Bank of Hawaii Corporation Third Quarter 2009 Financial Results

- **Diluted Earnings Per Share \$0.76**
- **Net Income for the Quarter \$36.5 Million**
- **Board of Directors Declares Dividend of \$0.45 Per Share**

FOR IMMEDIATE RELEASE

HONOLULU, HI (October 26, 2009) — Bank of Hawaii Corporation (NYSE: BOH) today reported diluted earnings per share of \$0.76 for the third quarter of 2009, up from \$0.65 in the previous quarter, and down from \$0.99 in the same quarter last year. Net income for the third quarter of 2009 was \$36.5 million compared to net income of \$31.0 million in the second quarter of 2009, and \$47.4 million in the third quarter of 2008. Results for the third quarter of 2008 included a net credit of \$8.9 million related to the Company's resolution of Sale In/Lease Out ("SILO") leases with the Internal Revenue Service. The return on average assets for the third quarter of 2009 was 1.21 percent, compared to 1.06 percent during the previous quarter, and 1.82 percent during the same quarter last year. The return on average equity for the third quarter of 2009 was 16.44 percent compared to 14.49 percent for the second quarter of 2009, and 24.17 percent for the third quarter of 2008.

"Bank of Hawaii Corporation had good results for the third quarter of 2009 despite continuing economic weakness," said Allan R. Landon, Chairman, and CEO. "We were able to increase our liquidity, capital, and reserves, improve profitability, and our Board affirmed our dividend. Asset quality indicators were mixed this quarter as we continue to address weakened credits. Bank of Hawaii has a strong balance sheet and remains safe, balanced, and well prepared for the future."

For the nine months, ended September 30, 2009, net income was \$103.5 million compared to net income of \$152.9 million for the same period last year. Diluted earnings per share were \$2.16 for the nine-month period in 2009, down from \$3.17 for the same period in 2008. The year-to-date return on average assets was 1.19 percent compared to 1.95 percent for the same period in 2008. The year-to-date return on average equity was 16.24 percent, down from 26.26 percent for the nine months ended September 30, 2008 partially due to the growth in capital.

Bank of Hawaii Corporation Third Quarter 2009 Financial Results

Results for the nine months ended September 30, 2009 included gains of \$13.7 million from the disposition of leased equipment and the sale of the Company's retail insurance brokerage business. These gains were offset by increases in the allowance for loan and lease losses, expenses for legal contingencies, an industry-wide FDIC special assessment, impairment of a leveraged lease residual value, and early debt retirement. Results for the same period in 2008 included \$31.0 million from the mandatory redemption of Visa shares, a reversal of Visa legal costs, and a lessee's early buy-out of an aircraft lease. Partially offsetting these gains were expenses for employee incentives, legal contingencies, a call premium on Capital Securities, increases in the allowance for loan and lease losses, and contributions to the Bank of Hawaii Charitable Foundation. Details of these items are included in Table 2.

Financial Highlights

Net interest income, on a taxable equivalent basis, for the third quarter of 2009 was \$109.2 million, up \$6.0 million from net interest income of \$103.2 million in the second quarter of 2009, and up \$5.4 million from net interest income of \$103.8 million in the third quarter of 2008. Net interest income in the third quarter of 2009 included a charge of \$1.0 million related to impairment of the residual value of an aircraft leveraged lease investment. The increase in net interest income compared with the second quarter of 2009 was largely due to a higher level of earning assets and a higher net interest margin. Net interest income in the third quarter of 2008 included a \$4.0 million reduction of income related to settlement of the SILO leases. For the nine months ended September 30, 2009, net interest income, on a taxable-equivalent basis, was \$309.7 million compared to \$313.6 million for the same period in 2008. Analyses of the changes in net interest income are included in Tables 7a, 7b and 7c.

The net interest margin was 3.85 percent for the third quarter of 2009, a 12 basis point increase from 3.73 percent in the second quarter of 2009, and a 48 basis point decrease from 4.33 percent in the third quarter of 2008. For the nine months ended September 30, 2009, the net interest margin was 3.78 percent compared to 4.30 percent for the same nine months in 2008. The decrease in the net interest margin was largely the result of lower interest rates and the Company's strategy to increase liquidity and reduce risk.

Results for the third quarter of 2009 included a provision for credit losses of \$27.5 million compared with \$28.7 million in the second quarter of 2009 and \$20.4 million in the third quarter of 2008. The provision for credit losses exceeded net charge-offs by \$5.2 million in the third quarter of 2009. The provision for credit losses exceeded net charge-offs by \$3.0 million in the second quarter of 2009 and exceeded net charge-offs by \$13.0 million in the third quarter of 2008.

Noninterest income was \$56.8 million for the third quarter of 2009, a decrease of \$3.0 million compared to \$59.8 million in the second quarter of 2009, and essentially flat with noninterest income of \$57.0 million in the third quarter of 2008. Noninterest income in the second quarter of 2009 included a gain of \$2.8 million related to the disposition of leased equipment and \$0.9 million due to the previously mentioned sale of the retail insurance brokerage business.

Noninterest expense was \$84.0 million in the third quarter of 2009, down \$5.6 million from \$89.6 million in the previous quarter, and down \$2.8 million from \$86.8 million in the same quarter last year. Noninterest expense in the second quarter of 2009 included \$5.7 million related to an industry-wide FDIC special assessment. Noninterest expense in the third quarter of 2008 included a \$2.0 million broad based employee incentive accrual. An analysis of salary and benefit expenses is included in Table 8.

Bank of Hawaii Corporation Third Quarter 2009 Financial Results

The efficiency ratio for the third quarter of 2009 was 50.69 percent, compared with an efficiency ratio of 55.07 percent in the previous quarter and 54.05 percent in the same quarter last year. The efficiency ratio for the nine-month period ended September 30, 2009 was 52.74 percent compared with 51.12 percent for the same period last year.

The effective tax rate for the third quarter of 2009 was 32.71 percent, compared to 30.18 percent in the previous quarter, and 11.24 percent during the third quarter last year. Taxes in the third quarter of 2009 included a \$0.4 million credit related to the previously mentioned leveraged lease residual value impairment, and taxes in the second quarter of 2009 were reduced by a \$1.6 million tax benefit resulting from accounting for the termination of a leveraged lease. The lower effective tax rate in the third quarter of 2008 was due to a credit of \$12.9 million related to the previously mentioned SILO lease settlement.

The Company's business segments are defined as Retail Banking, Commercial Banking, Investment Services, and Treasury & Other. Results are determined based on the Company's internal financial management reporting process and organizational structure. Selected financial information for the business segments is included in Tables 12a and 12b.

Asset Quality

Credit quality during the third quarter of 2009 continued to reflect the weak national and local economies. Non-accrual loans and leases were \$48.3 million at the end of September 30, 2009, up from \$38.6 million at June 30, 2009, and up from \$5.6 million at September 30, 2008. As a percentage of total loans and leases, non-accrual loans and leases were 0.81 percent at September 30, 2009. The increase in non-accrual loans was largely in two commercial construction loans.

Accruing loans and leases past due 90 days or more increased \$2.7 million during the third quarter of 2009 due to the addition of a \$3.0 million commercial construction loan on the island of Hawaii, which offset a small decline in delinquent consumer loans. More information on non-performing assets and accruing loans and leases past due 90 days or more is presented in Table 10.

Net charge-offs during the third quarter of 2009 were \$22.3 million, down from \$25.7 million in the second quarter of 2009, and up from \$7.4 million in the third quarter last year. Net charge-offs for the third quarter of 2009 included \$5.8 million in partial charge-offs related to three non-accrual commercial construction loans and \$4.0 million in partial charge-offs related to the sale of three syndicated credits.

The allowance for loan and lease losses was \$142.7 million at September 30, 2009, up from \$137.4 million at June 30, 2009 and \$115.5 million at September 30, 2008. The ratio of the allowance for loan and lease losses to total loans and leases increased to 2.41 percent at September 30, 2009. The reserve for unfunded commitments at September 30, 2009 was unchanged at \$5.4 million. Details of charge-offs, recoveries and the components of the total reserve for credit losses are summarized in Table 11.

Other Financial Highlights

Total assets were \$12.21 billion at September 30, 2009, up slightly from total assets of \$12.19 billion at June 30, 2009, and up \$1.87 billion from total assets of \$10.34 billion at September 30, 2008. Average total assets were \$11.99 billion during the third quarter of 2009, up \$235 million from average assets of \$11.75 billion during the previous quarter, and up \$1.65 billion

Bank of Hawaii Corporation Third Quarter 2009 Financial Results

from average assets of \$10.34 billion during the third quarter last year. The growth in assets was primarily in investment securities available for sale and is the result of strong deposit generation.

The Company continued to decrease loans during the quarter due to reduced loan demand along with planned credit exits and payoffs to reduce overall portfolio risk. Also in the third quarter of 2009, the Company sold its position in three syndicated loans totaling \$19.5 million. Loan and lease portfolio balances, including elements of higher risk, are summarized in Table 9.

Total deposits were \$9.25 billion at September 30, 2009, up \$230 million from \$9.02 billion at June 30, 2009, and up \$1.59 billion from \$7.66 billion at September 30, 2008. The increase in deposits was widespread among deposit categories except time deposits. Average total deposits were \$9.13 billion in the third quarter of 2009, down \$91 million from average deposits of \$9.22 billion during the previous quarter, and up \$1.36 billion from \$7.77 billion during the third quarter last year. The Company slowed deposit growth during the third quarter due to the limited lending opportunities. Deposit balances are summarized in Tables 6a, 6b, and 9.

Consistent with the Company's strategy to build capital levels, no shares were repurchased during the third quarter of 2009. Remaining buyback authority under the share repurchase program was \$85.4 million at September 30, 2009. Total shareholders' equity increased to \$902.8 million at September 30, 2009, compared to \$845.9 million at June 30, 2009, and \$780.0 million at September 30, 2008.

The ratio of tangible common equity to risk weighted assets was 14.56 percent at September 30, 2009, up from 13.02 percent at June 30, 2009, and up from 11.04 percent at September 30, 2008. At September 30, 2009, the Tier 1 leverage ratio was 6.67 percent compared to 6.66 percent at June 30, 2009, and 7.27 percent at September 30, 2008. The decrease in the Tier 1 leverage ratio compared with the same quarter last year was due to the significant growth in investment securities, primarily Treasury and Ginnie Mae securities.

The Company's Board of Directors declared a quarterly cash dividend of \$0.45 per share on the Company's outstanding shares. The dividend will be payable on December 14, 2009 to shareholders of record at the close of business on November 30, 2009.

On October 9, 2009, the Company signed an agreement to sell certain assets of the Company's wholesale insurance business, Triad Insurance Agency, Inc. ("Triad"), to a third party. The agreement precludes the Company from competing directly or indirectly with Triad for a period of five years after the closing date of the sale. In connection with this sale, several employees of Triad were hired by the third party. The sale of Triad closed on October 22, 2009 and resulted in a pre-tax gain of approximately \$1.5 million. Net income of Triad for the year ended December 31, 2008 was approximately \$4.5 million.

Hawaii Economy

Hawaii's economy during the third quarter of 2009 continued to reflect weakness primarily the result of slow national economic conditions and lower visitor activity in the state. Visitor arrivals appear to be stabilizing. However, visitor spending continues to decline as a result of discounting. State general fund revenues have declined 14.4 percent during the first eight months of 2009 primarily due to a decline in general excise and use taxes. Total jobs have contracted 3.1 percent from the beginning of the year. The statewide unemployment rate improved slightly to 7.2 percent on a seasonally adjusted basis at the end of September compared with 7.3 percent at the

Bank of Hawaii Corporation Third Quarter 2009 Financial Results

end of June. Residential real estate prices in Hawaii continue to hold their value better than many U. S. mainland markets and months of inventory declined to 5.3 months at the end of September. More information on Hawaii economic trends is presented in Table 14.
