Section 6.3 <u>Claims</u>. If a claim for indemnification or payment of expenses under this Article is not paid in full within sixth days after a written claim therefore has been received by the corporation, the claimant may file suit to recover the unpaid amount of such claim and, if successful in whole or in part, shall be entitled to be paid the expense of prosecuting such claim. In any such action the corporation shall have the burden of proving that the claimant was not entitled to the requested indemnification or payment of expenses under applicable law.

Net income in the fourth quarter of 2007 was \$40.9 million, down \$10.1 million or 19.7 percent from net income of \$50.9 million in the fourth quarter last year. Results for the fourth quarter of 2007 were significantly reduced by pretax charges of \$5.6 million, or \$0.07 per diluted share, which represent the Company's share of litigation liabilities, as a member bank of Visa U.S.A. Inc., related to antitrust lawsuits. Results for the fourth quarter of 2006 were increased by tax accrual adjustments of \$6.2 million, or \$0.12 per diluted share, for tax matters that were resolved during the quarter.

Diluted earnings per share for the full year of 2007 were \$3.69 up \$0.17 or 4.8 percent from diluted earnings per share of \$3.52 in 2006. Net income for the year was \$183.7 million, up \$3.3 million or 1.9 percent from net income of \$180.4 million in the previous year. The return on average assets in 2007 was 1.75 percent, down slightly from 1.76 percent in 2006. The return on average equity for the year was 25.15 percent, down from 25.90 percent in 2006.

"The Bank of Hawaii Corporation's financial performance for 2007 was solid," said Allan R. Landon, Chairman and CEO. "The Company achieved its primary performance objectives for 2007 in spite of the increased expenses recognized in the fourth quarter. Our discipline in the market has served us well. The Company's credit quality and balance sheet remain strong. The Hawaii economy appears stronger than other regions of the U. S. economy and, as we begin 2008, the Bank of Hawaii is well positioned to address the challenges ahead."

#### Bank of Hawaii Corporation 2007 Financial Results

#### **Financial Highlights**

Net interest income, on a taxable equivalent basis, for the fourth quarter of 2007 was \$99.7 million, down \$0.7 million from net interest income of \$100.4 million in the fourth quarter of 2006 and up \$0.9 million from net interest income of \$98.8 million in the third quarter of 2007. The increase in net interest income in the fourth quarter reflects an increase in net interest margin partially offset by lower levels of earning assets. Net interest income, on a taxable equivalent basis, for the full year of 2007 was \$395.9 million, down \$7.4 million from \$403.3 million in 2006 primarily due to increased funding costs and a change in the funding mix as some customers shifted deposit balances into higher yielding accounts. Analyses of changes in net interest income are included in Tables 6a, 6b and 6c.

The net interest margin was 4.12 percent for the fourth quarter of 2007, a 3 basis point decrease from 4.15 percent in the fourth quarter of 2006 and a 9 basis point increase from 4.03 percent in the third quarter of 2007. The net interest margin for the full year of 2007 was 4.08 percent, a 17 basis point decrease from 4.25 percent in 2006.

Results for the fourth quarter of 2007 included a provision for credit losses of \$5.4 million compared to \$3.1 million in the fourth quarter of 2006 and \$4.1 million in the third quarter of 2007. The provision for credit losses equaled net charge offs in the fourth quarter of 2007 and the prior comparable quarters. The provision for credit losses for the full year of 2007 was \$15.5 million compared to \$10.8 million in 2006. Increased provisions primarily relate to charge offs of automotive and unsecured consumer loans.

Noninterest income was \$60.3 million for the fourth quarter of 2007, an increase of \$6.7 million or 12.6 percent compared to noninterest income of \$53.5 million in the fourth quarter of 2006 and down \$1.0 million or 1.6 percent compared to noninterest income of \$61.2 million in the third quarter of 2007. The increase compared to the same quarter last year was the result of growth in nearly all categories of noninterest revenue. Fourth quarter 2007 revenue included a gain of \$3.1 million on the sale of unused real estate. The decrease compared to the previous quarter was largely due to a seasonal reduction in contingent insurance commissions of \$2.9 million and \$1.9 million due to rebalancing securities used to hedge the fair value of mortgage servicing rights. Noninterest income for the full year of 2007 was \$240.5 million, up \$24.3 million or 11.2 percent from noninterest income of \$216.2 million in 2006.

Noninterest expense was \$92.0 million in the fourth quarter of 2007, up \$10.4 million or 12.8 percent from noninterest expense of \$81.6 million in the same quarter last year and up \$10.6 million or 13.0 percent from \$81.5 million in the previous quarter. The increase in noninterest expense compared to the prior quarters was largely due to the previously mentioned Visa charges of \$5.6 million, \$1.7 million due to a fraud loss, \$600 thousand of professional fees, and an increase in personnel expense. An analysis of salary and benefit expenses is included in Table 7. Noninterest expense for the full year of 2007 was \$335.4 million, up \$14.4 million or 4.5 percent from noninterest expense of \$321.0 million in 2006.

The efficiency ratio for the fourth quarter of 2007 was 57.61 percent, up from 53.08 percent in the same quarter last year and from 50.97 percent in the previous quarter. The efficiency ratio for the full year of 2007 was 52.78 percent compared with 51.87 percent during the full year of 2006.

The effective tax rate for the fourth quarter of 2007 was 34.37 percent compared to 26.19 percent during the same quarter last year and 35.68 percent in the previous quarter. The lower rate in the fourth quarter of 2006 was primarily due to the previously discussed tax accrual adjustments. The effective tax rate for the full year of 2007 was 35.45 percent compared to 37.17 percent during 2006.

The Company's business segments are defined as Retail Banking, Commercial Banking, Investment Services, and Treasury. Results are determined based on the Company's internal financial management reporting process and organizational structure. Selected financial information for the business segments is included in Tables 11a and 11b.

#### Asset Quality

Credit quality remained strong and stable throughout 2007 reflecting disciplined commercial and retail underwriting and portfolio management and the stable economic environment in the market.

Non-accrual loans and leases were \$5.1 million at December 31, 2007, down from \$5.9 million at December 31, 2006 and up from \$4.2 million at September 30, 2007. As a percentage of total loans and leases, non-accrual loans remain at historic lows of 0.08 percent at December 31, 2007.

The quarterly increase of \$0.9 million in non-accrual loans was primarily in the home equity portfolio. The credit risk profile of the home equity portfolio is strong. The non-accrual home equity loans have a current weighted average loan-to-value ratio of 61 percent.

Net charge-offs during the fourth quarter of 2007 were \$5.4 million or 0.33 percent annualized of total average loans and leases compared to \$3.1 million in the fourth quarter last year and \$4.1 million in the third quarter. The increase in the fourth quarter reflects higher net losses in consumer installment and unsecured revolving credit products, consistent with seasonal trends and the continued inflationary pressures on consumer income.

Full year 2007 net charges-offs of \$15.5 million were 0.24 percent of total average loans and leases, and were comprised of gross charge-offs of \$24.9 million and partially offset by recoveries of \$9.4 million. Net charge-offs for the full year of 2006 were \$10.8 million, or 0.17 percent of total average loans and leases, and were comprised of gross charge-offs of \$20.7 million partially offset by recoveries of \$9.9 million.

The allowance for loan and lease losses was \$91.0 million at December 31, 2007, unchanged from December 31, 2006 and from September 30, 2007. The ratio of the allowance for loan and lease losses to total loans was 1.38 percent at December 31, 2007, up from 1.37 percent at December 31, 2006 and unchanged from September 30, 2007. The reserve for unfunded commitments at December 31, 2007 was \$5.2 million, unchanged from December 31, 2006 and from September 30, 2007. Details of charge-offs, recoveries and the components of the total reserve for credit losses are summarized in Table 10.

#### **Other Financial Highlights**

Total assets were \$10.47 billion at December 31, 2007, down \$99 million from \$10.57 billion at December 31, 2006 and down \$77 million from \$10.55 billion at September 30, 2007. Total loans and leases were \$6.58 billion at December 31, 2007, down \$42 million from \$6.60 billion at December 30, 2007. Average loans and leases were \$6.58 billion during the fourth quarter of 2007, up \$79 million from \$6.50 billion during the fourth quarter last year and up \$11 million from \$6.57 billion during the previous quarter.

Total commercial loans were \$2.38 billion at December 31, 2007, down \$84 million from \$2.46 billion at December 31, 2006 and down \$46 million from \$2.43 billion at September 30, 2007. The decreases were largely driven by the Company's decision to exit commercial credits and by several large commercial paydowns. During 2007, the Company exited a total of \$80.0 million in commercial credits, including \$20.0 million in construction loans. Total consumer loans were \$4.20 billion at December 31, 2007, up \$41 million from \$4.16 billion at December 31, 2006 and up \$27 million from \$4.17 billion at September 30, 2007. Loan and lease portfolio balances are summarized in Table 8.

Total deposits at December 31, 2007 were \$7.94 billion, down \$81 million from \$8.02 billion at December 31, 2006 and up \$67 million from \$7.88 billion at September 30, 2007. Average deposits were \$7.80 billion during the fourth quarter of 2007, up \$81 million from the fourth quarter last year and down \$213 million from \$8.02 billion during the previous quarter. The decrease in average deposits compared to the previous quarter was largely due to short-term commercial deposits received near the end of the second quarter that were largely withdrawn near the end of the third quarter.

During the fourth quarter of 2007, the Company repurchased 591.1 thousand shares of common stock at a total cost of \$30.0 million under its share repurchase program. The average cost was \$50.79 per share repurchased. From the beginning of the share repurchase program in July 2001 through December 31, 2007, the Company has repurchased 44.3 million shares and returned nearly \$1.6 billion to shareholders at an average cost of \$35.08 per share. From January 1, 2008 through January 25, 2008, the Company repurchased an additional 175.0 thousand shares of common stock at an average cost of \$46.64 per share. Remaining buyback authority under the share repurchase program was \$86.2 million at January 25, 2008.

At December 31, 2007, the Tier 1 leverage ratio was 7.04 percent compared to 7.06 percent at December 31, 2006 and 6.95 percent at September 30, 2007.

The Company's Board of Directors has declared a quarterly cash dividend of \$0.44 per share on the Company's outstanding shares. The dividend will be payable on March 14, 2008 to shareholders of record at the close of business on February 29, 2008.

The Company reaffirmed its 2007+ Plan, which emphasizes value-enhancing growth, integration of service delivery and business units, development of people, enhancement of the Bank of Hawaii brand, and discipline in managing risk and financial performance. Financial objectives include an annual return on assets above 1.7 percent, a return on equity above 25 percent, a 7 percent leverage ratio, positive operating leverage, and an efficiency ratio nearing 50 percent.
