**(Unaudited)**

**Note 1. Summary of Significant Accounting Policies***Basis of Presentation*

Bank of Hawaii Corporation (the “Parent”) is a Delaware corporation and a bank holding company headquartered in Honolulu, Hawaii. Bank of Hawaii Corporation and its subsidiaries (collectively, the “Company”) provide a broad range of financial products and services to customers in Hawaii, Guam, and other Pacific Islands. The majority of the Company’s operations consist of customary commercial and consumer banking services including, but not limited to, lending, leasing, deposit services, trust and investment activities, brokerage services, and trade financing. The accompanying consolidated financial statements include the accounts of the Parent and its subsidiaries. The Parent’s principal operating subsidiary is Bank of Hawaii (the “Bank”).

The consolidated financial statements in this report have not been audited by an independent registered public accounting firm, but, in the opinion of management, reflect all adjustments necessary for a fair presentation of the results for the interim periods. All such adjustments are of a normal recurring nature. Intercompany accounts and transactions have been eliminated in consolidation. Certain prior period information has been reclassified to conform to the current period presentation. Operating results for the interim periods disclosed herein are not necessarily indicative of the results that may be expected for the full fiscal year or for any future period.

The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and accompanying notes required by GAAP for complete financial statements and should be read in conjunction with the audited consolidated financial statements and related notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2021.

*Accounting Standard Pending Adoption*

In March 2022, the FASB issued ASU 2022-02, “Financial Instruments - Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures.” ASU 2022-02 eliminates the accounting guidance for troubled debt restructurings (“TDRs”), while enhancing disclosure requirements for certain loan refinancings and restructurings by creditors when a borrower is experiencing financial difficulty. ASU 2022-02 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2022. ASU 2022-02 is not expected to have a material impact on the Company’s consolidated financial statements.

**Note 2. Cash and Cash Equivalents**

The Company is normally required to maintain cash on hand or on deposit with the Board of Governors of the Federal Reserve System (“FRB”) based on the amount of certain customer deposits, mainly checking accounts, however, the FRB lowered the reserve requirement ratios on transaction accounts to zero percent effective March 25, 2020; therefore, there was no required reserve as of June 30, 2022.

The following table provides a reconciliation of cash and cash equivalents reported within the consolidated statement of condition:

(dollars in thousands)	<b>June 30, 2022</b>
Interest-Bearing Deposits in Other Banks	\$ 2,264
Funds Sold	576,430
Cash and Due From Banks	260,672
<b>Total Cash and Cash Equivalents</b>	<b>\$ 839,366</b>

**Note 3. Investment Securities**

The amortized cost, gross unrealized gains and losses, and fair value of the Company's investment securities as of June 30, 2022, and December 31, 2021, were as follows:

(dollars in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
<b>June 30, 2022</b>

The Company elected to exclude accrued interest receivable ("AIR") from the amortized cost basis of debt securities disclosed throughout this footnote. For available-for-sale ("AFS") debt securities, AIR totaled \$9.0 million and \$8.4 million as of June 30, 2022, and December 31, 2021, respectively. For held-to-maturity ("HTM") debt securities, AIR totaled \$7.5 million and \$8.2 million as of June 30, 2022, and December 31, 2021, respectively. AIR is included in the "accrued interest receivable" line item on the Company's consolidated statements of condition.

The table below presents an analysis of the contractual maturities of the Company's investment securities as of June 30, 2022. Debt securities issued by government agencies (Small Business Administration securities) and mortgage-backed securities are disclosed separately in the table below as these investment securities may prepay prior to their scheduled contractual maturity dates.

(dollars in thousands)	<b>Amortized Cost</b>		<b>Fair Value</b>
<b>Available-for-Sale:</b>			
Due in One Year or Less	\$	902	\$ 902

<b>Mortgage-Backed Securities:</b>			
Residential - Government Agencies		1,605,791	1,432,752
Residential - U.S. Government-Sponsored Enterprises		2,107,997	1,860,580
Commercial - Government Agencies or Sponsored Agencies		457,677	395,094
Total Mortgage-Backed Securities		4,171,465	3,688,426
<b>Total</b>	<b>\$</b>	<b>4,321,693</b>	<b>\$ 3,823,739</b>

Investment securities with carrying values of \$3.7 billion and \$2.9 billion as of June 30, 2022, and December 31, 2021, respectively, were pledged to secure deposits of governmental entities, securities sold under agreements to repurchase, and FRB discount window borrowing.

The table below presents the losses from the sales of investment securities for the three and six months ended June 30, 2022, and June 30, 2021:

(dollars in thousands)	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2022</b>	<b>2021</b>	<b>2022</b>	<b>2021</b>
Gross Gains on Sales of Investment Securities	\$ —	\$ 3,675	\$ —	\$ 3,675
Gross Losses on Sales of Investment Securities	(1,295)	(1,252)	(2,840)	(2,455)
Total Losses on Sales of Investment Securities	\$ (1,295)	\$ 2,423	\$ (2,840)	\$ 1,220

The losses on sales of investment securities during the three and six months ended June 30, 2022, and June 30, 2021, were due to fees paid to the counterparties of the Company's prior Visa Class B share sale transactions, which are expensed as incurred.

The following table summarizes the Company's AFS debt securities in an unrealized loss position for which an allowance for credit losses was not deemed necessary, aggregated by major security type and length of time in a continuous unrealized loss position:

(dollars in thousands)	Less Than 12 Months		12 Months or Longer		Total	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses

The Company does not believe that the AFS debt securities that were in an unrealized loss position as of June 30, 2022, which were comprised of 455 individual securities, represent a credit loss impairment. As of June 30, 2022, and December 31, 2021, the gross unrealized loss positions were primarily related to mortgage-backed securities issued by U.S. government agencies or U.S. government-sponsored enterprises. These securities carry the explicit and/or implicit guarantee of the U.S. government, are widely recognized as "risk free," and have a long history of zero credit loss. Total gross unrealized losses were primarily attributable to changes in interest rates, relative to when the investment securities were purchased, and not due to the credit quality of the investment securities. The Company does not intend to sell the investment securities that were in an unrealized loss position and it is not more likely than not that the Company will be required to sell the investment securities before recovery of their amortized cost basis, which may be at maturity.

Substantially all of the Company's HTM debt securities are issued by U.S. government agencies or U.S. government-sponsored enterprises. These securities carry the explicit and/or implicit guarantee of the U.S. government, are widely recognized as "risk free," and have a long history of zero credit loss. Therefore, an allowance for credit losses for these securities was not deemed necessary as of June 30, 2022.

Interest income from taxable and non-taxable investment securities for the three and six months ended June 30, 2022, and June 30, 2021, were as follows:

(dollars in thousands)	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2022	2021	2022	2021
Taxable	\$ 36,809	\$ 29,765	\$ 72,599	\$ 58,621
Non-Taxable	12	278	23	559
<b>Total Interest Income from Investment Securities</b>	<b>\$ 36,821</b>	<b>\$ 30,043</b>	<b>\$ 72,622</b>	<b>\$ 59,180</b>

As of June 30, 2022, and December 31, 2021, the carrying value of the Company's Federal Home Loan Bank of Des Moines stock and Federal Reserve Bank stock was as follows:

(dollars in thousands)		June 30, 2022	December 31, 2021
Federal Home Loan Bank of Des Moines Stock	\$	10,000	\$ 10,000
Federal Reserve Bank Stock		26,840	26,624
<b>Total</b>	<b>\$</b>	<b>36,840</b>	<b>\$ 36,624</b>

These securities can only be redeemed or sold at their par value and only to the respective issuing institution or to another member institution. The Company records these non-marketable equity securities as a component of other assets and periodically evaluates these securities for impairment. Management considers these non-marketable equity securities to be long-term investments. Accordingly, when evaluating these securities for impairment, management considers the ultimate recoverability of the par value rather than recognizing temporary declines in value.

#### Note 4. Loans and Leases and the Allowance for Credit Losses

##### Loans and Leases

The Company's loan and lease portfolio was comprised of the following as of June 30, 2022, and December 31, 2021:

(dollars in thousands)		June 30, 2022	December 31, 2021
<b>Commercial</b>			
Commercial and Industrial	\$	1,323,830	\$ 1,361,921
Paycheck Protection Program		31,964	126,779
Commercial Mortgage		3,464,126	3,152,130
Construction		246,177	220,254
Lease Financing		89,535	105,108
<b>Total Commercial</b>		<b>5,155,632</b>	<b>4,966,192</b>
<b>Consumer</b>			
Residential Mortgage		4,486,571	4,309,602
Home Equity		2,101,612	1,836,588
Automobile		775,065	736,565
Other <sup>1</sup>		432,693	410,129
<b>Total Consumer</b>		<b>7,795,941</b>	<b>7,292,884</b>
<b>Total Loans and Leases</b>	<b>\$</b>	<b>12,951,573</b>	<b>\$ 12,259,076</b>

<sup>1</sup> Comprised of other revolving credit, installment, and lease financing.

The majority of the Company's lending activity is with customers located in the State of Hawaii. A substantial portion of the Company's real estate loans are secured by real estate in Hawaii.

Net gains related to sales of residential mortgage loans, recorded as a component of mortgage banking income was \$0.2 million and \$2.6 million for the three months ended June 30, 2022, and June 30, 2021, respectively, and \$0.2 million and \$4.7 million for the six months ended June 30, 2022, and June 30, 2021, respectively.

The Company elected to exclude AIR from the amortized cost basis of loans disclosed throughout this footnote. As of June 30, 2022, and December 31, 2021, AIR for loans totaled \$30.7 million and \$28.7 million, respectively, and is included in the “accrued interest receivable” line item on the Company’s consolidated statements of condition.

#### Allowance for Credit Losses (the “Allowance”)

The following presents by portfolio segment, the activity in the Allowance for the three and six months ended June 30, 2022, and June 30, 2021.

(dollars in thousands)	Commercial		Consumer		Total
<b>Three Months Ended June 30, 2022</b>					
<b>Allowance for Credit Losses:</b>					
Balance at Beginning of Period	\$	62,093	\$	89,935	\$ 152,028
Loans and Leases Charged-Off		(233)		(3,113)	(3,346)
Recoveries on Loans and Leases Previously Charged-Off		51		2,664	2,715
Net Loans and Leases Recovered (Charged-Off)		(182)		(449)	(631)

Balance at End of Period	\$	78,639	\$	101,746	\$ 180,385

#### Credit Quality Indicators

The Company uses several credit quality indicators to manage credit risk in an ongoing manner. The Company uses an internal credit risk rating system that categorizes loans and leases into pass, special mention, or classified categories. Credit risk ratings are applied individually to those classes of loans and leases that have significant or unique credit characteristics that benefit from a case-by-case evaluation. These are typically loans and leases to businesses or individuals in the classes which comprise the commercial portfolio segment. Groups of loans and leases that are underwritten and structured using standardized criteria and characteristics (e.g., credit scoring or payment performance), are typically risk-rated and monitored collectively. These are typically loans and leases to individuals in the classes which comprise the consumer portfolio segment.

The following are the definitions of the Company's credit quality indicators:

- Pass: Loans and leases in all classes within the commercial and consumer portfolio segments that are not adversely rated, are contractually current as to principal and interest, and are otherwise in compliance with the contractual terms of the loan or lease agreement. Residential mortgage loans that are past due 90 days or more as to principal or interest may be considered Pass if the current loan-to-value ratio is 60% or less. Home equity loans that are past due 90 days or more as to principal or interest may be considered Pass if: a) the home equity loan is in a first lien position and the current loan-to-value ratio is 60% or less; or b) the first mortgage is with the Company and the current combined loan-to-value ratio is 60% or less.
- Special Mention: Loans and leases in all classes within the commercial portfolio segment that have potential weaknesses that deserve management's close attention. If not addressed, these potential weaknesses may result in deterioration of the repayment prospects for the loan or lease. The Special Mention credit quality indicator is not used for the consumer portfolio segment.
- Classified: Loans and leases in the classes within the commercial portfolio segment that are inadequately protected by the sound worth and paying capacity of the borrower or of the collateral pledged, if any. Classified loans and leases are also those in the classes within the consumer portfolio segment that are past due 90 days or more as to principal or interest. Residential mortgage and home equity loans that are past due 90 days or more as to principal or interest may be considered Pass based on the criteria described in the definition of Pass.

For Pass rated credits, risk ratings are certified at a minimum annually. For Special Mention or Classified credits, risk ratings are reviewed for appropriateness on an ongoing basis, monthly, or at a minimum, quarterly. The following presents by credit quality indicator, loan class, and year of origination, the amortized cost basis of the Company's loans and leases as of June 30, 2022.

Term Loans by Origination Year

<sup>1</sup> Certain prior period information has been reclassified to conform to current presentations.

<sup>2</sup> Comprised of other revolving credit, installment, and lease financing.

For the year ended December 31, 2021, \$4.1 million revolving loans were converted to term loans.

### Aging Analysis

Loans and leases are considered to be past due once becoming 30 days delinquent. For the consumer portfolio, this generally represents two missed monthly payments. The following presents by class, an aging analysis of the Company's loan and lease portfolio as of June 30, 2022, and December 31, 2021.

(dollars in thousands)	30 - 59 Days Past Due	60 - 89 Days Past Due	Past Due 90 Days or More	Non- Accrual	Total Past Due and Non- Accrual	Current	Total Loans and Leases	Non- Accrual Loans and Leases that are Current <sup>2</sup>

All payments received while on non-accrual status are applied against the principal balance of the loan or lease. The Company does not recognize interest income while loans or leases are on non-accrual status.

### Modifications

A modification of a loan constitutes a troubled debt restructuring (“TDR”) when the Company, for economic or legal reasons related to a borrower’s financial difficulties, grants a concession to the borrower that it would not otherwise consider. Loans modified in a TDR were \$50.3 million as of June 30, 2022, and \$70.0 million as of December 31, 2021. There were \$0.1 million and \$0.2 million commitments to lend additional funds on loans modified in a TDR as of June 30, 2022, and December 31, 2021, respectively.

Loans modified in a TDR may be on non-accrual status and partial charge-offs have in some cases already been taken against the outstanding loan balance. As a result, loans modified in a TDR may have the financial effect of reducing the specific Allowance associated with the loan because the potential loss has been recognized. An Allowance for impaired commercial and consumer loans that have been modified in a TDR is measured based on the present value of expected future cash flows discounted at the loan’s effective interest rate, the loan’s observable market price, or the estimated fair value of the collateral, less any selling costs, if the loan is collateral dependent. Management exercises significant judgment in developing these estimates.

The following presents by class, information related to loans modified in a TDR during the three and six months ended June 30, 2022, and June 30, 2021.

Troubled Debt Restructurings	Loans Modified as a TDR for the Three Months Ended June 30, 2022			Loans Modified as a TDR for the Three Months Ended June 30, 2021

<sup>1</sup> The period end balances reflect all paydowns and charge-offs since the modification date. TDRs fully paid-off, charged-off, or foreclosed upon by period end are not included.

<sup>2</sup> Comprised of other revolving credit and installment financing.

The following presents by class, all loans modified in a TDR that defaulted during the three and six months ended June 30, 2022, and June 30, 2021, and within twelve months of their modification date. A TDR is considered to be in default once it becomes 60 days or more past due following a modification.

TDRs that Defaulted During the Period, Within Twelve Months of their Modification Date (dollars in thousands)	Three Months Ended June 30, 2022		Three Months Ended June 30, 2021	
	Number of Contracts	Recorded Investment (as of period end) <sup>1</sup>	Number of Contracts	Recorded Investment (as of period end) <sup>1</sup>
<b>Consumer</b>				
Home Equity	—	\$ —	—	\$ —
Automobile	6	151	16	296
Other <sup>2</sup>	4	29	12	140
<b>Total Consumer</b>	10	180	28	436
<b>Total</b>	10	\$ 180	28	\$ 436

TDRs that Defaulted During the Period, Within Twelve Months of their Modification Date (dollars in thousands)	Six Months Ended June 30, 2022		Six Months Ended June 30, 2021	
	Number of Contracts	Recorded Investment (as of period end) <sup>1</sup>	Number of Contracts	Recorded Investment (as of period end) <sup>1</sup>
<b>Consumer</b>				
Residential Mortgage	1	\$ 180	1	\$ 534
Home Equity	1	80	—	—

Other <sup>2</sup>	14	104	23	216
<b>Total Consumer</b>	31	662	47	1,135
<b>Total</b>	31	\$ 662	47	\$ 1,135

<sup>1</sup> The period end balances reflect all paydowns and charge-offs since the modification date. TDRs fully paid-off, charged-off, or foreclosed upon by period end are not included.

<sup>2</sup> Comprised of other revolving credit and installment financing.

Commercial and consumer loans modified in a TDR are closely monitored for delinquency as an early indicator of possible future default. If loans modified in a TDR subsequently default, the Company evaluates the loan for possible further impairment. The specific Allowance associated with the loan may be changed by additional increases, adjustments, or partial charge-offs to further write-down the carrying value of the loan.

In accordance with Section 4013 of the CARES Act and the joint agency statement issued by banking agencies, certain qualified loan and lease modifications related to the COVID-19 pandemic are not accounted for as TDRs. These loan and lease modifications totaled \$32.4 million (4 loans) for the commercial segment as of June 30, 2022, and \$40.5 million (8 loans) for the commercial segment and \$3.1 million (11 loans) for the consumer segment as of December 31, 2021.

#### Foreclosure Proceedings

Consumer mortgage loans collateralized by residential real estate property that are in the process of foreclosure totaled \$4.6 million as of June 30, 2022.

#### Note 5. Mortgage Servicing Rights

The Company's portfolio of residential mortgage loans serviced for third parties was \$2.6 billion as of June 30, 2022, and \$2.7 billion as of December 31, 2021. Substantially all of these loans were originated by the Company and sold to third parties on a non-recourse basis with servicing rights retained. These retained servicing rights are recorded as a servicing asset and are initially recorded at fair value (see Note 13 *Fair Value of Assets and Liabilities* for more information). Changes to the balance of mortgage servicing rights are recorded in mortgage banking income in the Company's consolidated statements of income.

The Company's mortgage servicing activities include collecting principal, interest, and escrow payments from borrowers; making tax and insurance payments on behalf of borrowers; monitoring delinquencies and executing foreclosure proceedings; and accounting for and remitting principal and interest payments to investors. Servicing income, including late and ancillary fees, was \$1.5 million and \$1.6 million for the three months ended June 30, 2022, and June 30, 2021, respectively, and \$3.0 million and \$3.2 million for the six months ended June 30, 2022 and 2021, respectively. Servicing income is recorded in mortgage banking income in the Company's consolidated statements of income. The Company's residential mortgage investor loan servicing portfolio is primarily comprised of fixed rate loans concentrated in Hawaii.

For the three and six months ended June 30, 2022, and June 30, 2021, the change in the carrying value of the Company's mortgage servicing rights accounted for under the fair value measurement method was as follows:

(dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021
<b>Balance at Beginning of Period</b>	\$ 781	\$ 919	\$ 800	\$ 958
Change in Fair Value Due to Payoffs	(34)	(44)	(53)	(83)
<b>Balance at End of Period</b>	\$ 747	\$ 875	\$ 747	\$ 875

For the three and six months ended June 30, 2022 and 2021, the change in the carrying value of the Company's mortgage servicing rights accounted for under the amortization method was as follows:

(dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021
<b>Balance at Beginning of Period</b>	\$ 23,187	\$ 21,401	\$ 21,451	\$ 18,694
Servicing Rights that Resulted From Asset Transfers	205	1,260	956	2,940
Amortization	(599)	(996)	(1,443)	(2,159)
Valuation Allowance Recovery (Provision)	0	(1,067)	1,829	1,123
<b>Balance at End of Period</b>	\$ 22,793	\$ 20,598	\$ 22,793	\$ 20,598

#### Valuation Allowance:

<b>Balance at Beginning of Period</b>	\$ —	\$ (1,702)	\$ (1,829)	\$ (3,892)
Valuation Allowance Recovery (Provision)	—	(1,067)	1,829	1,123
<b>Balance at End of Period</b>	\$ —	\$ (2,769)	\$ —	\$ (2,769)

#### Fair Value of Mortgage Servicing Rights Accounted for Under the Amortization Method

Beginning of Period	\$ 26,088	\$ 21,401	\$ 21,451	\$ 18,694
End of Period	\$ 28,314	\$ 20,598	\$ 28,314	\$ 20,598

The key data and assumptions used in estimating the fair value of the Company’s mortgage servicing rights as of June 30, 2022, and December 31, 2021, were as follows:

	June 30, 2022	December 31, 2021
Weighted-Average Constant Prepayment Rate <sup>1</sup>	4.46%	10.70%
Weighted-Average Life (in years)	9.43	6.18
Weighted-Average Note Rate	3.58%	3.62%
Weighted-Average Discount Rate <sup>2</sup>	9.48%	7.04%

<sup>1</sup> Represents annualized loan prepayment rate assumption.

<sup>2</sup> Derived from multiple interest rate scenarios that incorporate a spread to a market yield curve and market volatilities.

A sensitivity analysis of the Company’s fair value of mortgage servicing rights to changes in certain key assumptions as of June 30, 2022, and December 31, 2021, is presented in the following table.

(dollars in thousands)	June 30, 2022	December 31, 2021
<b>Constant Prepayment Rate</b>		
Decrease in fair value from 25 basis points (“bps”) adverse change	\$ (366)	\$ (252)
Decrease in fair value from 50 bps adverse change	(725)	(498)
<b>Discount Rate</b>		
Decrease in fair value from 25 bps adverse change	(334)	(223)
Decrease in fair value from 50 bps adverse change	(661)	(441)

This analysis generally cannot be extrapolated because the relationship of a change in one key assumption to the change in the fair value of the Company’s mortgage servicing rights usually is not linear. Also, the effect of changing one key assumption without changing other assumptions is not realistic.

#### **Note 6. Affordable Housing Projects Tax Credit Partnerships**

The Company makes equity investments in various limited partnerships or limited liability companies that sponsor affordable housing projects utilizing the Low Income Housing Tax Credit (“LIHTC”) pursuant to Section 42 of the Internal Revenue Code. The purpose of these investments is to achieve a satisfactory return on capital, to facilitate the sale of affordable housing product offerings, and to assist in achieving goals associated with the Community Reinvestment Act. The primary activities of these entities include the identification, development, and operation of multi-family housing that is leased to qualifying residential tenants. Generally, these types of investments are funded through a combination of debt and equity.

The Company is a limited partner or non-managing member in each LIHTC limited partnership or limited liability company, respectively. Each of these entities is managed by an unrelated third-party general partner or managing member who exercises significant control over the affairs of the entity. The general partner or managing member has all the rights, powers and authority granted or permitted to be granted to a general partner of a limited partnership or managing member of a limited liability company. Duties entrusted to the general partner or managing member include, but are not limited to: investment in operating companies, company expenditures, investment of excess funds, borrowing funds, employment of agents, disposition of fund property, prepayment and refinancing of liabilities, votes and consents, contract authority, disbursement of funds, accounting methods, tax elections, bank accounts, insurance, litigation, cash reserve, and use of working capital reserve funds. Except for limited rights granted to the limited partner(s) or non-managing member(s) relating to the approval of certain transactions, the limited partner(s) and non-managing member(s) may not participate in the operation, management, or control of the entity’s business, transact any business in the entity’s name or have any power to sign documents for or otherwise bind the entity. In addition, the general partner or managing member may only be removed by the limited partner(s) or managing member(s) in the event of a failure to comply with the terms of the agreement or negligence in performing its duties.

The general partner or managing member of each entity has both the power to direct the activities which most significantly affect the performance of each entity and the obligation to absorb losses or the right to receive benefits that could be significant to the entities. Therefore, the Company has determined that it is not the primary beneficiary of any LIHTC entity. The Company uses the effective yield method to account for its pre-2015 investments in these entities. Beginning January 1, 2015, any new investments that meet the requirements of the proportional amortization method are recognized using the proportional amortization method. The Company's net affordable housing tax credit investments and related unfunded commitments were \$125.5 million and \$134.7 million as of June 30, 2022, and December 31, 2021, respectively, and are included in other assets in the consolidated statements of condition.

#### Unfunded Commitments

As of June 30, 2022, the expected payments for unfunded affordable housing commitments were as follows:

(dollars in thousands)	<b>Amount</b>
2022	\$ 5,074
2023	811
2024	21,432
2025	756
2026	81
Thereafter	13,332
<b>Total Unfunded Commitments</b>	<b>\$ 41,486</b>

The following table presents tax credits and other tax benefits recognized and amortization expense related to affordable housing for the three and six months ended June 30, 2022, and June 30, 2021.

(dollars in thousands)	<b>Three Months Ended</b>		<b>Six Months Ended</b>	
	<b>June 30,</b>		<b>June 30,</b>	
	<b>2022</b>	<b>2021</b>	<b>2022</b>	<b>2021</b>
<b>Effective Yield Method</b>				
Tax credits and other tax benefits recognized	\$ 1,528	\$ 2,151	\$ 3,066	\$ 4,302
Amortization Expense in Provision for Income Taxes	1,296	1,670	2,593	3,362
<b>Proportional Amortization Method</b>				
Tax credits and other tax benefits recognized	\$ 3,794	\$ 2,879	\$ 7,579	\$ 5,470
Amortization Expense in Provision for Income Taxes	3,265	2,385	6,529	4,711

There were no impairment losses related to LIHTC investments during the six months ended June 30, 2022, and June 30, 2021.

#### Note 7. Securities Sold Under Agreements to Repurchase

The following table presents the remaining contractual maturities of the Company's repurchase agreements as of June 30, 2022, and December 31, 2021, disaggregated by the class of collateral pledged.

(dollars in thousands)	<b>Remaining Contractual Maturity of Repurchase Agreements</b>				
	<b>Up to</b>	<b>91-365</b>	<b>1-3 Years</b>	<b>After</b>	<b>Total</b>
	<b>90 days</b>	<b>days</b>		<b>3 Years</b>	
<b>June 30, 2022</b>					
<b>Class of Collateral Pledged:</b>					
Debt Securities Issued by States and Political Subdivisions	\$ —	\$ —	\$ 490	\$ —	\$ 490
Mortgage-Backed Securities:					
Residential - Government Agencies	—	—	30,277	1,507	31,784
Residential - U.S. Government-Sponsored Enterprises	—	—	244,723	148,493	393,216
<b>Total</b>	<b>\$ —</b>	<b>\$ —</b>	<b>\$ 275,490</b>	<b>\$ 150,000</b>	<b>\$ 425,490</b>
<b>December 31, 2021</b>					
<b>Class of Collateral Pledged:</b>

Residential - U.S. Government-Sponsored Enterprises	—	—	236,315	161,593	397,908
<b>Total</b>	<b>\$ —</b>	<b>\$ —</b>	<b>\$ 275,000</b>	<b>\$ 175,490</b>	<b>\$ 450,490</b>

The following table presents the assets and liabilities subject to an enforceable master netting arrangement, or repurchase agreements as of June 30, 2022, and December 31, 2021. The swap agreements the Company has with our commercial banking customers are not subject to an enforceable master netting arrangement, and therefore, are excluded from this table. Centrally cleared swap agreements between the Company and institutional counterparties are also excluded from this table. See Note 11 *Derivative Financial Instruments* for more information on swap agreements.

	(i)	(ii)	(iii) = (i)-(ii)	(iv)		(v) = (iii)-(iv)
				Gross Amounts Not Offset in the Statements of Condition		
	Gross Amounts Recognized in the Statements of Condition	Gross Amounts Offset in the Statements of Condition	Net Amounts Presented in the Statements of Condition	Netting Adjustments per Master Netting Arrangements	Fair Value of Collateral Pledged/ Received <sup>1</sup>	Net Amount
<b>June 30, 2022</b>						
<b>Assets:</b>						
Interest Rate Swap Agreements:						
Institutional Counterparties	\$ 17,570	\$ —	\$ 17,570	\$ 17,570	\$ —	\$ —
<b>Liabilities:</b>						
Interest Rate Swap Agreements:						
Institutional Counterparties	\$ 3,717	\$ —	\$ 3,717	\$ 3,717	\$ —	\$ —
Repurchase Agreements:						
Private Institutions	425,000	—	425,000	—	425,000	—
Government Entities	490	—	490	—	490	—
	\$ 425,490	\$ —	\$ 425,490	\$ —	\$ 425,490	\$ —
<b>December 31, 2021</b>						
<b>Assets:</b>						
Interest Rate Swap Agreements:						
Institutional Counterparties	\$ 26	\$ —	\$ 26	\$ 26	\$ —	\$ —
<b>Liabilities:</b>						
Interest Rate Swap Agreements:						
Institutional Counterparties	5,948	—	5,948	26	5,922	—
Repurchase Agreements:						
Private Institutions	450,000	—	450,000	—	450,000	—
Government Entities	490	—	490	—	490	—
	\$ 450,490	\$ —	\$ 450,490	\$ —	\$ 450,490	\$ —

<sup>1</sup> The application of collateral cannot reduce the net amount below zero. Therefore, excess collateral is not reflected in this table. For interest rate swap agreements, the fair value of investment securities pledged was \$45.1 million and \$58.3 million as of June 30, 2022, and December 31, 2021, respectively. For repurchase agreements with private institutions, the fair value of investment securities pledged was \$439.5 million and \$523.4 million as of June 30, 2022, and December 31, 2021, respectively. For repurchase agreements with government entities, the fair value of investment securities pledged was \$1.0 million and \$1.3 million as of June 30, 2022, and December 31, 2021, respectively.

**Note 8. Accumulated Other Comprehensive Income (Loss)**

The following table presents the components of other comprehensive income (loss) for the three and six months ended June 30, 2022, and June 30, 2021:

(dollars in thousands)	Before Tax	Tax Effect	Net of Tax
<b>Three Months Ended June 30, 2022</b>			
Net Unrealized Gains (Losses) on Investment Securities:			
Net Unrealized Gains (Losses) Arising During the Period	\$ (166,878)	\$ (44,233)	\$ (122,645)
Amounts Reclassified from Accumulated Other Comprehensive Income (Loss) that (Increase) Decrease Net Income:			
Amortization of Unrealized Holding (Gains) Losses on Held-to-Maturity Securities <sup>1</sup>	(3)	(1)	(2)
Net Unrealized Gains (Losses) on Investment Securities	(166,881)	(44,234)	(122,647)

Amortization of Unrealized Holding (Gains) Losses on Held-to-Maturity Securities <sup>1</sup>	63	16	47
Net Unrealized Gains (Losses) on Investment Securities	(411,963)	(109,192)	(302,771)
Defined Benefit Plans:			
Amortization of Net Actuarial Losses (Gains)	1,084	288	796
Amortization of Prior Service Credit	(123)	(32)	(91)
Defined Benefit Plans, Net	961	256	705
<b>Other Comprehensive Income (Loss)</b>	<b>\$ (411,002)</b>	<b>\$ (108,936)</b>	<b>\$ (302,066)</b>
<b>Six Months Ended June 30, 2021</b>			
Net Unrealized Gains (Losses) on Investment Securities:			
Net Unrealized Gains (Losses) Arising During the Period	\$ (65,097)	\$ (17,235)	\$ (47,862)
Amounts Reclassified from Accumulated Other Comprehensive Income (Loss) that (Increase) Decrease Net Income:			
(Gain) Loss on Sale	(3,675)	(992)	(2,683)
Amortization of Unrealized Holding (Gains) Losses on Held-to-Maturity Securities <sup>1</sup>	506	134	372
Net Unrealized Gains (Losses) on Investment Securities	(68,266)	(18,093)	(50,173)
Defined Benefit Plans:			
Amortization of Net Actuarial Losses (Gains)	1,323	350	973
Amortization of Prior Service Credit	(123)	(33)	(90)
Defined Benefit Plans, Net	1,200	317	883
<b>Other Comprehensive Income (Loss)</b>	<b>\$ (67,066)</b>	<b>\$ (17,776)</b>	<b>\$ (49,290)</b>

<sup>1</sup> The amount relates to the amortization/accretion of unrealized net gains and losses related to the Company's reclassification of available-for-sale investment securities to the held-to-maturity category. The unrealized net gains/losses will be amortized/accreted over the remaining life of the investment securities as an adjustment of yield.

The following table presents the changes in each component of accumulated other comprehensive income (loss), net of tax, for the three and six months ended June 30, 2022, and June 30, 2021:

(dollars in thousands)	Investment Securities- Available- for-Sale	Investment Securities- Held-to- Maturity	Defined Benefit Plans	Accumulated Other Comprehensive Income (Loss)

<b>Total Reclassifications for the Period</b>	<b>\$ (752)</b>	<b>\$ 1,428</b>	Net of Tax

<sup>1</sup> Amounts in parentheses indicate reductions to net income.

<sup>2</sup> These accumulated other comprehensive income (loss) components are included in the computation of net periodic benefit cost and are included in Other Noninterest Expense on the consolidated statements of income.

## Note 9. Earnings Per Common Share

Earnings per common share is computed using the two-class method. The following is a reconciliation of the weighted average number of common shares used in the calculation of basic and diluted earnings per common share and antidilutive stock options and restricted stock outstanding for the three and six months ended June 30, 2022, and June 30, 2021:

(dollars in thousands, except shares and per share amounts)	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021
<b>Numerator:</b>				
Net Income Available to Common Shareholders	\$ 54,893	\$ 67,533	\$ 107,758	\$ 127,482
<b>Denominator:</b>				
Weighted Average Common Shares Outstanding - Basic	39,693,593	39,902,583	39,722,985	39,865,268
Dilutive Effect of Equity Based Awards	149,015	220,322	173,715	231,259
Weighted Average Common Shares Outstanding - Diluted	39,842,608	40,122,905	39,896,700	40,096,527
<b>Earnings Per Common Share:</b>				
Basic	\$ 1.38	\$ 1.69	\$ 2.71	\$ 3.20
Diluted	\$ 1.38	\$ 1.68	\$ 2.70	\$ 3.18
Antidilutive Stock Options and Restricted Stock Outstanding	201,422	45,909	160,670	95,389

## Note 10. Business Segments

The Company's business segments are defined as Consumer Banking, Commercial Banking, and Treasury and Other. The Company's internal management accounting process measures the performance of these business segments. This process, which is not necessarily comparable with the process used by any other financial institution, uses various techniques to assign balance sheet and income statement amounts to the business segments, including allocations of income, expense, the provision for credit losses, and capital. This process is dynamic and requires certain allocations based on judgment and other subjective factors. Unlike financial accounting, there is no comprehensive authoritative guidance for management accounting that is equivalent to GAAP. Previously reported results have been reclassified to conform to the current reporting structure.

The net interest income of the business segments reflects the results of a funds transfer pricing process that matches assets and liabilities with similar interest rate sensitivity and maturity characteristics and reflects the allocation of net interest income related to the Company's overall asset and liability management activities on a proportionate basis. The basis for the allocation of net interest income is a function of the Company's assumptions that are subject to change based on changes in current interest rates and market conditions. Funds transfer pricing also serves to transfer interest rate risk to Treasury. However, the other business segments have some latitude to retain certain interest rate exposures related to customer pricing decisions within guidelines.

The provision for credit losses for the Consumer Banking and Commercial Banking business segments reflects the actual net charge-offs of those business segments. The amount of the consolidated provision for loan and lease losses is based on the methodology that we use to estimate our consolidated Allowance. The residual provision for credit losses to arrive at the consolidated provision for credit losses is included in Treasury and Other.

Noninterest income and expense includes allocations from support units to business units. These allocations are based on actual usage where practicably calculated or by management's estimate of such usage.

The provision for income taxes is allocated to business segments using a 26% effective income tax rate. However, the provision for income taxes for our Leasing business unit (included in the Commercial Banking segment) and Auto Leasing portfolio and Pacific Century Life Insurance business unit (both included in the Consumer Banking segment) are assigned their actual effective income tax rates due to the unique relationship that income taxes have with their products. The residual income tax expense or benefit to arrive at the consolidated effective tax rate is included in Treasury and Other.

### *Consumer Banking*

Consumer Banking offers a broad range of financial products and services, including loan, deposit and insurance products; private banking and international client banking services; trust services; investment management; and institutional investment advisory services. Consumer Banking also provides a full service brokerage offering equities, mutual funds, life insurance, and annuity products. Loan and lease products include residential mortgage loans, home equity lines of credit, automobile loans and leases, personal lines of credit, installment loans, small business loans and leases, and credit cards. Deposit products include checking, savings, and time deposit accounts. Private banking and personal trust groups assist individuals and families in building and preserving their wealth by providing investment, credit, and trust services to high-net-worth individuals. The investment management group manages portfolios utilizing a variety of investment products. Also within Consumer Banking, institutional client services offer investment advice to corporations, government entities, and foundations. Products and services from Consumer Banking are delivered to customers through 54 branch locations and 310 ATMs throughout Hawaii and the Pacific Islands, e-Bankoh (on-line banking service), a customer service center, and a mobile banking service.

### *Commercial Banking*

Commercial Banking offers products including corporate banking, commercial real estate loans, commercial lease financing, auto dealer financing, and deposit products. Commercial lending and deposit products are offered to middle-market and large companies in Hawaii and the Pacific Islands. In addition, Commercial Banking offers deposit products to government entities in Hawaii. Commercial real estate mortgages focus on customers that include investors, developers, and builders predominantly domiciled in Hawaii. Commercial Banking also includes international banking and provides merchant services to its customers.

### *Treasury and Other*

Treasury consists of corporate asset and liability management activities, including interest rate risk management and a foreign currency exchange business. This segment's assets and liabilities (and related interest income and expense) consist of interest-bearing deposits, investment securities, federal funds sold and purchased, and short and long-term borrowings. The primary sources of noninterest income are from bank-owned life insurance, net gains from the sale of investment securities, and foreign exchange income related to customer-driven currency requests from merchants and island visitors. The net residual effect of the transfer pricing of assets and liabilities is included in Treasury, along with the elimination of intercompany transactions.

Other organizational units (Technology, Operations, Marketing, Customer Experience, Human Resources, Finance, Credit and Risk Management, and Corporate and Regulatory Administration) provide a wide-range of support to the Company's other income earning segments. Expenses incurred by these support units are charged to the business segments through an internal cost allocation process.

Selected business segment financial information as of and for the three and six months ended June 30, 2022, and June 30, 2021, were as follows:

(dollars in thousands)	Consumer Banking	Commercial Banking	Treasury and Other	Consolidated Total
<b>Three Months Ended June 30, 2022</b>				
Net Interest Income	\$ 75,868	\$ 49,562	\$ 7,472	\$ 132,902

**Note 11. Derivative Financial Instruments**

The notional amount and fair value of the Company's derivative financial instruments as of June 30, 2022, and December 31, 2021, were as follows:

	June 30, 2022		December 31, 2021	
	Notional Amount	Fair Value	Notional Amount	Fair Value
(dollars in thousands)				
Interest Rate Lock Commitments	\$ 10,914	\$ 243	\$ 45,857	\$ 1,084
Forward Commitments	12,423	(55)	58,523	(35)
Interest Rate Swap Agreements				
Receive Fixed/Pay Variable Swaps	1,548,424	(97,045)	1,400,322	28,742
Pay Fixed/Receive Variable Swaps	1,548,424	13,853	1,400,322	(5,922)
Foreign Exchange Contracts	91,516	(2,164)	102,548	(674)
Conversion Rate Swap Agreement	118,728	—	131,672	—

The following table presents the Company's derivative financial instruments, their fair values, and their location in the consolidated statements of condition as of June 30, 2022, and December 31, 2021:

Derivative Financial Instruments Not Designated as Hedging Instruments <sup>1</sup>	June 30, 2022		December 31, 2021	
	Asset Derivatives	Liability Derivatives	Asset Derivatives	Liability Derivatives
(dollars in thousands)				
Interest Rate Lock Commitments	\$ 245	\$ 2	\$ 1,084	\$ —
Forward Commitments	13	68	17	52
Interest Rate Swap Agreements	22,174	105,365	40,733	17,913
Foreign Exchange Contracts	62	2,226	177	851
<b>Total</b>	<b>\$ 22,494</b>	<b>\$ 107,661</b>	<b>\$ 42,011</b>	<b>\$ 18,816</b>

<sup>1</sup> Asset derivatives are included in other assets and liability derivatives are included in other liabilities in the consolidated statements of condition. The Company's free-standing derivative financial instruments are required to be carried at their fair value on the Company's consolidated statements of condition.

The following table presents the Company's derivative financial instruments and the amount and location of the net gains or losses recognized in the consolidated statements of income for the three and six months ended June 30, 2022, and June 30, 2021:

Derivative Financial Instruments Not Designated as Hedging Instruments	Location of Net Gains (Losses) Recognized in the Statements of Income	Three Months Ended June 30,		Six Months Ended June 30,	
		2022	2021	2022	2021
(dollars in thousands)					
Interest Rate Lock Commitments	Mortgage Banking	\$ 66	\$ 4,071	\$ (1,013)	\$ 4,844
Forward Commitments	Mortgage Banking	314	(1,576)	2,221	1,651
Interest Rate Swap Agreements	Other Noninterest Income	2,017	1,097	6,099	2,701
Foreign Exchange Contracts	Other Noninterest Income	232	448	506	719
<b>Total</b>		<b>\$ 2,629</b>	<b>\$ 4,040</b>	<b>\$ 7,813</b>	<b>\$ 9,915</b>

As of June 30, 2022, and December 31, 2021, the Company did not designate any derivative financial instruments as formal hedging relationships.

*Interest Rate Swap Agreements*

The Company enters into interest rate swap agreements to facilitate the risk management strategies of a small number of commercial banking customers. The Company mitigates the risk of entering into these agreements by entering into equal and offsetting interest rate swap agreements with highly rated third party financial institutions. The interest rate swap agreements are free-standing derivatives and are recorded at fair value in the Company's consolidated statements of condition (asset positions are included in other assets and liability positions are included in other liabilities). The Company is party to master netting arrangements with its financial institution counterparties; however, the Company does not offset assets and liabilities under these arrangements for financial statement presentation purposes. The master netting arrangements provide for a single net settlement of all swap agreements, as well as collateral, in the event of default on, or termination of, any one contract. Collateral, usually in the form of cash or marketable securities, is posted by the party (i.e., the Company or the financial institution counterparty) with net liability positions in accordance with contract thresholds. The Company had net asset positions with its financial institution counterparties totaling \$13.0 million and net liability positions with its financial institution counterparties \$5.9 million as of June 30, 2022, and December 31, 2021, respectively.

Parties to over-the-counter derivatives which are centrally cleared through a clearinghouse exchange daily payments that reflect the daily change in value of the derivatives. Effective 2017, these payments, commonly referred to as variation margin, are recorded as settlements of the derivatives' mark-to-market exposure rather than collateral against the exposures. This rule change effectively results in all centrally cleared derivatives having a fair value that approximates zero on a daily basis. Substantially all of our swap agreements originated after the rule change are centrally cleared.

*Conversion Rate Swap Agreements*

As certain sales of Visa Class B restricted shares were completed, the Company entered into a conversion rate swap agreement with the buyer that requires payment to the buyer in the event Visa further reduces the conversion ratio of Class B into Class A unrestricted common shares. In the event of Visa increasing the conversion ratio, the buyer would be required to make payment to the Company. As of June 30, 2022, and December 31, 2021, the conversion rate swap agreement was valued at zero (i.e., no contingent liability recorded) as further reductions to the conversion ratio were deemed neither probable nor reasonably estimable by management.

**Note 12. Commitments, Contingencies, and Guarantees**

The Company's credit commitments as of June 30, 2022, and December 31, 2021, were as follows:

(dollars in thousands)	June 30, 2022	December 31, 2021
Unfunded Commitments to Extend Credit	\$ 3,291,932	\$ 2,982,673
Standby Letters of Credit	135,765	135,167
Commercial Letters of Credit	17,536	18,956
<b>Total Credit Commitments</b>	<b>\$ 3,445,233</b>	<b>\$ 3,136,796</b>

*Unfunded Commitments to Extend Credit*

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of the terms or conditions established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since commitments may expire without being drawn, the total commitment amount does not necessarily represent future cash requirements.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third-party. Standby letters of credit generally become payable upon the failure of the customer to perform according to the terms of the underlying contract with the third-party, while commercial letters of credit are issued specifically to facilitate commerce and typically result in the commitment being drawn on when the underlying transaction is consummated between the customer and a third party. The contractual amount of these letters of credit represents the maximum potential future payments guaranteed by the Company. The Company has recourse against the customer for any amount it is required to pay to a third-party under a standby letter of credit, and generally holds cash or deposits as collateral on those standby letters of credit for which collateral is deemed necessary.

#### *Contingencies*

The Company is subject to various pending and threatened legal proceedings arising out of the normal course of business or operations. On at least a quarterly basis, the Company assesses its liabilities and contingencies in connection with outstanding legal proceedings using the most recent information available. On a case-by-case basis, reserves are established for those legal claims for which it is probable that a loss will be incurred and the amount of such loss can be reasonably estimated. Based on information currently available, management believes that the eventual outcome of these claims against the Company will not be materially in excess of such amounts reserved by the Company. However, in the event of unexpected future developments, it is possible that the ultimate resolution of these matters may result in a loss that materially exceeds the reserves established by the Company.

#### **Note 13. Fair Value of Assets and Liabilities**

##### *Fair Value Hierarchy*

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for an asset or liability in an orderly transaction between market participants at the measurement date. GAAP established a fair value hierarchy that prioritizes the use of inputs used in valuation methodologies into the following three levels:

- Level 1: Inputs to the valuation methodology are quoted prices, unadjusted, for identical assets or liabilities in active markets. A quoted price in an active market provides the most reliable evidence of fair value and is used to measure fair value whenever available. A contractually binding sales price also provides reliable evidence of fair value.
  
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; inputs to the valuation methodology include quoted prices for identical or similar assets or liabilities in markets that are not active; or inputs to the valuation methodology that utilize model-based techniques for which all significant assumptions are observable in the market.
  
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement; inputs to the valuation methodology that utilize model-based techniques for which significant assumptions are not observable in the market; or inputs to the valuation methodology that require significant management judgment or estimation, some of which may be internally developed.

In some instances, an instrument may fall into multiple levels of the fair value hierarchy. In such instances, the instrument's level within the fair value hierarchy is based on the lowest of the three levels (with Level 3 being the lowest) that is significant to the fair value measurement. Our assessment of the significance of an input requires judgment and considers factors specific to the instrument.

## ***Assets and Liabilities Measured at Fair Value on a Recurring Basis***

### ***Investment Securities Available-for-Sale***

Level 1 investment securities are comprised of debt securities issued by the U.S. Treasury, as quoted prices were available, unadjusted, for identical securities in active markets. Level 2 investment securities were primarily comprised of debt securities issued by the Small Business Administration, states and municipalities, corporations, as well as mortgage-backed securities issued by government agencies and government sponsored enterprises. Fair values were estimated primarily by obtaining quoted prices for similar assets in active markets or through the use of pricing models. In cases where there may be limited or less transparent information provided by the Company's third-party pricing service, fair value may be estimated by the use of secondary pricing services or through the use of non-binding third-party broker quotes.

### ***Loans Held for Sale***

The fair value of the Company's residential mortgage loans held for sale was determined based on quoted prices for similar loans in active markets, and therefore, is classified as a Level 2 measurement.

### ***Mortgage Servicing Rights***

The Company estimates the fair value of mortgage servicing rights by using a discounted cash flow model to calculate the present value of estimated future net servicing income. The Company stratifies its mortgage servicing portfolio on the basis of loan type. The assumptions used in the discounted cash flow model are those that the Company believes market participants would use in estimating future net servicing income. Significant assumptions in the valuation of mortgage servicing rights include estimated loan repayment rates, the discount rate, servicing costs, and the timing of cash flows, among other factors. Mortgage servicing rights are classified as Level 3 measurements due to the use of significant unobservable inputs, as well as significant management judgment and estimation.

### ***Other Assets***

Other assets recorded at fair value on a recurring basis are primarily comprised of investments related to deferred compensation arrangements. Quoted prices for these investments, primarily in mutual funds, are available in active markets. Thus, the Company's investments related to deferred compensation arrangements are classified as Level 1 measurements in the fair value hierarchy.

### ***Derivative Financial Instruments***

Derivative financial instruments recorded at fair value on a recurring basis are comprised of interest rate lock commitments ("IRLCs"), forward commitments, interest rate swap agreements, foreign exchange contracts, and Visa Class B to Class A shares conversion rate swap agreements. The fair values of IRLCs are calculated based on the value of the underlying loan held for sale, which in turn is based on quoted prices for similar loans in the secondary market. However, this value is adjusted by a factor which considers the likelihood that the loan in a locked position will ultimately close. This factor, the closing ratio, is derived from the Bank's internal data and is adjusted using significant management judgment. As such, IRLCs are classified as Level 3 measurements. Forward commitments are classified as Level 2 measurements as they are primarily based on quoted prices from the secondary market based on the settlement date of the contracts, interpolated or extrapolated, if necessary, to estimate a fair value as of the end of the reporting period.

The fair values of interest rate swap agreements are calculated using a discounted cash flow approach and utilize Level 2 observable inputs such as a market yield curve, effective date, maturity date, notional amount, and stated interest rate. The valuation methodology for interest rate swaps with financial institution counterparties (and the related customer interest rate swaps) is based on the Secured Overnight Financing Rate. In addition, the Company includes in its fair value calculation a credit factor adjustment which is based primarily on management judgment. Thus, interest rate swap agreements are classified as a Level 3 measurement. The fair values of foreign exchange contracts are calculated using the Bank's multi-currency accounting system which utilizes contract specific information such as currency, maturity date, contractual amount, and strike price, along with market data information such as the spot rates of specific currency and yield curves. Foreign exchange contracts are classified as Level 2 measurements because while they are valued using the Bank's multi-currency accounting system, significant management judgment or estimation is not required. The fair value of the Visa Class B restricted shares to Class A unrestricted common shares conversion rate swap agreements represent the amount owed by the Company to the buyer of the Visa Class B shares as a result of a reduction of the conversion ratio subsequent to the sales date. As of June 30, 2022, and December 31, 2021, the conversion rate swap agreements were valued at zero as reductions to the conversion ratio were neither probable nor reasonably estimable by management. See Note 11 *Derivative Financial Instruments* for more information.

The Company is exposed to credit risk if borrowers or counterparties fail to perform. The Company seeks to minimize credit risk through credit approvals, limits, monitoring procedures, and collateral requirements. The Company generally enters into transactions with borrowers and counterparties that carry high quality credit ratings. Credit risk associated with borrowers or counterparties as well as the Company's non-performance risk is factored into the determination of the fair value of derivative financial instruments.

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis as of June 30, 2022, and December 31, 2021:

(dollars in thousands)	Quoted Prices in Active Markets for Identical Assets or Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

<sup>1</sup> The fair value of each class of derivatives is shown in Note 11 *Derivative Financial Instruments*.

For the three and six months ended June 30, 2022, and June 30, 2021, the changes in Level 3 assets and liabilities measured at fair value on a recurring basis were as follows:

(dollars in thousands)	Mortgage Servicing Rights <sup>1</sup>	Net Derivative Assets and Liabilities <sup>2</sup>
<b>Three Months Ended June 30, 2022</b>		
<b>Balance as of April 1, 2022</b>	\$ 781	\$ (50,429)
Realized and Unrealized Net Gains (Losses):		
Included in Net Income	(34)	90
Transfers to Loans Held for Sale	—	58
Variation Margin Payments	—	(32,667)
<b>Balance as of June 30, 2022</b>	<b>\$ 747</b>	<b>\$ (82,948)</b>
<b>Total Unrealized Net Gains (Losses) Included in Net Income Related to Assets Still Held as of June 30, 2022</b>	<b>\$ —</b>	<b>\$ (82,948)</b>
<b>Three Months Ended June 30, 2021</b>		
<b>Balance as of April 1, 2021</b>	\$ 919	\$ 15,482
Realized and Unrealized Net Gains (Losses):		
Included in Net Income	(44)	4,038
Transfers to Loans Held for Sale	—	(4,568)
Variation Margin Payments	—	23,005
<b>Balance as of June 30, 2021</b>	<b>\$ 875</b>	<b>\$ 37,957</b>
<b>Total Unrealized Net Gains (Losses) Included in Net Income Related to Assets Still Held as of June 30, 2021</b>	<b>\$ —</b>	<b>\$ 37,957</b>
<b>Six Months Ended June 30, 2022</b>		
<b>Balance as of January 1, 2022</b>	\$ 800	23,904
Realized and Unrealized Net Gains (Losses):		
Included in Net Income	(53)	(996)
Transfers to Loans Held for Sale	—	172
Variation Margin Payments	—	(106,028)
<b>Balance as of June 30, 2022</b>	<b>\$ 747</b>	<b>(82,948)</b>
<b>Total Unrealized Net Gains (Losses) Included in Net Income Related to Assets Still Held as of June 30, 2022</b>	<b>\$ —</b>	<b>\$ (82,948)</b>
<b>Six Months Ended June 30, 2021</b>		
<b>Balance as of January 1, 2021</b>	\$ 958	\$ 77,880
Realized and Unrealized Net Gains (Losses):		
Included in Net Income	(83)	4,913
Transfers to Loans Held for Sale	—	(7,584)
Variation Margin Payments	—	(37,252)
<b>Balance as of June 30, 2021</b>	<b>\$ 875</b>	<b>\$ 37,957</b>
<b>Total Unrealized Net Gains (Losses) Included in Net Income Related to Assets Still Held as of June 30, 2021</b>	<b>\$ —</b>	<b>\$ 37,957</b>

<sup>1</sup> Realized and unrealized gains and losses related to mortgage servicing rights are reported as a component of mortgage banking income in the Company's consolidated statements of income.

<sup>2</sup> Realized and unrealized gains and losses related to interest rate lock commitments are reported as a component of mortgage banking income in the Company's consolidated statements of income. Realized and unrealized gains and losses related to interest rate swap agreements are reported as a component of other noninterest income in the Company's consolidated statements of income.

For Level 3 assets and liabilities measured at fair value on a recurring or nonrecurring basis as of June 30, 2022, and December 31, 2021, the significant unobservable inputs used in the fair value measurements were as follows:

(dollars in thousands)	Valuation Technique	Description	Range		Weighted Average <sup>1</sup>	Fair Value
<b>June 30, 2022</b>						
Mortgage Servicing Rights	Discounted Cash Flow	Constant Prepayment Rate	3.86%-	10.79%	4.46%	\$ 29,061
		Discount Rate	7.47%-	9.52%	9.48%	\$ —
Net Derivative Assets and Liabilities:						
Interest Rate Lock Commitments	Pricing Model	Closing Ratio	75.40%-	93.30%	89.93%	\$ 243
Interest Rate Swap Agreements	Discounted Cash Flow	Credit Factor	0.00%-	0.49%	0.02%	\$ (83,191)
<b>December 31, 2021</b>						
Mortgage Servicing Rights	Discounted Cash Flow	Constant Prepayment Rate	6.51%-	11.48%	10.70%	\$ 22,251
		Discount Rate	6.49%-	7.08%	7.04%	\$ —
Net Derivative Assets and Liabilities:						
Interest Rate Lock Commitments	Pricing Model	Closing Ratio	75.40%-	100.00%	90.47%	\$ 1,084
Interest Rate Swap Agreements	Discounted Cash Flow	Credit Factor	0.00%-	0.49%	0.14%	\$ 22,820

<sup>1</sup> Unobservable inputs for mortgage servicing rights and interest rate lock commitments were weighted by loan amount. Unobservable inputs for interest rate swap agreements were weighted by fair value.

Significant increases (decreases) in any of those inputs in isolation could result in a significantly lower (higher) fair value measurement. Although the constant prepayment rate and the discount rate are not directly interrelated, they generally move in opposite directions of each other.

#### **Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis**

The Company may be required periodically to measure certain assets and liabilities at fair value on a nonrecurring basis in accordance with GAAP. These adjustments to fair value usually result from the application of lower-of-cost-or-fair value accounting or impairment write-downs of individual assets. The following table represents the assets measured at fair value on a nonrecurring basis as of June 30, 2022, and December 31, 2021.

(dollars in thousands)	Fair Value Hierarchy	Net Carrying Amount	Valuation Allowance
<b>June 30, 2022</b>			
Mortgage Servicing Rights - amortization method	Level 3	\$ 22,793	\$ —
<b>December 31, 2021</b>			
Mortgage Servicing Rights - amortization method	Level 3	\$ 21,451	\$ (1,829)

The change in valuation allowance of mortgage servicing rights accounted for under the amortization method was primarily due to changes in certain key assumptions used to estimate fair value. As previously mentioned, all of the Company's mortgage servicing rights are classified as Level 3 measurements due to the use of significant unobservable inputs, as well as significant management judgment and estimation.

### Fair Value Option

The following table reflects the difference between the aggregate fair value and the aggregate unpaid principal balance of the Company's residential mortgage loans held for sale as of June 30, 2022, and December 31, 2021.

(dollars in thousands)	Aggregate Fair Value	Aggregate Unpaid Principal	Aggregate Fair Value Less Aggregate Unpaid Principal
<b>June 30, 2022</b>			
Loans Held for Sale	\$ 4,514	\$ 4,472	\$ 42
<b>December 31, 2021</b>			
Loans Held for Sale	\$ 26,746	\$ 26,309	\$ 437

Changes in the estimated fair value of residential mortgage loans held for sale are reported as a component of mortgage banking income in the Company's consolidated statements of income. For the three and six months ended June 30, 2022, and year ended December 31, 2021, the net gains or losses from the change in fair value of the Company's residential mortgage loans held for sale were not material.

### Financial Instruments Not Recorded at Fair Value on a Recurring Basis

The following presents the carrying amount, fair value, and placement in the fair value hierarchy of the Company's financial instruments not recorded at fair value on a recurring basis as of June 30, 2022, and December 31, 2021. This table excludes financial instruments for which the carrying amount approximates fair value. For short-term financial assets such as cash and cash equivalents, the carrying amount is a reasonable estimate of fair value due to the relatively short time between the origination of the instrument and its expected realization. For non-marketable equity securities such as Federal Home Loan Bank of Des Moines and Federal Reserve Bank stock, the carrying amount is a reasonable estimate of fair value as these securities can only be redeemed or sold at their par value and only to the respective issuing government supported institution or to another member institution. For financial liabilities such as noninterest-bearing demand, interest-bearing demand, and savings deposits, the carrying amount is a reasonable estimate of fair value due to these products having no stated maturity.

(dollars in thousands)	Carrying Amount	Fair Value	Fair Value Measurements		
			Quoted Prices in Active Markets for Identical Assets or Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<b>June 30, 2022</b>					
Financial Instruments - Assets					
Investment Securities Held-to-Maturity	\$ 4,321,693	\$ 3,823,739	\$ 118,498	\$ 3,705,241	\$ —
Loans <sup>1</sup>	12,647,239	12,043,942	—	—	12,043,942
Financial Instruments - Liabilities					
Time Deposits	1,257,207	1,240,477	—	1,240,477	—
Securities Sold Under Agreements to Repurchase	425,490	420,109	—	420,109	—
<b>December 31, 2021</b>					
Financial Instruments - Assets					
Investment Securities Held-to-Maturity	\$ 4,694,780	\$ 4,646,619	\$ 131,139	\$ 4,515,480	\$ —
Loans <sup>1</sup>	11,921,869	12,094,631	—	—	12,094,631
Financial Instruments - Liabilities					
Time Deposits	1,000,089	998,134	—	998,134	—
Securities Sold Under Agreements to Repurchase	450,490	469,293	—	469,293	—

<sup>1</sup> Carrying amount is net of unearned income and the Allowance.

## Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

### Forward-Looking Statements

This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts and may include statements concerning, among other things, the anticipated economic and business environment in our service area and elsewhere, credit quality and other financial and business matters in future periods, our future results of operations and financial position, our business strategy and plans and our objectives and future operations. We also may make forward-looking statements in our other documents filed with or furnished to the U.S. Securities and Exchange Commission (the “SEC”). In addition, our senior management may make forward-looking statements orally to analysts, investors, representatives of the media and others. Our forward-looking statements are based on numerous assumptions, any of which could prove to be inaccurate, and actual results may differ materially from those projected because of a variety of risks and uncertainties, including, but not limited to: 1) general economic conditions either nationally, internationally, or locally may be different than expected, and particularly, any event that negatively impacts the tourism industry in Hawaii; 2) the compounding effects of the COVID-19 pandemic, including reduced tourism in Hawaii, the duration and scope of government mandates or other limitations on travel and any lingering effects therefrom, volatility in the international and national economy and credit markets, worker absenteeism, quarantines or other travel or health-related restrictions, the length and severity of the COVID-19 pandemic, the pace of recovery following the COVID-19 pandemic, and the effect of government, business and individual actions intended to mitigate the effects of the COVID-19 pandemic; 3) changes in market interest rates that may affect credit markets and our ability to maintain our net interest margin; 4) changes in our credit quality or risk profile that may increase or decrease the required level of our reserve for credit losses; 5) the impact of legislative and regulatory initiatives, particularly the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the “Dodd-Frank Act”) and Economic Growth, Regulatory Relief, and Consumer Protection Act of 2018; 6) changes to the amount and timing of proposed common stock repurchases; 7) unanticipated changes in the securities markets, public debt markets, and other capital markets in the U.S. and internationally, including, without limitation, the anticipated elimination of the London Interbank Offered Rate (“LIBOR”) as a benchmark interest rate; 8) changes in fiscal and monetary policies of the markets in which we operate; 9) the increased cost of maintaining or the Company’s ability to maintain adequate liquidity and capital, based on the requirements adopted by the Basel Committee on Banking Supervision and U.S. regulators; 10) changes in accounting standards; 11) the effect of changes in or interpretations of tax laws or regulations, including Public Law 115-97, commonly known as the Tax Cuts and Jobs Act; 12) any failure or disruption in or breach of our operational or security systems, information systems or infrastructure, or those of our merchants, third party vendors and other service providers; 13) any interruption or breach of security of our information systems resulting in failures or disruptions in customer account management, general ledger processing, and loan or deposit systems; 14) natural disasters, public unrest or adverse weather, public health, disease outbreaks, and other conditions impacting us and our customers’ operations or negatively impacting the tourism industry in Hawaii; 15) competitive pressures in the markets for financial services and products; 16) actual or alleged conduct which could harm our reputation; and 17) the impact of litigation and regulatory investigations of the Company, including costs, expenses, settlements, and judgments. Given these risks and uncertainties, investors should not place undue reliance on any forward-looking statement as a prediction of our actual results. A detailed discussion of these and other risks and uncertainties that could cause actual results and events to differ materially from such forward-looking statements is included under the section entitled “Risk Factors” in Part II of this report and Part I of our Annual Report on Form 10-K for the year ended December 31, 2021, and subsequent periodic and current reports filed with the SEC. Words such as “believes,” “anticipates,” “expects,” “intends,” “targeted,” and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. We undertake no obligation to update forward-looking statements to reflect later events or circumstances, except as may be required by law.

For the reasons described above, we caution you against relying on any forward-looking statements. You should not consider any list of such factors to be an exhaustive statement of all of the risks, uncertainties, or potentially inaccurate assumptions that could cause our current expectations or beliefs to change. Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update or revise any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events, except as otherwise may be required by the federal securities laws.

## Critical Accounting Policies

Our Consolidated Financial Statements were prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and follow general practices within the industries in which we operate. The most significant accounting policies we follow are presented in Note 1 to the Company’s Annual Report on Form 10-K for the year ended December 31, 2021. Application of these principles requires us to make estimates, assumptions, and judgments that affect the amounts reported in the Consolidated Financial Statements and accompanying notes. Most accounting policies are not considered by management to be critical accounting policies. Several factors are considered in determining whether or not a policy is critical in the preparation of the Consolidated Financial Statements. These factors include among other things, whether the policy requires management to make difficult, subjective, and complex judgments about matters that are inherently uncertain and because it is likely that materially different amounts would be reported under different conditions or using different assumptions. The accounting policies which we believe to be most critical in preparing our Consolidated Financial Statements are presented in the section titled “Critical Accounting Policies” in Management’s Discussion and Analysis of Financial Condition and Results of Operations included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2021. There have been no significant changes in the Company’s application of critical accounting policies since December 31, 2021.

## Overview

Bank of Hawaii Corporation (the “Parent”) is a Delaware corporation and a bank holding company headquartered in Honolulu, Hawaii. The Parent’s principal operating subsidiary is Bank of Hawaii (the “Bank”).

The Bank, directly and through its subsidiaries, provides a broad range of financial services and products to businesses, consumers, and governments in Hawaii, Guam, and other Pacific Islands. References to “we,” “our,” “us,” or the “Company” refer to the Parent and its subsidiaries that are consolidated for financial reporting purposes.

The Company’s business strategy is to use our unique market knowledge, prudent management discipline and brand strength to deliver exceptional value to our stakeholders.

### *Hawaii Economy*

Improvements in visitor arrivals and job growth during the quarter have continued to help in the recovery of Hawaii’s economy, which was severely impacted by the COVID-19 pandemic. Although visitor arrivals are below pre-pandemic levels, the easing of international travel restrictions and restoration of international flights to and from Hawaii are expected to contribute to the continued improvement of the economy. Hawaii’s unemployment rate was 4.2% in May 2022, while still above the pre-pandemic level, it has fallen substantially since its peak in April and May of 2020.

For the first six months of 2022, the volume of single-family home sales on Oahu decreased 8.8%, while the volume of condominium sales on Oahu increased 7.5% compared with the same period in 2021. The median price of single-family home sales and condominium sales on Oahu increased 17.0% and 13.2%, respectively, for the first six months of 2022 compared to the same period in 2021. As of June 30, 2022, months of inventory of single-family homes and condominiums on Oahu remained low at 1.5 months and 1.6 months, respectively.

### *Earnings Summary*

Net income for the second quarter of 2022 was \$56.9 million, a decrease of \$10.7 million or 16% compared to the same period in 2021. Diluted earnings per common share was \$1.38 for the second quarter of 2022, a decrease of \$0.30 or 18% compared to the same period in 2021.

- The return on average assets for the second quarter of 2022 was 1.00% compared with 1.23% in the same period in 2021.
- The return on average common equity for the second quarter of 2022 was 18.19% compared with 19.61% in the same period in 2021.

- Net interest income for the second quarter of 2022 was \$132.9 million, an increase of 7.6% from the same period in 2021. Net interest margin was 2.47% in the second quarter of 2022, an increase of 10 basis points from the same period in 2021. The increase in the net interest margin from prior year is largely due to higher interest rate environment and continued strong loan growth.
- The provision for credit losses for the second quarter of 2022 was a net benefit of \$2.5 million compared with a net benefit of \$16.1 million in the same period in 2021.
- Noninterest income was \$42.2 million in the second quarter of 2022, a decrease of 5.1% from the same period in 2021.
- Noninterest expense was \$102.9 million in the second quarter of 2022, an increase of 6.6% compared to the same period in 2021.
- The efficiency ratio during the second quarter of 2022 was 58.80% compared with 57.47% in the same period in 2021.
- The effective tax rate for the second quarter of 2022 was 23.80% compared with 22.84% in the same period in 2021.
- Total non-performing assets were \$15.5 million at June 30, 2022, a decrease of \$3.5 million compared to June 30, 2021. Non-performing assets as percentage of total loans and leases and foreclosed real estate were 0.12% at June 30, 2022, a decrease of 4 basis points compared to June 30, 2021.
- Net loan and lease charge-offs during the second quarter of 2022 were \$0.6 million or 0.02% annualized of total average loans and leases outstanding, comprised of charge-offs of \$3.3 million partially offset by recoveries of \$2.7 million. Compared to the second quarter of 2021, net loan and lease charge-offs decreased by \$0.6 million or 2 basis points on total average loans and leases outstanding.
- The allowance for credit losses on loans and leases was \$148.5 million at June 30, 2022, a decrease of \$31.8 million from June 30, 2021. The ratio of the allowance for credit losses to total loans and leases outstanding was 1.15% at the end of the quarter, a decrease of 35 basis points from the end of the same period in 2021.

We maintained a strong balance sheet during the second quarter of 2022, with what we believe are appropriate reserves for credit losses and high levels of liquidity and capital.

- Total assets increased to \$23.2 billion at June 30, 2022, an increase of 2.0% from December 31, 2021.
- The investment securities portfolio was \$8.3 billion at June 30, 2022, a decrease of 7.7% from December 31, 2021. The portfolio remains largely comprised of securities issued by U.S. government agencies and U.S. government-sponsored enterprises.
- Total loans and leases were \$13.0 billion at June 30, 2022, an increase of 5.6% from December 31, 2021, primarily due to growth in home equity, commercial mortgage, and residential mortgage loans.
- Total deposits were \$21.0 billion at June 30, 2022, an increase of 3.3% from December 31, 2021.
- Total shareholders' equity was \$1.3 billion as of June 30, 2022, a decrease of \$0.2 billion or 16% from December 31, 2021.
- In the first six months of 2022, we repurchased 247,825 shares of common stock at a total cost of \$19.9 million. Cash dividends of \$56.5 million on common shares, and \$3.9 million on preferred shares, were distributed during the first six months of 2022.

## Analysis of Statements of Income

Average balances, related income and expenses, and resulting yields and rates are presented in Table 1. An analysis of the change in net interest income, on a taxable-equivalent basis, is presented in Table 2.

**Average Balances and Interest Rates - Taxable-Equivalent Basis**

**Table 1**

1 Non-performing loans and leases are included in the respective average loan and lease balances. Income, if any, on such loans and leases is recognized on a cash basis.

2 Comprised of other consumer revolving credit, installment, and consumer lease financing.

3 Interest income includes taxable-equivalent basis adjustments, based upon a federal statutory tax rate of 21%, of \$0.2 million and \$0.5 million for the three and six months ended June 30, 2022, and \$0.3 million and \$0.5 million for the three and six months ended June 30, 2021.

<sup>1</sup> The change in interest income and expense not solely due to changes in volume or rate has been allocated on a pro-rata basis to the volume and rate columns.

<sup>2</sup> Comprised of other consumer revolving credit, installment, and consumer lease financing.

**Net Interest Income**

Net interest income is affected by the size and mix of our balance sheet components as well as the spread between interest earned on assets and interest paid on liabilities. Net interest margin is defined as net interest income, on a taxable-equivalent basis, as a percentage of average earning assets.

Yields on our earning assets increased by 8 basis points in the second quarter of 2022 and decreased by 4 basis points in the first six months of 2022 compared to the same periods in 2021. This is primarily due to the higher rate environment in 2022 compared to the prior year.

Yields on our investment securities portfolio increased by 19 basis points in the second quarter of 2022 and by 11 basis points in the first six months of 2022 compared to the same periods in 2021. Yields on our commercial and industrial loans increased by 6 basis points in the second quarter of 2022 compared to same period in 2021 primarily due to the higher interest rate environment, and decreased by 10 basis points in the first six months of 2022 compared to same period in 2021 due to lower amortized fees. Contractual yields on Paycheck Protection Program loans are fixed at 1%, however, effective yield varies based on processing fee income being accelerated due to loans being forgiven by the Small Business Administration (“SBA”) ahead of maturity. Yields on our commercial mortgage loans increased by 17 basis points in the second quarter of 2022 compared to the same period in 2021 primarily due to the higher interest rate environment and interest recovery, and decreased by 3 basis points in the first six months of 2022 compared to the same period in 2021. Yields on our construction loans increased by 73 basis points in the second quarter of 2022 and by 46 basis points in the first six months of 2022 compared to the same periods in 2021 due to higher interest rate environment and the payoff of lower yielding loans. Yields on our residential mortgage loans decreased by 9 basis point in the second quarter of 2022 and by 17 basis points in the first six months of 2022 compared to the same periods in 2021 primarily due to pay downs of higher rate loans. Yields on our home equity loans decreased by 24 basis points in the second quarter of 2022 and by 30 basis points in the first six months of 2022 compared to the same periods in 2021 due to new loans booked at lower yields while higher yielding loans continue to pay off.

Interest rates paid on our interest-bearing liabilities decreased by 2 basis points in the second quarter of 2022 and by 5 basis points in the first six months of 2022 compared to the same periods in 2021. Decreases to our funding costs are primarily due to lower rates paid on our interest-bearing deposits. The rates paid on securities sold under agreements to repurchase increased by 6 basis points in the second quarter of 2022 and by 9 basis points in the first six months of 2022 compared to the same periods in 2021 primarily due to the early termination of repurchase agreements with private institutions in 2021.

The average balance of our earning assets increased by \$0.6 billion or 3% in the second quarter of 2022 and by \$1.1 billion or 5% in the first six months of 2022 compared to the same periods in 2021 primarily due to an increase in the average balances of our investment securities. The average balance of our funds sold decreased by \$672.7 million or 71% in the second quarter of 2022 and by \$493.4 million or 66% in the first six months of 2022 compared to the same periods in 2021. The average balance of our investment securities increased by \$0.7 billion or 9% in the second quarter of 2022 and by \$1.1 billion or 15% in the first six months of 2022 compared to the same periods in 2021. The average balance of our loan and lease portfolio increased by \$604.6 million or 5% in the second quarter of 2022 and by \$471.9 million or 4% in the first six months of 2022 compared to the same periods in 2021. The average balance of our commercial mortgage portfolio increased by \$473.7 million or 16% in the second quarter of 2022 and by \$393.6 million or 14% in the first six months of 2022 compared to the same periods in 2021 as a result of continued demand from new and existing customers. The average balance of our residential mortgage portfolio increased by \$211.4 million or 5% in the second quarter of 2022 and by \$204.1 million or 5% in the first six months of 2022 compared to the same periods in 2021 primarily due to higher loan originations partially offset by payoff activity. The average balance of our home equity portfolio increased by \$459.5 million or 29% in the second quarter of 2022 and by \$382.5 million or 24% in the first six months of 2022 compared to the same periods in 2021 mainly due to growth driven by ongoing promotions of our SmartRefi program.

The average balances of our core interest bearing deposit products for the three months ended June 30, 2022, were relatively unchanged compared to the same period in 2021, and the average balances for the six months ended June 30, 2022, increased by \$0.6 billion or 5% compared to the same period in 2021. The average balances of our interest-bearing liabilities for the three months and six months ended June 30, 2022, decreased by \$0.4 billion or 3% and by \$0.1 billion or 1% compared to the same periods in 2021. The average balance of our interest bearing demand deposits for the three months ended June 30, 2022, was relatively unchanged compared to the same period in 2021, and the average balance for the six months ended June 30, 2022, increased by \$228.0 million or 5% compared to the same period in 2021. The average balance of our savings deposits for the three months and six months ended June 30, 2022, increased by \$159.7 million or 2% and by \$340.9 million or 5% compared to the same periods in 2021. The average balance of our time deposits for the three months and six months ended June 30, 2022, decreased by \$468.0 million or 33% and by \$562.7 million or 37% compared to the same periods in 2021.

The average balances of our securities sold under agreements to repurchase for the three months and six months ended June 30, 2022 decreased by \$122.6 million or 21% and by \$136.2 million or 23% compared to the same periods in 2021. These decreases were due to terminations of repurchase agreements with private institutions, of which \$25.0 million terminated in 2022 and \$150.0 million terminated in 2021. The average balances of our other debt, which was comprised primarily of Federal Home Loan Bank (“FHLB”) advances, decreased by \$19.8 million or 66% in the second quarter of 2022 and by \$35.0 million or 77% compared to the same periods in 2021, primarily due to the prepayment of FHLB advances totaling \$50.0 million during 2021.

### Noninterest Income

Table 3 presents the components of noninterest income.

Noninterest Income	Table 3					
	Three Months Ended June 30,			Six Months Ended June 30,		
	2022	2021	Change	2022	2021	Change
(dollars in thousands)						
Trust and Asset Management	\$ 11,457	\$ 11,682	\$ (225)	\$ 22,733	\$ 22,960	\$ (227)
Mortgage Banking	1,247	3,058	(1,811)	3,987	8,920	(4,933)
Service Charges on Deposit Accounts	7,309	6,065	1,244	14,581	12,193	2,388
Fees, Exchange, and Other Service Charges	14,193	13,807	386	27,145	27,414	(269)
Investment Securities Gains (Losses), Net	(1,295)	2,423	(3,718)	(2,840)	1,220	(4,060)
Annuity and Insurance	870	911	(41)	1,661	1,613	48
Bank-Owned Life Insurance	2,658	2,063	595	5,007	3,980	1,027
Other Income	5,719	4,422	1,297	13,435	9,101	4,334
<b>Total Noninterest Income</b>	<b>\$ 42,158</b>	<b>\$ 44,431</b>	<b>\$ (2,273)</b>	<b>\$ 85,709</b>	<b>\$ 87,401</b>	<b>\$ (1,692)</b>

Trust and asset management income is comprised of fees earned from the management and administration of trusts and other customer assets. The management fees are largely based upon the market value of the assets and the fee rate charged to customers. Total trust assets under administration were \$10.2 billion and \$11.0 billion as of June 30, 2022, and June 30, 2021, respectively. Trust and asset management income decreased by \$0.2 million or 2% in the second quarter of 2022 and by \$0.2 million or 1% for the first six months of 2022 compared to the same periods in 2021.

Mortgage banking income is highly influenced by mortgage interest rates, the housing market, the amount of our loan sales, and our valuation of mortgage servicing rights. Mortgage banking income decreased by \$1.8 million or 59% in the second quarter of 2022 and by \$4.9 million or 55% for the first six months of 2022 compared to the same periods in 2021. These decreases were primarily due to decreased sales of conforming saleable loans from current production. During the first six months in 2022, we recognized a \$1.8 million recovery to our mortgage servicing rights valuation allowance compared to a \$1.1 million recovery in the same period in 2021.

Service charges on deposit accounts increased by \$1.2 million or 21% in the second quarter of 2022 and by \$2.4 million or 20% for the first six months of 2022 compared to the same periods in 2021. These increases were primarily due to an increase in overdraft fees coupled with an increase in account analysis fees, and monthly service fees compared to the same periods in 2021.

Fees, exchange, and other service charges are primarily comprised of debit and credit card income, fees from ATMs, merchant service activity, and other loan fees and service charges. Fees, exchange, and other service charges increased by \$0.4 million or 3% in the second quarter of 2022 compared to the same period in 2021 primarily due to higher credit card transaction volume, coupled with an increase in merchant income and other loan fees, which were offset by lower debit card transactions volume. Fees, exchange, and other service charges decreased by \$0.3 million or 1% for the first six months of 2022 compared to the same period in 2021. This decrease was primarily due to a decrease in other loan fees, which was partially offset by an increase in merchant income as a result of higher sales volume.

Investment securities net losses, totaled \$1.3 million in the second quarter of 2022 compared to net gains of \$2.4 million during the same period in 2021, and net losses of \$2.8 million the first six months of 2022 compared to net gains of \$1.2 million during the same period in 2021. The net losses in 2022 were primarily due to the fees paid to the counterparties of our prior Visa Class B share sales transactions, while the net gains in 2021 were primarily due to the sales of mortgage-backed and corporate debt securities, which was partially offset by the fees paid to the counterparties of our prior Visa Class B share sales transactions.

Annuity and insurance income was relatively unchanged in the second quarter of 2022 and the first six months of 2022 compared to the same periods in 2021.

Bank-owned life insurance increased by \$0.6 million or 29% in the second quarter of 2022 and by \$1.0 million or 26% for the first six months of 2022 compared to the same periods in 2021 primarily due to policy purchases.

Other noninterest income increased by \$1.3 million or 29% in the second quarter of 2022 and by \$4.3 million or 48% for the first six months of 2022 compared to the same periods in 2021. These increases were primarily due to an increase in customer derivative program, gain on the sale of leased assets, and an increase in investment advisor fees.

#### Noninterest Expense

Table 4 presents the components of noninterest expense.

Noninterest Expense	Table 4					
	Three Months Ended June 30,			Six Months Ended June 30,		
	2022	2021	Change	2022	2021	Change
(dollars in thousands)						
Salaries	\$ 36,721	\$ 33,413	\$ 3,308	\$ 71,653	\$ 64,982	\$ 6,671
Incentive Compensation	6,073	5,172	901	12,184	11,086	1,098

Separation Expense	120	284	(164)	690	2,123	(1,433)
<b>Total Salaries and Benefits</b>	<b>57,769</b>	<b>56,161</b>	<b>1,608</b>	<b>117,693</b>	<b>112,412</b>	<b>5,281</b>
Net Occupancy	9,930	5,047	4,883	19,756	14,137	5,619
Net Equipment	9,543	8,796	747	18,696	17,674	1,022
Data Processing	4,607	4,557	50	9,167	10,879	(1,712)
Professional Fees	3,542	3,114	428	6,800	6,520	280
FDIC Insurance	1,590	1,669	(79)	3,092	3,323	(231)
Other Expense:						
Advertising	2,430	2,018	412	5,053	4,330	723
Delivery and Postage Services	1,788	1,693	95	3,294	3,341	(47)
Broker's Charges	1,251	728	523	2,714	1,487	1,227
Merchant Transaction and Card Processing Fees	1,484	1,259	225	2,937	2,357	580
Mileage Program Travel	1,156	1,208	(52)	2,352	2,368	(16)
Other	7,849	10,277	(2,428)	15,259	16,564	(1,305)
<b>Total Other Expense</b>	<b>15,958</b>	<b>17,183</b>	<b>(1,225)</b>	<b>31,609</b>	<b>30,447</b>	<b>1,162</b>
<b>Total Noninterest Expense</b>	<b>\$ 102,939</b>	<b>\$ 96,527</b>	<b>\$ 6,412</b>	<b>\$ 206,813</b>	<b>\$ 195,392</b>	<b>\$ 11,421</b>

Total salaries and benefits expense increased by \$1.6 million or 3% in the second quarter of 2022 and by \$5.3 million or 5% for the first six months of 2022 compared to the same periods in 2021. These increases were primarily due to an increase in base salaries coupled with an increase in incentive compensation and share-based compensation due to a higher number of restricted stock units being amortized. These increases were partially offset by a decrease in commission, retirement and other benefits, and separation expense.

Net occupancy expense increased by \$4.9 million or 97% in the second quarter of 2022 and by \$5.6 million or 40% for the first six months of 2022 compared to the same periods in 2021. These increases were primarily due to the gain on sale of real estate property on the island of Oahu during prior year coupled with an increase in security guard services for the first six months of 2022 compared to the same periods in 2021.

Net equipment expense increased by \$0.7 million or 8% in the second quarter of 2022 and by \$1.0 million or 6% for the first six months of 2022 compared to the same periods in 2021. These increases were due to higher software license fees, coupled with an increase in maintenance expense.

Data processing expense was relatively unchanged in the second quarter of 2022 and decreased by \$1.7 million or 16% for the first six months of 2022 compared to the same periods in 2021. This decrease was primarily due to expenses we incurred in 2021 related to the rollout of contactless cards.

FDIC insurance expense decreased by \$0.1 million or 5% in the second quarter of 2022 and by \$0.2 million or 7% for the first six months of 2022 compared to the same periods in 2021 primarily due to lower assessment rates.

Total other expense decreased by \$1.2 million or 7% in the second quarter of 2022 compared to the same period in 2021. This decrease was primarily due to early termination costs incurred in 2021. Total other expense increased by \$1.2 million or 4% for the first six months of 2022 compared to the same period in 2021. This increase was primarily due to an increase in broker's charges, advertising, insurance, and merchant transaction and card processing fees, which was partially offset by early termination costs incurred in 2021.

#### *Provision for Income Taxes*

Table 5 presents our provision for income taxes and effective tax rates.

(dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021
Provision for Income Taxes	\$ 17,759	\$ 19,985	\$ 33,365	\$ 39,010
Effective Tax Rates	23.80%	22.84%	22.99%	23.43%

The provision for income taxes was \$17.8 million in the second quarter of 2022, a decrease of \$2.2 million compared to the same period in 2021. The effective tax rate for the second quarter of 2022 was 23.80%, up from 22.84% for the same period in 2021. The higher effective rate in the second quarter of 2022 compared to the same period in 2021 was primarily due to decreases in tax credits and municipal bonds, and reduced tax benefits from the exercise of stock options and the vesting of restricted stock. These were partially offset by lower pretax book income.

The provision for income taxes was \$33.4 million for the first six months of 2022, a decrease of \$5.6 million compared to the same period in 2021. The effective tax rate for the first six months of 2022 was 23.00%, down from 23.43% for the same period in 2021. The lower effective tax rate for the first six months of 2022 compared to 2021 was primarily due to the aforementioned lower pretax book income and tax benefit from early buyouts of our equity interest in leverage leases.

#### **Analysis of Statements of Condition**

##### *Investment Securities*

The carrying value of our investment securities portfolio was \$8.3 billion and \$9.0 billion as of June 30, 2022, and December 31, 2021, respectively.

We continually evaluate our investment securities portfolio in response to established asset/liability management objectives, changing market conditions that could affect profitability, and the level of interest rate risk to which we are exposed to. These evaluations may cause us to change the level of funds we deploy into investment securities, change the composition of our investment securities portfolio, and change the proportion of investments made into the available-for-sale and held-to-maturity investment categories.

Mortgage-backed securities issued by Ginnie Mae, Fannie Mae, and Freddie Mac are the largest concentration in our portfolio. As of June 30, 2022, these mortgage-backed securities were all AAA-rated, with a low probability of a change in their credit ratings in the near future.

Gross unrealized gains in our investment securities portfolio were \$3.0 million as of June 30, 2022, and \$49.8 million as of December 31, 2021. Gross unrealized losses in our investment securities portfolio were \$957.8 million as of June 30, 2022, and \$142.8 million as of December 31, 2021. The overall increase in net unrealized losses was primarily due to the increase in interest rates during 2022. The gross unrealized losses were primarily related to mortgage-backed securities issued by U.S. government agencies or U.S. government-sponsored enterprises. See Note 3 to the Consolidated Financial Statements for more information.

### Loans and Leases

Table 6 presents the composition of our loan and lease portfolio by major categories.

Loan and Lease Portfolio Balances	Table 6		
(dollars in thousands)	June 30, 2022	December 31, 2021	Change
<b>Commercial</b>			
Commercial and Industrial	\$ 1,323,830	\$ 1,361,921	\$ (38,091)
Paycheck Protection Program	31,964	126,779	(94,815)
Commercial Mortgage	3,464,126	3,152,130	311,996
Construction	246,177	220,254	25,923
Lease Financing	89,535	105,108	(15,573)
<b>Total Commercial</b>	<b>5,155,632</b>	<b>4,966,192</b>	<b>189,440</b>
<b>Consumer</b>			
Residential Mortgage	4,486,571	4,309,602	176,969
Home Equity	2,101,612	1,836,588	265,024
Automobile	775,065	736,565	38,500
Other <sup>1</sup>	432,693	410,129	22,564
<b>Total Consumer</b>	<b>7,795,941</b>	<b>7,292,884</b>	<b>503,057</b>
<b>Total Loans and Leases</b>	<b>\$ 12,951,573</b>	<b>\$ 12,259,076</b>	<b>\$ 692,497</b>

<sup>1</sup> Comprised of other revolving credit, installment, and lease financing.

Total loans and leases as of June 30, 2022, increased by \$692.5 million or 6%, from December 31, 2021, primarily due to growth from commercial mortgage loans, residential mortgage loans, and home equity lines of credit.

Commercial loans and leases as of June 30, 2022, increased by \$189.4 million or 4% from December 31, 2021. Commercial and industrial loans decreased \$38.1 million, or 3% from December 31, 2021, primarily due to customers paying down commercial credit lines. PPP loans decreased by \$94.8 million, or 75% from December 31, 2021, primarily due to forgiveness payments received from the SBA. Commercial mortgage loans increased by \$312.0 million or 10% from December 31, 2021, primarily due to demand from new and existing customers. Construction loans increased by \$25.9 million or 12% from December 31, 2021, primarily due to an increase in construction activity in our market. Lease financing decreased by \$15.6 million, or 15% from December 31, 2021, primarily due to a \$7.4 million early buyout and paydowns.

Consumer loans and leases as of June 30, 2022, increased by \$503.1 million or 7% from December 31, 2021. Residential mortgage loans increased by \$177.0 million or 4% from December 31, 2021, primarily due to new loan originations and a significant decrease in payoff activity. Home equity portfolio increased by \$265.0 million or 14% from December 31, 2021, as a result of continued strength in new loan originations and low payoff levels. Automobile loans increased \$38.5 million or 5% from December 31, 2021, primarily driven by competitive loan programs and strong customer demand. Other consumer loans increased by \$22.6 million or 6% from December 31, 2021, primarily due to growth in our installment loans.

Table 7 presents the composition of our loan and lease portfolio by geographic area and by major categories.

<sup>1</sup> For secured loans and leases, classification as U.S. Mainland is made based on where the collateral is located. For unsecured loans and leases, classification as U.S. Mainland is made based on the location where the majority of the borrower's business operations are conducted.

<sup>2</sup> Comprised of other revolving credit, installment, and lease financing.

Our commercial and consumer lending activities are concentrated primarily in Hawaii and the Pacific Islands. Our commercial loan and lease portfolio to borrowers based on the U.S. Mainland includes legacy lease financing and participation in shared national credits for customers whose operations and assets extend beyond Hawaii.

### Other Assets

Table 8 presents the major components of other assets.

<b>Other Assets</b>	<b>Table 8</b>		
(dollars in thousands)	<b>June 30, 2022</b>	<b>December 31, 2021</b>	<b>Change</b>
Federal Home Loan Bank of Des Moines and Federal Reserve Bank Stock	\$ 36,840	\$ 36,624	\$ 216
Derivative Financial Instruments	22,494	42,011	(19,517)
Low-Income Housing and Other Equity Investments	126,925	136,647	(9,722)
Deferred Compensation Plan Assets	46,929	56,411	(9,482)
Prepaid Expenses	19,931	17,670	2,261
Accounts Receivable	14,924	13,323	1,601
Deferred Tax Assets	150,910	42,276	108,634
Other	42,217	39,765	2,452
<b>Total Other Assets</b>	<b>\$ 461,170</b>	<b>\$ 384,727</b>	<b>\$ 76,443</b>

Total other assets increased by \$76.4 million or 20% from December 31, 2021. This increase was due to a \$108.6 million increase in deferred tax assets, primarily due to temporary differences between financial reporting and income tax basis of unrealized losses on investment securities. This increase was partially offset by a decrease in derivative financial instruments of \$19.5 million, which was primarily due to fair value decreases of our interest rate swap agreement assets.

### Deposits

Table 9 presents the composition of our deposits by major customer categories.

<b>Deposits</b>	<b>Table 9</b>		
(dollars in thousands)	<b>June 30, 2022</b>	<b>December 31, 2021</b>	<b>Change</b>
Consumer	\$ 10,554,121	\$ 10,438,844	\$ 115,277
Commercial	8,824,609	8,641,932	182,677
Public and Other	1,646,951	1,279,332	367,619
<b>Total Deposits</b>	<b>\$ 21,025,681</b>	<b>\$ 20,360,108</b>	<b>\$ 665,573</b>

Total deposits were \$21.0 billion as of June 30, 2022, an increase of \$665.6 million or 3% from December 31, 2021. Consumer deposits increased by \$115.3 million or 1% primarily due to a \$198.0 million increase in core deposits, partially offset by \$82.8 million decrease in time deposits. Commercial deposits increased by \$182.7 million or 2% due to an increase in core deposits of \$214.7 million, partially offset by \$32.0 million decrease in time deposits. In addition, public and other deposits increased by \$367.6 million or 29% due to an increase in public time deposits of \$371.9 million, offset by \$4.2 million decrease in core deposits.

Table 10 presents the composition of our savings deposits.

<b>Savings Deposits</b>	<b>Table 10</b>		
(dollars in thousands)	<b>June 30, 2022</b>	<b>December 31, 2021</b>	<b>Change</b>
Money Market	\$ 2,868,182	\$ 2,529,985	\$ 338,197
Regular Savings	5,186,717	4,926,180	260,537
<b>Total Savings Deposits</b>	<b>\$ 8,054,899</b>	<b>\$ 7,456,165</b>	<b>\$ 598,734</b>

Table 11 presents the maturity distribution of the estimated uninsured time deposits.

(dollars in thousands)	<b>June 30, 2022</b>	<b>December 31, 2021</b>	<b>Change</b>
Remaining maturity:			
Three months or less	\$ 545,088	\$ 220,045	\$ 325,043
After three through six months	101,858	93,514	8,344
After six through twelve months	105,686	137,514	(31,828)
After twelve months	66,047	74,133	(8,086)
<b>Total</b>	<b>\$ 818,679</b>	<b>\$ 525,206</b>	<b>\$ 293,473</b>

Estimated uninsured deposits totaled \$11.2 billion and \$10.5 billion at June 30, 2022, and December 31, 2021, respectively. Uninsured amounts are estimated based on the portion of account balances in excess of FDIC insurance limits. Estimated uninsured time deposits increased by \$293.5 million from December 31, 2021, primarily due to \$371.9 million increase in public time deposits, partially offset by \$82.8 million decrease in consumer time deposits.

#### *Securities Sold Under Agreements to Repurchase*

Table 12 presents the composition of our securities sold under agreements to repurchase.

(dollars in thousands)	<b>June 30, 2022</b>	<b>December 31, 2021</b>	<b>Change</b>
Private Institutions	\$ 425,000	\$ 450,000	\$ (25,000)
Government Entities	490	490	—
<b>Total Securities Sold Under Agreements to Repurchase</b>	<b>\$ 425,490</b>	<b>\$ 450,490</b>	<b>\$ (25,000)</b>

Securities sold under agreements to repurchase was \$425.5 million as of June 30, 2022, a decrease of \$25.0 million or 5.5% from December 31, 2021. As of June 30, 2022, the weighted-average maturity was 2.36 years for our repurchase agreements with government entities and 2.44 years for our repurchase agreements with private institutions. As of June 30, 2022, the weighted-average interest rate for outstanding agreements with government entities and private institutions was 1.55% and 2.53%, respectively, with all rates being fixed. Each of our repurchase agreements is accounted for as a collateralized financing arrangement (i.e., a secured borrowing) and not as a sale and subsequent repurchase of securities.

#### *Other Debt*

Table 13 presents the composition of our other debt.

(dollars in thousands)	<b>June 30, 2022</b>	<b>December 31, 2021</b>	<b>Change</b>
Finance Lease Obligations	10,343	10,391	(48)
<b>Total</b>	<b>\$ 10,343</b>	<b>\$ 10,391</b>	<b>\$ (48)</b>

**Analysis of Business Segments**

Our business segments are defined as Consumer Banking, Commercial Banking, and Treasury and Other.

Table 14 summarizes net income from our business segments. Additional information about segment performance is presented in Note 10 to the Consolidated Financial Statements.

**Business Segment Net Income** **Table 14**

(dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021
Consumer Banking	\$ 18,417	\$ 22,547	\$ 32,530	\$ 39,486
Commercial Banking	30,671	29,971	59,549	59,687
<b>Total</b>	<b>49,088</b>	<b>52,518</b>	<b>92,079</b>	<b>99,173</b>
Treasury and Other	7,774	15,015	19,617	28,309
<b>Consolidated Total</b>	<b>\$ 56,862</b>	<b>\$ 67,533</b>	<b>\$ 111,696</b>	<b>\$ 127,482</b>

**Consumer Banking**

Net income decreased by \$4.1 million or 18% in the second quarter of 2022 compared to the same period in 2021 primarily due to an increase in noninterest expense and a decrease in noninterest income. This was partly offset by an increase in net interest income and a decrease in the Provision. The increase in noninterest expense was primarily due to a gain on the sale of real estate property on the island of Oahu in the second quarter of 2021, as well as increases in broker's charges and allocated expenses related to support units. The decrease in noninterest income was primarily due to lower mortgage banking income as a result of decreased sales of conforming saleable loans from current production, partly offset by higher overdraft fees and monthly service fees. The increase in net interest income was primarily due to increased deposit and loan balances, as well as higher deposit margins. This was partly offset by lower loan margins. The decrease in the Provision was primarily due to lower net charge-offs in the installment loan portfolio and higher mortgage loan recoveries, partly offset by lower automobile loan recoveries.

Net income decreased by \$7.0 million or 18% in the first six months of 2022 compared to the same period in 2021 primarily due to an increase in noninterest expense and a decrease in noninterest income. This was partly offset by an increase in net interest income and a decrease in the Provision. The increase in noninterest expense was primarily due to a gain on the sale of real estate property on the island of Oahu in the first six months of 2021, as well as increases in salaries and benefits, broker's charges, and allocated expenses related to support units. This was partly offset by the rollout of contactless cards in the first quarter of 2021. The decrease in noninterest income was primarily due to lower mortgage banking income as a result of decreased sales of conforming saleable loans from current production, partly offset by higher overdraft fees and monthly service fees. The increase in net interest income was primarily due to increased deposit and loan balances, partly offset by lower loan margins. The decrease in the Provision was primarily due to lower net charge-offs in the installment loan portfolio, partly offset by lower mortgage loan recoveries.

**Commercial Banking**

Net income increased by \$0.7 million in the second quarter of 2022 compared to the same period in 2021 primarily due to increases in interest income, noninterest income, and a decrease in the provision, partially offset by an increase to noninterest expense. The increase in interest income is primarily due to increased balances and spreads on noninterest bearing deposits and increased balances on commercial mortgage loans. The increase in interest income was partially offset by runoff in the payroll protection program portfolio and a decrease in interest bearing deposit balances and spreads. The increase in noninterest income is primarily due to increases in customer derivative program revenue, loan fees, and merchant services. The increase in noninterest expense was primarily due higher allocated expenses from support units.

Net income decreased by \$0.1 million in the first six months of 2022 compared to the same period in 2021 primarily due to an increase in noninterest expense, partially offset by an increase in noninterest income and reduction in the provision. The increase in noninterest expense was primarily due to higher allocated expenses from support units along with increased salaries and benefits, partially offset by increased deferred salaries. The increase in noninterest income is primarily due to increases in customer derivative program revenue, merchant income, and a gain on the sale of leased assets, partially offset by a decrease in loan fees.

## Treasury and Other

Net income decreased by \$7.2 million in the second quarter of 2022 compared to the same period in 2021 primarily due to a lower release of the Provision, partially offset by an increase in net interest income. The increase in the Provision was primarily due to management's best estimate of losses over the life of loans and leases in our portfolio in accordance with the current expected credit losses (CECL) approach, given the economic outlook and forecasts for the COVID-19 pandemic driven market changes, as well as the impact of unprecedented intervention of fiscal, monetary and regulatory programs. The increase in net interest income was primarily due to the higher rate environment. The provision for income taxes in this business segment represents the residual amount to arrive at the total tax expense for the Company.

Net income decreased by \$8.7 million in the first six months of 2022 compared to the same period in 2021 primarily due to a lower release of the Provision, partially offset by an increase in net interest income. The increase in the Provision was primarily due to management's best estimate of losses over the life of loans and leases in our portfolio in accordance with the CECL approach, given the economic outlook and forecasts for the COVID-19 pandemic driven market changes, as well as the impact of unprecedented intervention of fiscal, monetary and regulatory programs. The increase in net interest income was primarily due to higher balances in the investment portfolio. The provision for income taxes in this business segment represents the residual amount to arrive at the total tax expense for the Company.

## Corporate Risk Profile

### *Credit Risk*

As of June 30, 2022, our overall credit risk profile remains strong and reflects the continued recovery of Hawaii's economy, which was severely impacted by the COVID-19 pandemic.

We actively manage exposures with deteriorating asset quality to reduce levels of potential loss exposure and closely monitor our reserves and capital to address both anticipated and unforeseen issues. Risk management activities include detailed analysis of portfolio segments and stress tests of certain segments to ensure that reserve and capital levels are appropriate. We perform frequent loan and lease-level risk monitoring and risk rating reviews, which provide opportunities for early interventions to allow for credit exits or restructuring, loan and lease sales, and voluntary workouts and liquidations.

### Non-Performing Assets and Accruing Loans and Leases Past Due 90 Days or More

Table 15 presents information on non-performing assets (“NPAs”) and accruing loans and leases past due 90 days or more.

Non-Performing Assets and Accruing Loans and Leases Past Due 90 Days or More			Table 15

<b>Balance as of June 30, 2022</b>	<b>\$ 15,493</b>			

<sup>1</sup> Comprised of other revolving credit, installment, and lease financing.

NPAs consist of non-accrual loans and leases, and foreclosed real estate. Changes in the level of non-accrual loans and leases typically represent additions for loans and leases that reach a specified past due status, offset by reductions for loans and leases that are charged-off, paid down, sold, transferred to Other Real Estate Owned (“OREO”), or are no longer classified as non-accrual because they have returned to accrual status.

Residential mortgage non-accrual loans were \$5.2 million as of June 30, 2022, an increase of \$1.9 million or 57% from December 31, 2021. As of June 30, 2022, our residential mortgage non-accrual loans were comprised of 18 loans with a weighted average current loan-to-value ratio of 58%.

Foreclosed real estate represents property acquired as the result of borrower defaults on loans. Foreclosed real estate is recorded at fair value, less estimated selling costs, at the time of foreclosure. On an ongoing basis, properties are appraised as required by market conditions and applicable regulations. Foreclosed real estate as of June 30, 2022, was unchanged from December 31, 2021.

*Loans and Leases Past Due 90 Days or More and Still Accruing Interest*

Loans and leases in this category are 90 days or more past due, as to principal or interest, and are still accruing interest because they are well secured and in the process of collection. Loans and leases past due 90 days or more and still accruing interest were \$5.5 million as of June 30, 2022, a \$2.2 million or 29% decrease from December 31, 2021. The decrease was primarily in home equity, residential mortgage and automobile, which was partially offset by an increase in other.

Table 16 presents information on loans with terms that have been modified in a TDR.

<sup>1</sup> Comprised of other revolving credit and installment financing.

The Company offered loan and lease modifications to assist borrowers during the COVID-19 national emergency. These modifications initially and generally involved principal and/or interest payment deferrals for up to six months. Similar to the initial modifications granted, an additional round of loan modifications was offered which generally involved principal and/or interest payment deferrals for up to an additional six months for commercial and consumer loans, and principal-only deferrals for up to an additional 12 months for selected commercial loans. The Company generally continues to accrue and recognize interest income during the deferral period. The Company offered several repayment options such as immediate repayment, repayment over a designated time period or as a balloon payment at maturity, or by extending the loan term. These modifications generally did not involve forgiveness or interest rate reductions. In accordance with Section 4013 of the CARES Act and the joint agency statement issued by banking agencies, most of these COVID-19 related loan and lease modifications were not accounted for as TDRs. As of June 30, 2022, COVID-19 related loan and lease modifications totaled \$32.4 million (4 commercial loans). Loans in a COVID-19 loan or lease modification program will continue to accrue interest during the deferral period unless otherwise classified as nonperforming. See Note 4 to the Consolidated Financial Statements for more information.

### Reserve for Credit Losses

<sup>2</sup> The numerator comprises the Allowance for Credit Losses – Loans and Leases.

### *Allowance for Credit Losses - Loans and Leases*

As of June 30, 2022, the Allowance was \$148.5 million or 1.15% of total loans and leases outstanding (1.15% excluding PPP loans), compared with an Allowance of \$157.8 million or 1.29% of total loans and leases outstanding (1.30% excluding PPP loans) as of December 31, 2021. The decrease in the Allowance and the ratio of Allowance to loans and leases outstanding was primarily due to management's best estimate of losses over the life of loans and leases in our portfolio in accordance with the CECL approach, including the continued recovery and improved forecast of Hawaii's economy, as well as the impact of the unprecedented intervention of fiscal, monetary and regulatory programs.

Net charge-offs on loans and leases were \$0.6 million or 0.02% of total average loans and leases, on an annualized basis, in the second quarter of 2022 compared to net charge-offs of \$1.2 million or 0.04% of total average loans and leases, on an annualized basis, in the second quarter of 2021. The decrease in net charge-offs on loans and leases was primarily due to the lower gross charge-offs in automobile and higher recoveries in residential mortgage, partially offset by lower recoveries in commercial and industrial loans. Net charge-off on loans and leases were \$2.1 million or 0.03% of total average loans and leases, on an annualized basis, for the first six months of 2022.

### *Reserve for Unfunded Commitments*

The Unfunded Reserve was \$5.6 million as of June 30, 2022, an increase of \$2.1 million or 60% from December 31, 2021, primarily driven by lower utilization of commercial and industrial and construction loan commitments. The reserve for unfunded commitments is recorded in other liabilities in the consolidated statements of condition.

### *Provision for Credit Losses*

For the first six months of 2022, the Provision for Credit Losses was a net benefit of \$8.0 million compared to a net benefit of \$30.4 million during the same period in 2021. The decrease in the net benefit was primarily due to a lower reduction in the Allowance for Credit Losses – Loans and Leases for the first six months of 2022 compared to the same period in 2021.

## **Market Risk**

Market risk is the potential of loss arising from adverse changes in interest rates and prices. We are exposed to market risk as a consequence of the normal course of conducting our business activities. Our market risk management process involves measuring, monitoring, controlling, and mitigating risks that can significantly impact our statements of income and condition. In this management process, market risks are balanced with expected returns in an effort to enhance earnings performance, while limiting volatility.

Our primary market risk exposure is interest rate risk.

### *Interest Rate Risk*

The objective of our interest rate risk management process is to maximize net interest income while operating within acceptable limits established for interest rate risk and maintaining adequate levels of funding and liquidity. The potential cash flows, sales, or replacement value of many of our assets and liabilities, especially those that earn or pay interest, are sensitive to changes in the general level of interest rates. This interest rate risk arises primarily from our core business activities of extending loans and accepting deposits. Our investment securities portfolio is also subject to significant interest rate risk.

Many factors affect our exposure to changes in interest rates such as general economic and financial conditions, customer preferences, historical pricing relationships, and repricing characteristics of financial instruments. Our earnings are affected not only by general economic conditions but also by the monetary and fiscal policies of the U.S. and its agencies, particularly the Federal Reserve Bank (the "FRB"). The monetary policies of the FRB can influence the overall growth of loans, investment securities, and deposits and the level of interest rates earned on assets and paid for liabilities.

In managing interest rate risk, we, through the Asset/Liability Management Committee (“ALCO”), measure short and long-term sensitivities to changes in interest rates. The ALCO, which is comprised of members of executive management, utilizes several techniques to manage interest rate risk, which include:

- adjusting the balance sheet mix or altering the interest rate characteristics of assets and liabilities;
- changing product pricing strategies;
- modifying characteristics of the investment securities portfolio; and
- using derivative financial instruments.

Our use of derivative financial instruments, as detailed in Note 11 to the Consolidated Financial Statements, has generally been limited. This is due to natural on-balance sheet hedges arising out of offsetting interest rate exposures from loans and investment securities with deposits and other interest-bearing liabilities. In particular, the investment securities portfolio is utilized to manage the interest rate exposure and sensitivity to within the guidelines and limits established by the ALCO. We utilize natural and offsetting economic hedges in an effort to reduce the need to employ off-balance sheet derivative financial instruments to hedge interest rate risk exposures. Expected movements in interest rates are also considered in managing interest rate risk. Thus, as interest rates change, we may use different techniques to manage interest rate risk.

A key element in our ongoing process to measure and monitor interest rate risk is the utilization of an asset/liability simulation model that attempts to capture the dynamic nature of the statement of condition. The model is used to estimate and measure the statement of condition sensitivity to changes in interest rates. These estimates are based on assumptions about the behavior of loan and deposit pricing, prepayment rates on mortgage-based assets, and principal amortization and maturities on other financial instruments. The model’s analytics include the effects of standard prepayment options on mortgages and customer withdrawal options for deposits. While such assumptions are inherently uncertain, we believe that our assumptions are reasonable.

We utilize net interest income simulations to analyze income sensitivities to changes in interest rates. Table 18 presents, as of June 30, 2022, and December 31, 2021, an estimate of the change in net interest income that would result from a gradual and immediate change in interest rates, moving in a parallel shock over the entire yield curve, relative to the measured base case scenario. The base case scenario assumes the statement of condition and interest rates are generally unchanged. Based on our net interest income simulation as of June 30, 2022, net interest income is expected to increase as interest rates rise. Rising interest rates would drive higher rates on loans and investment securities, as well as induce a slower pace of premium amortization on certain securities within our investment portfolio. However, lower interest rates would likely cause a decline in net interest income as lower rates would lead to lower yields on loans and investment securities, as well as drive higher premium amortization on existing investment securities. Based on our net interest income simulation as of June 30, 2022, net interest income sensitivity to changes in interest rates as of June 30, 2022, was less sensitive in comparison to the sensitivity profile as of December 31, 2021.

**Net Interest Income Sensitivity Profile**

**Table 18**

(dollars in thousands)	Impact on Future Annual Net Interest Income					
	June 30, 2022		December 31, 2021			
<b>Gradual Change in Interest Rates (basis points)</b>						
+200	\$	20,490	3.7%	\$	29,697	6.1%
+100		10,191	1.8		15,306	3.1
-100		(8,097)	(1.4)		(8,922)	(1.8)
<b>Immediate Change in Interest Rates (basis points)</b>						
+200	\$	43,709	7.8%	\$	68,037	14.0%
+100		22,254	4.0		38,361	7.9
-100		(18,564)	(3.3)		(30,511)	(6.3)

To analyze the impact of changes in interest rates in a more realistic manner, non-parallel interest rate scenarios are also simulated. These non-parallel interest rate scenarios indicate that net interest income may decrease from the base case scenario should the yield curve flatten or become inverted for a period of time. Conversely, if the yield curve were to steepen, net interest income may increase.

### *Other Market Risks*

In addition to interest rate risk, we are exposed to other forms of market risk in our normal business transactions. Foreign currency and foreign exchange contracts expose us to a small degree of foreign currency risk. These transactions are primarily executed on behalf of customers. Our trust and asset management income are at risk to fluctuations in the market values of underlying assets, particularly debt and equity securities. Also, our share-based compensation expense is dependent on the fair value of our stock options, restricted stock units, and restricted stock at the date of grant. The fair value of stock options, restricted stock units, and restricted stock is impacted by the market price of the Parent's common stock on the date of grant and is at risk to changes in equity markets, general economic conditions, and other factors.

### **Liquidity Risk Management**

The objective of our liquidity risk management process is to manage cash flow and liquidity in an effort to provide continuous access to sufficient, reasonably priced funds. Funding requirements are impacted by loan originations and refinancings, deposit balance changes, liability issuances and settlements, and off-balance sheet funding commitments. We consider and comply with various regulatory guidelines regarding required liquidity levels and periodically monitor our liquidity position in light of the changing economic environment and customer activity. Based on periodic liquidity assessments, we may alter our asset, liability, and off-balance sheet positions. The ALCO monitors sources and uses of funds and modifies asset and liability positions as liquidity requirements change. This process, combined with our ability to raise funds in money and capital markets and through private placements, provides flexibility in managing the exposure to liquidity risk.

In an effort to satisfy our liquidity needs, we actively manage our assets and liabilities. We have access to immediate liquid resources in the form of cash which is primarily on deposit with the FRB. Potential sources of liquidity also include investment securities in our available-for-sale securities portfolio and our ability to sell loans in the secondary market. Our held-to-maturity securities, while not intended for sale, may also be utilized in repurchase agreements to obtain funding. Our core deposits have historically provided us with a long-term source of stable and relatively lower cost source of funding. Additional funding is available through the issuance of long-term debt or equity.

Maturities and payments on outstanding loans and investment securities also provide a steady flow of funds. Liquidity is further enhanced by our ability to pledge loans to access secured borrowings from the FHLB and FRB. As of June 30, 2022, we had additional borrowing capacity of \$3.0 billion from the FHLB and \$636.3 million from the FRB based on the amount of collateral pledged.

We continued our focus on maintaining a strong liquidity position throughout the first six months of 2022. As of June 30, 2022, cash and cash equivalents were \$839.4 million, the fair value of our available-for-sale investment securities was \$4.0 billion, and total deposits were \$21.0 billion as of June 30, 2022.

### **Capital Management**

We actively manage capital, commensurate with our risk profile, to enhance shareholder value. We also seek to maintain capital levels for the Company and the Bank at amounts in excess of the regulatory "well-capitalized" thresholds. Periodically, we may respond to market conditions by implementing changes to our overall balance sheet positioning to manage our capital position.

The Company and the Bank are each subject to regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements could cause certain mandatory and discretionary actions by regulators that, if undertaken, would likely have a material effect on our financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and the Bank must meet specific capital guidelines that involve quantitative and qualitative measures. These measures were established by regulation intended to ensure capital adequacy. Capital ratios are calculated using the regulatory capital rule that allows a five-year transition period related to the adoption of CECL. As of June 30, 2022, the Company's capital levels remained characterized as "well-capitalized". There have been no conditions or events since June 30, 2022, that management believes have changed either the Company's or the Bank's capital classifications. The Company's regulatory capital ratios are presented in Table 19 below.

Table 19 presents our regulatory capital and ratios as of June 30, 2022, and December 31, 2021.

<b>Regulatory Capital and Ratios</b>	<b>Table 19</b>	
(dollars in thousands)	<b>June 30, 2022</b>	<b>December 31, 2021</b>
<b>Regulatory Capital</b>

<b>Total Regulatory Capital</b>	<b>\$ 1,843,822</b>	<b>\$ 1,811,943</b>
<b>Risk-Weighted Assets</b>	<b>\$ 13,042,947</b>	<b>\$ 12,236,805</b>
<b>Key Regulatory Capital Ratios</b>		
Common Equity Tier 1 Capital Ratio	11.66%	12.12%
Tier 1 Capital Ratio	13.01	13.56
Total Capital Ratio	14.14	14.81
Tier 1 Leverage Ratio	7.29	7.32

<sup>1</sup> Includes unrealized gains and losses related to the Company's reclassification of available-for-sale investment securities to the held-to-maturity category.

As of June 30, 2022, shareholders' equity was \$1.3 billion, a decrease of \$262.9 million or 16% from December 31, 2021. For the first six months of 2022, net income of \$111.7 million, common stock issuances of \$4.1 million, and share-based compensation of \$8.2 million were offset by other comprehensive loss of \$302.1 million, cash dividends paid of \$56.5 million on common shares, common stock repurchased of \$24.3 million, and cash dividends declared of \$3.9 million on preferred shares. In the first six months of 2022, we repurchased 247,825 shares under our share repurchase program. These shares were repurchased at an average cost per share of \$80.37 and a total cost of \$19.9 million. From the beginning of our share repurchase program in July 2001 through June 30, 2022, we repurchased a total of 57.6 million shares of common stock and returned a total of \$2.4 billion to our shareholders at an average cost of \$40.93 per share.

Remaining buyback authority under our share repurchase program was \$65.8 million as of June 30, 2022. The actual amount and timing of future share repurchases, if any, will depend on market and economic conditions, regulatory rules, applicable SEC rules, and various other factors.

In July 2022, the Parent's Board of Directors declared a quarterly dividend payment of its Fixed Rate Non-Cumulative Perpetual Preferred Stock, Series A, of \$10.94 per share, equivalent to \$0.2735 per depository share. The dividend will be payable on August 1, 2022 to shareholders of record of the preferred stock at the close of business on July 18, 2022.

In July 2022, the Parent's Board of Directors declared a quarterly cash dividend of \$0.70 per share on the Parent's outstanding common shares. The dividend will be payable on September 15, 2022, to shareholders of record of the common stock at the close of business on August 31, 2022.

### Regulatory Initiatives Affecting the Banking Industry

#### *U.S. Government Relief Programs in Response to the COVID-19 Pandemic*

On March 27, 2020, President Trump signed the CARES Act into law. Many of the provisions of the CARES Act were renewed or extended by the Coronavirus Response and Relief Supplemental Appropriations Act on December 21, 2020.

The CARES Act established the Paycheck Protection Program, an expansion of the SBA's 7(a) loan program. The PPP provided loans to small businesses who were affected by economic conditions as a result of the COVID-19 pandemic to provide cash flow assistance to employers who maintained their payroll (including healthcare and certain related expenses), mortgage interest, rent, leases, utilities and interest on existing debt during this emergency. The funding period of the PPP ended on May 31, 2021. Pursuant to the provisions of Section 1106 of the CARES Act, borrowers may apply to the Bank for loan forgiveness of all or a portion of the loan, subject to certain eligibility requirements and conditions.

### **Operational Risk**

Operational risk represents the risk of loss resulting from our operations, including, but not limited to, the risk of fraud by employees or persons outside the Company, errors relating to transaction processing and technology, failure to adhere to compliance requirements, and the risk of cyber attacks. We are also exposed to operational risk through our outsourcing arrangements, and the effect that changes in circumstances or capabilities of our outsourcing vendors can have on our ability to continue to perform operational functions necessary to our business. The risk of loss also includes the potential legal actions that could arise as a result of an operational deficiency or as a result of noncompliance with applicable regulatory standards, adverse business decisions or their implementation, and customer attrition due to potential negative publicity. Operational risk is inherent in all business activities, and management of this risk is important to the achievement of Company goals and objectives.

Our Operational Risk Committee (the "ORC") provides oversight and assesses the most significant operational risks facing the Company. We have developed a framework that provides for a centralized operating risk management function through the ORC, supplemented by business unit responsibility for managing operational risks specific to their business units. Our internal audit department also validates the system of internal controls through ongoing risk-based audit procedures and reports on the effectiveness of internal controls to executive management and the Audit and Risk Committee of the Board of Directors.

We continuously strive to strengthen our system of internal controls to improve the oversight of operational risk. While our internal controls have been designed to minimize operational risks, there is no assurance that business disruption or operational losses will not occur. On an ongoing basis, management reassesses operational risks, implements appropriate process changes, and invests in enhancements to our systems of internal controls.

### **Off-Balance Sheet Arrangements, Credit Commitments, and Contractual Obligations**

#### *Off-Balance Sheet Arrangements*

We hold interests in several unconsolidated variable interest entities ("VIEs"). These unconsolidated VIEs are primarily low-income housing partnerships and solar energy partnerships. Variable interests are defined as contractual ownership or other interests in an entity that change with fluctuations in an entity's net asset value. The primary beneficiary consolidates the VIE. We have determined that the Company is not the primary beneficiary of these entities. As a result, we do not consolidate these VIEs.

#### *Credit Commitments and Contractual Obligations*

Our credit commitments and contractual obligations have not changed materially since previously reported in our Annual Report on Form 10-K for the year ended December 31, 2021.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

See “Market Risk” of this Management’s Discussion and Analysis of Financial Condition and Results of Operations.

### **Item 4. Controls and Procedures**

#### *Disclosure Controls and Procedures*

The Company’s management, including the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the Company’s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of June 30, 2022. The Company’s disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the U.S. Securities and Exchange Commission’s rules and forms, and that such information is accumulated and communicated to the Company’s management, including the Company’s Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company’s disclosure controls and procedures were effective as of June 30, 2022.

#### *Changes in Internal Control over Financial Reporting*

There were no changes in the Company’s internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended June 30, 2022, that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

**Part II - Other Information****Item 1. Legal Proceedings**

Information regarding legal proceedings is incorporated by reference from “Contingencies” in Note 12 to our Consolidated Financial Statements (unaudited) set forth in Part I of this report.

**Item 1A. Risk Factors**

There are no material changes from the risk factors set forth under Part I, Item 1A. “Risk Factors” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2021.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

The Parent’s repurchases of its common stock during the second quarter of 2022 were as follows:

**Issuer Purchases of Equity Securities**

Period	Total Number of Shares Purchased <sup>1</sup>	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs <sup>2</sup>
April 1 - 30, 2022	3,596	\$ 79.92	—	\$ 75,768,041
May 1 - 31, 2022	62,000	76.11	62,000	71,048,989
June 1 - 30, 2022	70,552	75.79	69,038	65,817,053
<b>Total</b>	<b>136,148</b>	<b>\$ 76.05</b>	<b>131,038</b>	

<sup>1</sup> During the second quarter of 2022, 5,110 shares were acquired from employees in connection with income tax withholdings related to the vesting of restricted stock and acquired by the trustee of a trust established pursuant to the Bank of Hawaii Corporation Director Deferred Compensation Plan (the “DDCP”) directly from the Parent in satisfaction of the Company’s obligations to participants under the DDCP. The issuance of these shares was made in reliance upon the exemption from the registration requirements of the Securities Act of 1933, as amended (the “Securities Act”) by Section 4(a)(2) thereof. The trustee under the trust and the participants under the DDCP are “Accredited Investors”, as defined in Rule 501(a) under the Securities Act. These transactions did not involve a public offering and occurred without general solicitation or advertising. The shares were purchased at the closing price of the Parent’s common stock on the dates of purchase.

<sup>2</sup> The share repurchase program was first announced in July 2001. The program has no set expiration or termination date. The actual amount and timing of future share repurchases, if any, will depend on market and economic conditions, regulatory rules, applicable SEC rules, and various other factors.

## Item 6. Exhibits

A list of exhibits to this Form 10-Q is set forth on the Exhibit Index and is incorporated herein by reference.

**Certification of Chief Executive Officer Pursuant to  
Rule 13a-14(a) of the Securities Exchange Act of 1934, as Amended,  
Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, Peter S. Ho, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Bank of Hawaii Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit and risk committee of the registrant's board of directors:
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

President

**Certification of Chief Financial Officer Pursuant to  
Rule 13a-14(a) of the Securities Exchange Act of 1934, as Amended,  
Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, Dean Y. Shigemura, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Bank of Hawaii Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit and risk committee of the registrant's board of directors:
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
