts expose us to a small degree of foreign currency risk. These transactions are primarily executed on behalf of customers. Our trust and asset management income are at risk to fluctuations in the market values of underlying assets, particularly debt and equity securities. Also, our share-based compensation expense is dependent on the fair value of our stock options, restricted stock units, and restricted stock at the date of grant. The fair value of stock options, restricted stock units, and restricted stock is impacted by the market price of the Parent's common stock on the date of grant and is at risk to changes in equity markets, general economic conditions, and other factors.

**Liquidity Risk Management**

The objective of our liquidity risk management process is to manage cash flow and liquidity in an effort to provide continuous access to sufficient, reasonably priced funds. Funding requirements are impacted by loan originations and refinancings, deposit balance changes, liability issuances and settlements, and off-balance sheet funding commitments. We consider and comply with various regulatory guidelines regarding required liquidity levels and periodically monitor our liquidity position in light of the changing economic environment and customer activity. Based on periodic liquidity assessments, we may alter our asset, liability, and off-balance sheet positions. The ALCO monitors sources and uses of funds and modifies asset and liability positions as liquidity requirements change. This process, combined with our ability to raise funds in money and capital markets and through private placements, provides flexibility in managing the exposure to liquidity risk.

In an effort to satisfy our liquidity needs, we actively manage our assets and liabilities. We have access to immediate liquid resources in the form of cash which is primarily on deposit with the FRB. Potential sources of liquidity also include investment securities in our available-for-sale securities portfolio and our ability to sell loans in the secondary market. Our held-to-maturity securities, while not intended for sale, may also be utilized in repurchase agreements to obtain funding. Our core deposits have historically provided us with a long-term source of stable and relatively lower cost source of funding. Additional funding is available through the issuance of long-term debt or equity.

Maturities and payments on outstanding loans and investment securities also provide a steady flow of funds. Liquidity is further enhanced by our ability to pledge loans to access secured borrowings from the FHLB and FRB. As of September 30, 2021, we had additional borrowing capacity of \$2.9 billion from the FHLB and \$0.8 billion from the FRB based on the amount of collateral pledged.

We continued our focus on maintaining a strong liquidity position throughout the first nine months of 2021. As of September 30, 2021, cash and cash equivalents were \$0.7 billion, the carrying value of our available-for-sale investment securities was \$4.4 billion, and total deposits were \$20.5 billion as of September 30, 2021.

## **Capital Management**

We actively manage capital, commensurate with our risk profile, to enhance shareholder value. We also seek to maintain capital levels for the Company and the Bank at amounts in excess of the regulatory “well-capitalized” thresholds. Periodically, we may respond to market conditions by implementing changes to our overall balance sheet positioning to manage our capital position.

The Company and the Bank are each subject to regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements could cause certain mandatory and discretionary actions by regulators that, if undertaken, would likely have a material effect on our financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and the Bank must meet specific capital guidelines that involve quantitative and qualitative measures. These measures were established by regulation intended to ensure capital adequacy. As of September 30, 2021, the Company and the Bank were considered “well-capitalized” under this regulatory framework. The Company’s regulatory capital ratios are presented in Table 20 below. There have been no conditions or events since September 30, 2021, that management believes have changed either the Company’s or the Bank’s capital classifications.

As of September 30, 2021, shareholders’ equity was \$1.6 billion, an increase of \$222.6 million or 16% from December 31, 2020. For the first nine months of 2021, net income of \$189.5 million, net preferred stock issuance of \$175.5 million, common stock issuances of \$11.2 million, and share-based compensation of \$9.7 million were partially offset by other comprehensive loss of \$56.4 million, cash dividends paid of \$82.4 million on common shares, and common stock repurchased of \$23.4 million. In the first nine months of 2021, we repurchased 241,332 shares under our share repurchase program. These shares were repurchased at an average cost per share of \$82.89 and a total cost of \$20.0 million. From the beginning of our share repurchase program in July 2001 through September 30, 2021, we repurchased a total of 57.3 million shares of common stock and returned a total of \$2.3 billion to our shareholders at an average cost of \$40.69 per share.

Remaining buyback authority under our share repurchase program was \$93.1 million as of September 30, 2021. The actual amount and timing of future share repurchases, if any, will depend on market and economic conditions, regulatory rules, applicable SEC rules, and various other factors. In March 2020, we suspended share repurchases in light of the COVID-19 pandemic. We resumed our share repurchase program in July 2021.

In October 2021, the Parent’s Board of Directors declared a quarterly dividend payment of its Fixed Rate Non-Cumulative Perpetual Preferred Stock, Series A, of \$10.94 per share, equivalent to \$0.2735 per depository share. The dividend will be payable on November 1, 2021, to shareholders of record of the preferred stock at the close of business on October 18, 2021.

In October 2021, the Parent’s Board of Directors declared a quarterly cash dividend of \$0.70 per share on the Parent’s outstanding common shares. The dividend will be payable on December 14, 2021, to shareholders of record of the common stock at the close of business on November 30, 2021.

Table 20 presents our regulatory capital and ratios as of September 30, 2021, and December 31, 2020

### Regulatory Capital and Ratios

Table 20

(dollars in thousands)	September 30, 2021	December 31, 2020
<b>Regulatory Capital</b>		
Total Common Shareholders' Equity	\$ 1,421,623	\$ 1,374,507
Add: CECL Transitional Amount	12,101	23,750
Less: Goodwill, Net of Deferred Tax Liabilities	28,718	28,718
Postretirement Benefit Liability Adjustments	(41,925)	(43,250)
Net Unrealized Gains (Losses) on Investment Securities <sup>1</sup>	(6,642)	51,072
Other	(198)	(198)
Common Equity Tier 1 Capital	1,453,771	1,361,915
Preferred Stock, Net of Issuance Cost	175,486	—
Tier 1 Capital	1,629,257	1,361,915
Allowable Reserve for Credit Losses	151,322	141,869
<b>Total Regulatory Capital</b>	<b>\$ 1,780,579</b>	<b>\$ 1,503,784</b>
<b>Risk-Weighted Assets</b>	<b>\$ 12,093,010</b>	<b>\$ 11,295,077</b>
<b>Key Regulatory Capital Ratios</b>		
Common Equity Tier 1 Capital Ratio	12.02%	12.06%
Tier 1 Capital Ratio	13.47	12.06
Total Capital Ratio	14.72	13.31
Tier 1 Leverage Ratio	7.10	6.71

<sup>1</sup> Includes unrealized gains and losses related to the Company's reclassification of available-for-sale investment securities to the held-to-maturity category.

We have elected to apply the modified transition provision related to the impact of the CECL accounting standard on regulatory capital, as provided by the US banking agencies' March 2020 interim final rule that was finalized on September 30, 2020. Under the modified CECL transition provision, the regulatory capital impact of the Day 1 adjustment to the allowance for credit losses (after-tax), upon the January 1, 2020, CECL adoption date, has been deferred, and will phase in to regulatory capital at 25% per year commencing January 1, 2022. For the ongoing impact of CECL, we are allowed to defer the regulatory capital impact of the allowance for credit losses in an amount equal to 25% of the change in the allowance for credit losses (pre-tax) recognized through earnings for each period between January 1, 2020, and December 31, 2021. The cumulative adjustment to the allowance for credit losses between January 1, 2020, and December 31, 2021, will also phase in to regulatory capital at 25% per year commencing January 1, 2022.

### Regulatory Initiatives Affecting the Banking Industry

#### *U.S. Government Relief Programs in Response to COVID-19*

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was signed into law. The CARES Act established several new temporary U.S. Small Business Administration ("SBA") loan programs to assist U.S. small businesses through the COVID-19 pandemic. One of the new loan programs was the Paycheck Protection Program, an expansion of the SBA's 7(a) loan program and the Economic Injury Disaster Loan Program. The PPP provided loans to small businesses who were affected by economic conditions as a result of COVID-19 to provide cash-flow assistance to employers who maintain their payroll (including healthcare and certain related expenses), mortgage interest, rent, leases, utilities and interest on existing debt during this emergency. Eligible borrowers needed to make a good faith certification that the uncertainty of current economic conditions make requesting assistance necessary to support ongoing operations. Pursuant to the provisions of Section 1106 of the CARES Act, borrowers may apply to the Bank for loan forgiveness of all or a portion of the loan, subject to certain eligibility requirements and conditions. On December 27, 2020, the Consolidated Appropriations Act, 2021 ("CAA") was signed into law. The CAA provides several amendments to the PPP, including additional funding for first and second draws of PPP loans through March 31, 2021. On March 30, 2021, the PPP Extension Act of 2021 was signed into law, which extended the program to May 31, 2021. The Bank is an SBA lender and accepted applications under the CARES Act via its online application process from April 3, 2020, until May 31, 2021, when the PPP program ended. As of September 30, 2021, the Bank had 1,939 PPP loans totaling \$268.5 million net of deferred costs and fees.

On March 11, 2021, the American Rescue Plan Act of 2021 (“ARP”) was signed into law. Chief among the \$1.9 trillion stimulus act is additional support for individuals, including \$1,400 checks to many Americans, extended unemployment benefits, and expanded tax credits. In addition, ARP provides funding for state and local governments and support for businesses continuing to struggle as a result of the pandemic, including a modest increase to PPP, expanded eligibility to more non-profits, a grant program for restaurants that have suffered pandemic-related losses, and extended payroll support for the airline industry.

### **Operational Risk**

Operational risk represents the risk of loss resulting from our operations, including, but not limited to, the risk of fraud by employees or persons outside the Company, errors relating to transaction processing and technology, failure to adhere to compliance requirements, and the risk of cyber attacks. We are also exposed to operational risk through our outsourcing arrangements, and the effect that changes in circumstances or capabilities of our outsourcing vendors can have on our ability to continue to perform operational functions necessary to our business. The risk of loss also includes the potential legal actions that could arise as a result of an operational deficiency or as a result of noncompliance with applicable regulatory standards, adverse business decisions or their implementation, and customer attrition due to potential negative publicity. Operational risk is inherent in all business activities, and management of this risk is important to the achievement of Company goals and objectives.

Our Operating Risk Committee (the “ORC”) provides oversight and assesses the most significant operational risks facing the Company. We have developed a framework that provides for a centralized operating risk management function through the ORC, supplemented by business unit responsibility for managing operational risks specific to their business units. Our internal audit department also validates the system of internal controls through ongoing risk-based audit procedures and reports on the effectiveness of internal controls to executive management and the Audit and Risk Committee of the Board of Directors.

We continuously strive to strengthen our system of internal controls to improve the oversight of operational risk. While our internal controls have been designed to minimize operational risks, there is no assurance that business disruption or operational losses will not occur. On an ongoing basis, management reassesses operational risks, implements appropriate process changes, and invests in enhancements to our systems of internal controls.

### **Off-Balance Sheet Arrangements, Credit Commitments, and Contractual Obligations**

#### *Off-Balance Sheet Arrangements*

We hold interests in several unconsolidated VIEs. These unconsolidated VIEs are primarily low-income housing partnerships and solar energy partnerships. Variable interests are defined as contractual ownership or other interests in an entity that change with fluctuations in an entity’s net asset value. The primary beneficiary consolidates the VIE. We have determined that the Company is not the primary beneficiary of these entities. As a result, we do not consolidate these VIEs.

#### *Credit Commitments and Contractual Obligations*

Our credit commitments and contractual obligations have not changed materially since previously reported in our Annual Report on Form 10-K for the year ended December 31, 2020.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

See “Market Risk” of this Management’s Discussion and Analysis of Financial Condition and Results of Operations.

### **Item 4. Controls and Procedures**

#### *Disclosure Controls and Procedures*

The Company’s management, including the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the Company’s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of September 30, 2021. The Company’s disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the U.S. Securities and Exchange Commission’s rules and forms, and that such information is accumulated and communicated to the Company’s management, including the Company’s Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company’s disclosure controls and procedures were effective as of September 30, 2021.

#### *Changes in Internal Control over Financial Reporting*

There were no changes in the Company’s internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended September 30, 2021, that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

## **Part II - Other Information**

### **Item 1. Legal Proceedings**

Information regarding legal proceedings is incorporated by reference from “Contingencies” in Note 12 to our Consolidated Financial Statements (unaudited) set forth in Part I of this report.

#### **Item 1A. Risk Factors**

There are no material changes from the risk factors set forth under Part I, Item 1A. “Risk Factors” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2020, except as described below.

*Adverse changes in business and economic conditions, in particular those of Hawaii, Guam and other Pacific Islands, could lead to lower revenue, lower asset quality, and lower earnings.*

Our business and earnings are closely tied to the economies of Hawaii and the Pacific Islands. These local economies rely heavily on tourism, the U.S. military, real estate, construction, government, and other service-based industries. Lower visitor arrivals or spending, real or threatened acts of war or terrorism, public unrest, increases in energy costs, the availability of affordable air transportation, climate change, natural disasters and adverse weather, public health issues including Asian air pollution and the spread of the COVID-19 pandemic, and Federal, State of Hawaii and local government budget issues may impact consumer and corporate spending.

The impacts of various travel restrictions, stay-at-home orders and quarantine requirements for visitors to Hawaii has had a dramatic negative impact on tourism. These events have contributed to a significant deterioration in general economic conditions in our markets which has impacted and will continue to adversely impact us and our customers’ operations. Though there has been an increase in tourism recently, many of the impacts in Hawaii and the Pacific Islands still linger.

Recent deterioration of economic conditions, locally, nationally, and internationally could adversely affect the quality of our assets, credit losses, and the demand for our products and services, which could lead to lower revenues, higher expenses, and lower earnings. In response to this deterioration, several government stimulus programs were initiated, including the CARES Act and the PPP. The level of visitor arrivals and spending, housing prices, and unemployment rates are some of the metrics that we continually monitor. We also monitor the value of collateral, such as real estate, that secures the loans we have made. The borrowing power of our customers could also be negatively impacted by a decline in the value of collateral.

*The COVID-19 pandemic has disrupted the Hawaii economy and our business, and the extent and severity of the impact on our business and our financial results are highly uncertain and cannot be predicted.*

The COVID-19 pandemic has had and is expected to continue to have a material adverse effect on our operations and financial performance. The duration of the COVID-19 pandemic and its effects still cannot be determined with a reasonable level of certainty. We have experienced unprecedented levels of government stimulus in response to COVID-19 in the current economic cycle, the lasting impacts of which are unknown.

Novel viruses such as COVID-19 increase concerns related to illness when traveling and gathering in large numbers. In response, the majority of the nation’s state and local jurisdictions imposed stay-at-home and/or shelter-in-place orders, quarantines, executive orders or similar government orders and restrictions in order to control the spread of COVID-19.

The stay-at-home and safer-at-home orders, along with the mandatory 10-day self-quarantine travel restrictions, resulted in a dramatic decline in tourism in Hawaii. Though many of these restrictions are now being lifted or relaxed, tourism and tourism spending remained below pre-pandemic levels as various public events, attractions and venues were closed or cancelled. Recent limits on internal gatherings and vaccination requirements for restaurants has had an impact on the economy locally and many of our customers. We cannot predict when these closures and cancellations will diminish or when tourism and tourism spending levels in Hawaii will fully recover. This decline in tourism has, and is expected to continue to have, a negative impact to the Hawaii economy and our financial results.

Although some of the original restrictions have been relaxed, the mandatory self-quarantine travel restriction remains in place. Beginning October 15, 2020, arriving passengers and interisland travelers may avoid the self-quarantine requirements by providing proof of a recent negative test result for COVID-19 prior to boarding. Beginning July 8, 2021, passengers from the United States mainland may bypass testing or quarantine by proving proof of full vaccination (15 days following the final vaccination dose). While the relaxation in travel restrictions has resulted in an increase in visitor arrivals, the tourism industry in Hawaii is still below pre-pandemic levels. Additionally, current requirements are subject to change should the infection rates in Hawaii change, causing uncertainty and continuing to impact travel to Hawaii.

Even as more and more individuals become vaccinated, prior travel restrictions and mandatory quarantines related to the COVID-19 pandemic may have a lasting impact on tourism in Hawaii. Because many of our customers, both commercial and consumer, derive at least some of their income from tourism, this dramatic drop in tourism affects them directly, as well as the Hawaii economy as a whole. A downturn in the Hawaii economy and widespread impact to our customers' income have a negative impact on our operations. We are unable to predict the extent to which the pandemic and related impacts will continue to adversely affect our business, results of operations, financial condition, regulatory capital and liquidity ratios.

The COVID-19 pandemic, the institution of physical distancing, and shelter-in-place requirements resulted in both temporary and permanent closures of many businesses. As a result, the demand for our products and services has been and may continue to be significantly impacted. The COVID-19 pandemic could prompt credit losses in our loan portfolios and increase our allowance for credit losses, particularly as businesses remain closed and as more customers draw on lines of credit or seek additional loans to help finance their businesses. Our operations may also be disrupted if significant portions of our workforce are unable to work effectively, due to illness, quarantines, government actions, or other restrictions in connection with the COVID-19 pandemic. We temporarily or permanently closed certain of our branches and offices and many employees are still working remotely. Though we have re-opened some of our branches, others remain closed. It is anticipated that staffing levels at our headquarters will remain lower than pre-pandemic levels for some time.

In response to the COVID-19 pandemic, we temporarily suspended residential property foreclosure sales, evictions, and involuntary automobile repossessions. We offered other expanded assistance to customers such as fee waivers, payment deferrals or forbearances on automobile loans and leases, mortgages, home equity loans and lines, as well as commercial, small business and personal loans. Although our formal assistance programs have ended, we continue to work with our customers who are still being impacted by the COVID-19 pandemic. The extent to which the COVID-19 pandemic impacts our business, results of operations, financial condition, regulatory capital, and liquidity ratios, will depend on the scope and duration of the COVID-19 pandemic, actions taken by governmental authorities, the availability of federal, state, or local funding programs, actions taken by other third parties in response to the COVID-19 pandemic, and the pace of recovery when the COVID-19 pandemic subsides, all of which are highly uncertain.

*Climate change and the governmental responses to it could have a material adverse impact on the Bank and its customers*

The impacts of climate change, such as extreme weather conditions, natural disasters and rising sea levels, could impact the Bank's operations as well as those of its customers and third party vendors upon which it relies. Such events could also result in market volatility or negatively impact our customers' ability to pay outstanding loans, or result in the deterioration of the value of our collateral causing a material adverse effect on the Bank's financial condition and results of operation. Furthermore, increasing regulation related to climate change could have an adverse effect on the business and financial condition of the Bank and its customers, including our credit portfolio. Further legislation and regulatory requirements could increase the operating expenses of, or otherwise adversely impact, the Bank or its customers. To the extent that the Bank or its customers experience increases in costs, reductions in the value of assets, constraints on operations or similar concerns driven by changes in regulation relating to climate change, the Bank's business and results of operations may be adversely affected.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

The Parent’s repurchases of its common stock during the third quarter of 2021 were as follows:

**Issuer Purchases of Equity Securities**

<b>Period</b>	<b>Total Number of Shares Purchased <sup>1</sup></b>	<b>Average Price Paid Per Share</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</b>	<b>Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs <sup>2</sup></b>
July 1 - 31, 2021	1,288	\$ 84.61	22,500	\$ 111,171,297
August 1 - 31, 2021	—	84.68	130,500	100,120,594
September 1 - 30, 2021	—	79.82	88,332	93,069,913
<b>Total</b>	<b>1,288</b>	<b>\$ 82.90</b>	<b>241,332</b>	

<sup>1</sup> During the third quarter of 2021, 1,288 shares were acquired by the trustee of a trust established pursuant to the Bank of Hawaii Corporation Director Deferred Compensation Plan (the “DDCP”) directly from the Parent in satisfaction of the Company’s obligations to participants under the DDCP. The issuance of these shares was made in reliance upon the exemption from the registration requirements of the Securities Act of 1933, as amended (the “Securities Act”) by Section 4(a)(2) thereof. The trustee under the trust and the participants under the DDCP are “Accredited Investors”, as defined in Rule 501(a) under the Securities Act. These transactions did not involve a public offering and occurred without general solicitation or advertising. The shares were purchased at the closing price of the Parent’s common stock on the dates of purchase.

<sup>2</sup> The share repurchase program was first announced in July 2001. The program has no set expiration or termination date. The actual amount and timing of future share repurchases, if any, will depend on market and economic conditions, regulatory rules, applicable SEC rules, and various other factors. On March 17, 2020, we suspended share repurchases in light of the COVID-19 pandemic. We resumed our share repurchase program in July 2021.

## Item 6. Exhibits

A list of exhibits to this Form 10-Q is set forth on the Exhibit Index and is incorporated herein by reference.

**Certification of Chief Executive Officer Pursuant to  
Rule 13a-14(a) of the Securities Exchange Act of 1934, as Amended,  
Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, Peter S. Ho, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Bank of Hawaii Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit and risk committee of the registrant's board of directors:
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**Certification of Chief Financial Officer Pursuant to  
Rule 13a-14(a) of the Securities Exchange Act of 1934, as Amended,  
Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, Dean Y. Shigemura, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Bank of Hawaii Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit and risk committee of the registrant's board of directors:
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Dean Y. Shigemura

Chief Financial Officer

**Certification of Chief Executive Officer and Chief Financial Officer  
Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to  
Section 906 of the Sarbanes-Oxley Act of 2002**

We hereby certify pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that the Quarterly Report on Form 10-Q of Bank of Hawaii Corporation (the "Company") for the quarter ended September 30, 2021 (the "Report"):

- fully complies with the requirements of Section 13(a) or 15(d), as applicable, of the Securities Exchange Act of 1934, as amended; and
- the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
