Non-performing assets continue to remain above historical levels due to the lengthy judicial foreclosure process for residential mortgage loans. <sup>&</sup>lt;sup>2</sup> We consider all of our residential land loans, which are consumer loans secured by unimproved lots, to be of higher risk due to the volatility in the value of the underlying collateral.

<sup>&</sup>lt;sup>3</sup> Higher risk home equity loans are defined as those loans originated in 2005 or later, with current monitoring credit scores below 600, and with original loan-to-value ratios greater than 70%.

 $<sup>^4\,</sup>$  We consider all of our air transportation leases to be of higher risk due to the weak financial profile of the industry.
